Good afternoon John,

The Groundwater review has finally been completed for this permit, so I can finally move forward on this one. However, I need some updates before I can move forward. I have attached a water use report for HARN 52507 (Well 2), which identifies an equivalent of 1.79 AF of water was appropriated in 2017. This would indicate that a pump and meter has been installed, and water may have been used for irrigation. The Application was received June 19, 2017, being prior to the C-date of Oct. 1, 2017.

If the installation of a pump and meter was accomplished, water was used, and land was irrigated (or more land was developed than identified on the Application), I would need amendments completed for the Application. These amendments would include Chart B on page 6, Question 5 on page 7, Chart D on page 8, and Question 9 and Chart E on page 9. In order for me to move forward, please submit the corrected amendments no later than February 6, 2018.

Let me know if you have any questions or concerns.

Thank you,

Corey A Courchane
