

Oregon Water Resources Department

FORM Q
FOR COMMERCIAL AND INDUSTRIAL WATER USES

1. Describe the goods and services you plan to provide:

Concrete batch plant operation; ancillary uses, see below

2. How will the water be used?

Water from the wells is used to produce concrete for transport by truck to
offsite construction sites; water used for cleanup needs, dust abatement, gravel cooling.

3. What is the maximum amount of water that will be used on any given day:

100,000 gallons cfs gpm

4. Are there periods of the day, week, month, or year that the water will not be used?

(e.g. no use December–March)

No Yes If so, when? However, rarely used nights or weekends

5. Is there a particular time or period of day, week, month, or year when the use of water is absolutely essential for the project to continue? *(e.g. vegetable processing, Oct. 15–Nov. 15)*

No Yes If so, when? Must be available year around

6. Are there periods of the day, week, month, or year where the amount of water used will be less than at peak times?

No Yes If so, when? Nights, weekends, slower construction seasons
