do hereby request that the time in which to:

complete construction (of diversion/appropriation works and/or purchase and installation of the equipment necessary to the use of water), which time now expires on **Month: October Day: 1 Year: 2014**, be extended to October 1, 2020 [OAR 690-315-0020(3)(i)]

N/A (Check this box if the permit does not specify a date by when construction must be completed.)

and/or the time in which to:

apply water to full beneficial use under the terms and conditions of the permit, which time now expires on **Month: October Day: 1 Year: 2014**, be extended to October 1, 2020 [OAR 690-315-0020(3)(i)]

I am the permit holder, or have written authorization from the permit holder (attached to this Application for Extension of Time), to apply for an extension of time under this permit. I understand that false or misleading statements in this extension application are grounds for OWRD to suspend processing of the request and/or reason to deny the extension.

**GENERAL TIPS:**

- Permit holders of **municipal or quasi-municipal water use permits DO NOT use this form**. The correct form is APPLICATION FOR EXTENSION OF TIME FOR MUNICIPAL AND QUASI-MUNICIPAL WATER USE PERMITS, available at the following link:  
[http://www.oregon.gov/owrd/PUBS/docs/forms/fillable\\_muni\\_quasi\\_ext\\_app\\_form\\_2014.doc](http://www.oregon.gov/owrd/PUBS/docs/forms/fillable_muni_quasi_ext_app_form_2014.doc)
- Request the reasonable amount of time necessary to fully complete construction of the water project and/or to fully use the permitted quantity of water under the terms and conditions of your permit. Should this request be approved, it will be OWRD's expectation that you will complete your project within the new time period allowed. Future extensions may not be granted.
- A separate APPLICATION FOR EXTENSION OF TIME must be submitted for each permit. OAR 690-315-0020(2).
- An instruction sheet, INSTRUCTIONS FOR COMPLETING AN APPLICATION FOR EXTENSION OF TIME FOR A WATER RIGHT PERMIT (Attachment A), provides details that will help you answer each question on the application. Permit extensions are evaluated under OAR Chapter 690, Division 315. These rules may be viewed at:  
[http://arcweb.sos.state.or.us/pages/rules/oars\\_600/oar\\_690/690\\_315.html](http://arcweb.sos.state.or.us/pages/rules/oars_600/oar_690/690_315.html)
- You may provide OWRD with any additional information or evidence that will aid us in making our decision. Please note that OWRD may require other information that is necessary to evaluate the application. OAR 315-0020(3)(n).

- After careful review of the Application for Extension of Time, you may contact OWRD at (503) 986-0900, to ask questions and request assistance from a Permit Extensions Specialist in the Water Rights Services Division.
- An Application for an Extension of Time will be reviewed for completeness. OWRD will return any incomplete or deficient applications to the applicant. OAR 690-315-0040(1)(a).

**Reference Materials Needed to Complete this Application:**

- **The water right permit.** If needed, a copy of the water right permit can be downloaded from the Department’s Website at <http://apps.wrd.state.or.us/apps/wr/wrinfo/> (using the link to the Water Rights Information System (WRIS). Or, a copy of the permit (or other documents) may be requested by water right application number from the Water Rights Division at 503-986-0900 (copy fees will apply).
- **Documentation which demonstrates compliance with permit conditions** (for example, well construction logs; static water level measurement reports; annual water use reports; ODFW fish screen certification; a plan to monitor the effect of water use on ground water aquifers utilized under the permit; etc.).

**Questions to complete this application for an Extension of Time**

2. Permits typically contain standard or special conditions that must be fully satisfied to lawfully develop and use permitted water. Review the permit subject to this extension to identify which of the conditions listed in the 2<sup>nd</sup> column are contained within it. Using the extra row labeled "other" to specify any other additional conditions specified in a final order approving a permit amendment or prior extension of time. In the 1<sup>st</sup> column check the box for each condition (row) identified as relevant. In the 3<sup>rd</sup> column check "Yes" if you have completed or met the permit condition. Check "No" if the condition is not yet satisfied. In the 4<sup>th</sup> column, give the date when the condition was satisfied or will be satisfied. Attach any pertinent documentation. Note: a pump test condition does not need to be addressed here however; you must submit the results of the test to the Department for approval prior to certification.

**12. Describe the reasons why the construction was not completed, and/or water was not beneficially used within permit time limits. Provide supporting information for the reason(s) that best fits your circumstances. Include any additional unforeseen events and/or other governmental regulation or requirements.**

At the time of the filing of the previous extension (2011), the owner of the property was Gordon Bloomquist. In 2013 the property went in to foreclosure and was sold to Sunnyside Dairy LLC. The permit was assigned to the new owner and a farm manager was brought in. The former farm manager mishandled the application of resources and as a result delayed the development of the permitted acreage. When the remaining acreage was developed, the applicant was informed by OWRD that it was too late to file for a permit amendment to change the location of a portion of the acres, as well as to add additional POAs as the changes were made within six months of the October 2014 completion date. The applicant experienced some construction

problems in one of the existing wells and needed to replace one of the wells in order to put the water to full beneficial use under the terms and conditions of the permit.

[OAR 690-315-0020(3)(k)]

**13. Justify the time requested to complete the project and/or apply the water to full beneficial use.** Include any other information or evidence to establish that the requested amount of time is sufficient and that you will be able to complete the project within the amount of time requested.

