

## Application for Extension of Time for a Water Right Permit (NON-Municipal/NON Quasi-Municipal water Use)

Oregon Water Resources Department  
725 Summer Street NE, Suite A  
Salem Oregon 97301

### Criteria for a Permit Extension of Time

The Department can accept requests for an extension of time on permits to **(1) complete construction**, and/or to **(2) apply water** to beneficial use.

In order to approve a permit extension request the Department must be able to find:

**1) Construction has begun:**

**A. For Groundwater Permits**

Construction of the well began within 5 years of the date the permit was issued or by the actual construction date specified in the permit.

**B. For Surface Water or Reservoir Permits**

Construction of the water system began within 5 years of the date the permit was issued or by the actual construction date specified in the permit.

The Department will also confirm that:

- 2) A required fish screen, fish passage or fish by-pass device was installed before or prior to diversion of any water.** An exception to the need to confirm installation prior to diversion of any water would be a waiver submitted to the Department from ODFW stating that a fish screen, fish passage or fish by-pass device was not required, provided your permit allows for a waiver.

If you have questions, please call the Department at (503)-986-0900 and ask to speak with a permit extension specialist.

Instructions are in Attachment A.

2. Permits typically contain standard or special conditions that must be fully satisfied to lawfully develop and use permitted water. Review the permit subject to this extension to identify which of the conditions listed in the 2<sup>nd</sup> column are contained within it. Using the extra row labeled "other" to specify any other additional conditions specified in a final order approving a permit amendment or prior extension of time. In the 1<sup>st</sup> column check the box for each condition (row) identified as relevant. In the 3<sup>rd</sup> column check "Yes" if you have completed or met the permit condition. Check "No" if the condition is not yet satisfied. In the 4<sup>th</sup> column, give the date when the condition was satisfied or will be satisfied. Attach any pertinent documentation. Note: a pump test condition does not need to be addressed here however; you must submit the results of the test to the Department for approval prior to certification.

The system & use were fully developed in 1976 & remained so until sometime between then & 2000. The permit wasn't certificated in 1976 because available surface water hadn't been used (see 1978 letter from Bruce Estes). No follow up visit is noted until 2000 when a new owner changed the system to center pivot sprinklers. Since the certificate hadn't been issued yet and the completion date has passed in 1977, a transfer for the pivots couldn't be made to move the corner areas.
