This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

REFERENCE: File 63843

Your Application 63843 describing the proposed use of 0.01 cubic foot of water per second from Ternmile Lake for the domestic use for one family to include the irrigation of up to 0.25 acre lawn or garden, along with the accompanying map and legal description, has been reviewed.

It will be necessary for you to clarify your intended use of water. The use as described by Items 3 and 5 are not in agreement. Domestic use, generally, is considered to be inhouse use, but may include up to one-half acre irrigation of lawn or non-commercial garden if the irrigation system is an integral part of the domestic system. Therefore, if you intend an integral system and do not intend to exceed the one-half acre, the use may be specifically stated as "domestic supplies including the irrigation of a lawn or noncommercial garden not to exceed one-half acre in area" in Items 3 and 5 of your application. When the irrigation of the lawn and garden are included within the domestic use, the irrigation use must stop if the inhouse use is discontinued.

I am returning your application for correction. Your application is endorsed so that in order to retain its priority date, it must be received in this office on or before October 25, 1982.

Sincerely,

Stephen C. Brown

We have received your application for use of water for domestic use including irrigation along with the supporting data and fees. Our Receipt 32363 is enclosed. Your application has been filed and assigned number 63843.

Because of the many applications which have been filed in recent months, we are temporarily behind in our processing. Your application will be examined in detail as soon as possible. We will contact you if we need any additional information. If a permit is required to satisfy the conditions of a loan or land sale or if other emergency conditions exist, please let us know and we will attempt to process your application in the shortest possible time.

After examining your application, a permit may be issued without further correspondence if no additional information is required and it does not conflict with existing rights. The proposed appropriation will be subject to the Water Policy Review Board's Basin Program Statements, existing minimum flows, and demands of prior rights during periods of low water.

Thank you for your patience.