The land to which this groundwater permit is appurtenant went through foreclosure in 2013. This land is part of a larger piece of property that has multiple water rights. The applicant purchased the property out of foreclosure and began the daunting process of assessing and cleaning up the property and the water rights. The applicant is currently working with the local watermaster (JR Johnson) to address WRD's concerns pertaining to the place of use and correct well locations. The 255 acres of this water right have been developed; however some of the acres and wells are not in the location originally proposed in the permit. Additionally, a portion of the remaining lands developed overlap another water right (Permit G-16421 – of which the applicant is also preparing a permit amendment to amend a portion of the place of use.) We are requesting this additional extension so that the applicant can file a permit amendment to address both the place of use and POA/APOA changes, and to apply water to beneficial use under the terms and conditions of the permit.

**14. Provide any other information you wish OWRD to consider while evaluating your Application for Extension of Time.**

The new landowner (permittee) has made significant financial investments in the development of this permit – which is part of a larger property project. Financial resources have been diverted to complete development of additional water rights on this property. Given the complexity of the multiple water rights associated with this large property, and the delays caused by purchasing a foreclosed property, replacing a farm manager, drought - circumstances beyond the control of the permit holder, an extension of time until 2020 is both reasonable and necessary to apply water to beneficial use under the terms and conditions of the permit.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

#### STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

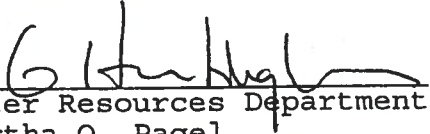

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance, and shall be completed on or before October 1, 1998. Complete application of the water to the use shall be made on or before October 1, 1999.

**Final Order**  
**Extension of Time for Permit Number G-12301**  
**Permit Holder: Gordon Bloomquist**

Appeal Rights

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. A request for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either file for judicial review, or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Application History

Permit G-12301 was issued by the Department on February 29, 1996. The permit called for completion of construction By October 1, 1998 and complete application of water to beneficial use by October 1, 1999. One prior permit extension has been granted for Permit G-12301. The most recent extension resulted in the full application of water being extended to October 1, 2005. On February 29, 2011, Gordon Bloomquist submitted to the Department an Application for Extension of Time for Permit G-12301. In accordance with OAR 690-315-0050(2), on August 30, 2011, the Department issued a Proposed Final Order proposing to extend the time to complete construction to October 1, 2014, and the time to apply water to full beneficial use to October 1, 2014. The protest period closed October 14, 2011, in accordance with OAR 690-315-0060(1). No protest was filed.

The Department adopts and incorporates by reference the Proposed Final Order dated August 30, 2011.

At time of issuance of the Proposed Final Order the Department concluded that, based on the factors demonstrated by the applicant, the permit may be extended subject to no additional conditions.

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.230, 539.010(5) and OAR 690-315-0040(2).

#### GENERAL TIPS:

- Permit holders of municipal or quasi-municipal water use permits **DO NOT** use this form. The correct form is *Application for Extension of Time for Municipal and Quasi-Municipal Water Use Permits*, available at the following link:  
<http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml#other>
- Request the reasonable amount of time necessary to fully complete the water construction project and/or to fully use the permitted quantity of water under the terms and conditions of your permit. Should this request be approved, it will be OWRD's expectation that you will complete your project within the new time period allowed. Future extensions may not be granted.
- A separate Application for Extension of Time must be submitted for each permit. OAR 690-315-0020(2).
- An instruction sheet (Instructions for Filling Out Extension of Time Application for Permits) provides details that will help you answer each question on the application. Permit extensions are evaluated under OAR Chapter 690, Division 315. These rules may be viewed at:  
<http://www.wrd.state.or.us/OWRD/LAW/index.shtml>.

- You may provide OWRD with any additional information or evidence that will aid us in making our decision. Please note that OWRD may require other information that is necessary to evaluate the application. OAR 315-0020(3)(n).
- After careful review of the Application for Extension of Time, you may contact OWRD at (503) 986-0900, to ask questions and request assistance from a Permit Extensions Specialist in the Water Rights and Adjudications Division.
- Once an Application for Extension of Time is received by OWRD, it will be reviewed for completeness. OWRD will return any incomplete or deficient applications to the applicant. OAR 690-315-0040(1)(a).

**Reference Materials Needed to Complete this Application:**

- The water right permit. If needed, a copy of the water right permit can be downloaded from the Department's Website at <http://www.wrd.state.or.us> (find the link to the Water Rights Information System (WRIS). Or, a copy of the permit (or other documents) may be requested by water right application number from the Water Rights Division at 503-986-0900 (copy fees will apply).
- Documentation which demonstrates compliance with permit conditions (for example, well construction logs; static water level measurement reports; annual water use reports; ODFW fish screen certification; a plan to monitor the effect of water use on ground water aquifers utilized under the permit; etc.).

**Answer the Following Questions to Complete this Application for Extension of Time**

[OAR 690-315-0020(3)(d)]

1. Did the actual construction of the water system/well drilling begin within the time specified in the permit?  Yes  No

**TIP:** Not all permits specify a date by which construction was to begin.

Date construction began is: 1991

Details of construction: Pivot + main line installed
