**RE: Fish Screening and Passage Requirement for Oregon Water Resources
Department Water Right Permit # S-88708**

Mary and Rob,

Thank you for contacting the Oregon Department of Fish and Wildlife (ODFW) regarding fish screening and passage at your point of diversion (POD) associated with water right application number S-88708 from reservoir R-88697. After application review and an onsite inspection, ODFW has determined that native fish are not currently or historically present at the location of this permit and application. Therefore, fish screening, bypass devices, and fish passage are not required.

Thank you for coordinating with ODFW on this project and if you have any questions, please contact me at 971-673-2040.

Sincerely,

Monica Blanchard
Assistant District Fish Biologist
