Enclosed is a Xerox copy of the final proof map as marked by Tom Pierce. I have shaded in yellow and green the lands apparently intended to be allowed the water right. As near as I can figure, the lands shaded in green are the acres included on the property of Mr. Carl Jacobson.

On the proof of appropriation form, the applicant indicated that only diversion points #4 and #5 are being used for this water right.

Dear Mr. Burch:

This will acknowledge receipt of your application for an extension of time for which you submitted the \$2.00 fee on October 2, 1953, and for which our Receipt No. 227 was mailed to you at that time.

Since your project was started in August of 1946, it is felt that it should have been completed by this time. On examination of the application for extension of time it appears that you have been making some progress and you have been given the benefit of the doubt and the time has been extended to October 1, 1954, in which to complete construction and make complete application of water.

It is felt that this is the last extension which may be granted to you and by the first of October you should file forms "B" and "C" and make proof on that land which you have actually been able to irrigate.

If at a later date you would be able to develop and complete a project within an approximate 3 year period you should then file a new application.

Very truly yours,

Dear Sir:

According to the terms of your Permit No. 16346, which is for the appropriation of 2.86 second-feet of water from W. Fork Illinois River, complete application of water was to have been made on or before October 1, 1953. It appears from our records that you have failed to submit the notice of complete application, although a postal letter card, calling this matter to your attention, was mailed to you on October 15, 1953.

ORS 537.260 provides: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the State Engineer proof of completion of the appropriation as required by ORS 537.230 and 537.250, the State Engineer may, after 60 days! notice by registered mail, order the cancellation of the permit.  
\* \* \* \*"

If you have complied with the terms of this permit, you should promptly submit the notice of complete application of water after which we will take up with you the matter of final proof. If, however, you have abandoned your plan of development, we would appreciate your authority to cancel the permit, so that the permit may be cancelled without the necessity for following the legal procedure. In case you have not completed your appropriation, although you still wish to do so, you may submit an application for an extension of time. Such an extension may be granted if it appears that proper diligence has been shown.

Complete application of water under an irrigation permit means the irrigation of ALL of the land described in the permit, which it is intended to irrigate.

Very truly yours,

CHAS. E. STRICKLIN  
State Engineer

Dear Mr. Burch:

This will acknowledge receipt of your letter of October 2 requesting an extension of time in which to complete construction and make complete application of the water under the terms of your permit No. 16346, and check in the amount of \$2.00 for which our receipt No. 227 is enclosed.

In connection with your project, please be advised that the State Engineer is permitted to extend the time for completion of a project only upon showing of due diligence by the permittee. You should therefore execute your application for an extension of time completely and carefully so that it may be given proper consideration as over eight years have elapsed since the time of filing your application and there is some question as to whether or not the time can be extended.

For your convenience in making such application I am enclosing a form which must be executed before a notary public and returned to this office.

100 Acres in process of clearing

costing \$2500<sup>00</sup>, and I estimate the cost of completion to be \$5000-

I have heretofore used water under said permit to the following extent:

sprinkler type irrigation of seeded area during 1947

I am unable to {complete construction work / ~~make complete application of water~~} within the required time, for the following reasons, to wit:

I was unable to secure proper equipment in time to complete construction by Oct. 1-1947 - Now have new tractor + "cat" + portable irrigation system.

Extend to 49 (If additional space is required, attach separate sheet) (OVER) (Cons and appk)

(The fee provided by law in the amount of \$2.00 for filing an application for an extension of time should accompany the application for extension.)

APPLICATION FOR EXTENSION OF TIME

To the State Engineer of Oregon:
I, W. D. Burch, of the state of Oregon, am the owner and holder of Permit No. 12345 to appropriate the public waters of the state of Oregon.
Under the terms and conditions of said permit construction work is required to be completed on or before Oct 1, 1948 and complete application of water is required to be made on or before Oct 1, 1948.

I have heretofore done the following work described under said permit:
The area in process of clearing is approximately 32 A.
The area is cleared and seeded.

WHEREFORE, I ask that the State Engineer extend the time for the

{ completion of construction work } under said permit to Oct 1, 1949
+ { complete application of water }
(Strike out phrase not applicable)

AFFIDAVIT OF APPLICANT

Dear Sir:

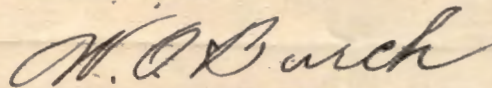

Please refer to Application No. 20870, and Permit  
No. 16346.

I am writing to ask for an extension of the time given  
for completion of the construction work on this  
project.

Due to the extent of the project, and to the extreme  
difficulty in getting equipment I will need this  
extension.

I now have the necessary equipment and sincerely hope  
the needed time extension will be granted.

Thank you,

(W. O. Burch)
