Dear Dale Payne;

Water right certificate #703 was issued in the name of C. E. Stewart and J. C. Porter for the use of 0.57 cubic foot per second of water from Brumbaugh Creek, sometimes called Mosby Creek for irrigation and domestic purposes with a priority date of November 9, 1909. The irrigation being for 7.0 acres in SE $\frac{1}{4}$ NE $\frac{1}{4}$ and 30.0 acres in NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 12, T., 21S., R. 3W., W.M.

The original application was for 174.1 acres. The Proof of Appropriator indicated only 37.0 acres was irrigated. There was no final proof survey made so the only map we have is that of the applicant for the total area affected.

Should you still desire copies of the water right certificate and a copy of the application map, we will be pleased to provide same upon receipt of \$1.00 for the certificate and an additional \$.50 for the map.

We wish to remind you that in most cases, the right will be valid as described by the certificate. However, the right or any part thereof may be forfeited by five successive years of non-use. Our records will not show that a right has been lost until a cancellation proceeding has been initiated.
