

**Oregon Water Resources Department
Water Right Services Division**

Water Right Application S-88743 in the)
name of ADAM RYAN and GOODFOOT) PROPOSED FINAL ORDER
FARM)

Summary: The Department proposes to issue an order approving Application S-88743 and a permit consistent with the attached draft permit.

Prior to the issuance of a permit, if one is issued, the Department must receive the following:

- **Permit recording fees in the amount of \$520.00. A check should be made out to the Oregon Water Resources Department or OWRD.**

Please include the application number on any documents submitted.

Authority

The application is being processed in accordance with Oregon Revised Statute (ORS) 537.153 through 537.175, and 390.826, and Oregon Administrative Rule (OAR) Chapter 690, Divisions 5, 33, 300, 310, 400, 410, and the Willamette Basin Program (OAR 690-502). These statutes and rules can be viewed on the following website: <https://www.oregon.gov/OWRD/programs/policylawandrules/Pages/default.aspx>.

The Department’s main website can be found at: <https://www.oregon.gov/OWRD>.

The Department shall presume that a proposed use will not impair or be detrimental to the public interest if:

- a) The proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310(12);
- b) Water is available;
- c) The proposed use will not injure other water rights; and
- d) The proposed use complies with the rules of the Commission. ORS 537.153(2); OAR 690-310-0110(1)

All four criteria must be met for a proposed use to be presumed to not impair or be detrimental to the public interest. When the criteria are met and the presumption is established, or if the proposed use can be modified or conditioned to meet the presumption criteria, the Department must further evaluate the proposed use, any comments received, information available in its files or received from other interested agencies and any other available information to determine whether the presumption is overcome. OAR 690-310-0120(3).

If the Department determines that the presumption is established and not overcome, the Department shall issue a Proposed Final Order recommending issuance of the permit subject to any appropriate modifications or conditions.

FINDINGS OF FACT

Application History

1. On September 19, 2019, Adam Ryan and Goodfoot Farm filed a complete application for the following water use:

Source	LUCKIAMUTE RIVER, TRIBUTARY TO WILLAMETTE RIVER
Use	IRRIGATION OF 11.0 ACRES OCTOBER 1 THROUGH JUNE 30
Rate	0.27 CUBIC FOOT PER SECOND (CFS)
County	BENTON COUNTY
Place of Use	SECTION 30, TOWNSHIP 10 SOUTH, RANGE 6 WEST, W.M.

2. On October 4, 2019, the Department mailed the applicant notice of its Initial Review, determining that **“The diversion of 0.14 CFS of water from Luckiamute River, tributary to Willamette River, for irrigation of 11.0 acres is allowable March 1 through June 30 and October 1 through October 31.”** The applicant did not notify the Department to stop processing the application within 14 days of that date.
3. On October 8, 2019, the Department gave public notice of the application in its weekly notice. The public notice included a request for comments, and information for interested persons about obtaining future notices and a copy of the Proposed Final Order.
4. On October 22, 2019, the applicant clarified the proposed period for irrigation as October 1 through June 30 of each year.
5. On October 25, 2019, the Department mailed the applicant notice of a Superseding Initial Review, determining that **“The diversion of 0.14 CFS of water from Luckiamute River, tributary to Willamette River, for irrigation of 11.0 acres is allowable October 1 through June 30 of each year.”** The applicant did not notify the Department to stop processing the application within 14 days of that date.
6. On October 29, 2019, the Department again gave public notice of the application in its weekly notice. The public notice included a request for comments, and information for interested persons about obtaining future notices and a copy of the Proposed Final Order.

Presumption Criteria (a) Consistency with Basin Program

7. The proposed use is allowed under the Willamette Basin Program (OAR 690-502-0100(2)(a)). ORS 537.153(2); OAR 690-310-0110(1)(a)

Presumption Criteria (b) Water Availability

8. An assessment of water availability at 80% exceedance for the proposed use was completed using the Department’s Water Availability Reporting System. A copy of this assessment is in the application file. This review is done consistent with OAR 690-410-0070(2)(a). The assessment established that water surface water is available during the period October 1 through June 30 of each year. ORS 537.153(2); OAR 690-310-0150(2)(c)

Presumption Criteria (c) Injury Determination

9. The proposed use will not injure other water rights. ORS 537.153(2); OAR 690-310-0150(2)(e)

Presumption Criteria (d) Whether the Use Complies with Rules of the Commission

10. Documentation has been submitted from the relevant land-use planning jurisdiction that indicates the proposed use is allowed outright. ORS 537.153(2)(b); OAR 690-310-0150(2)(b)
11. The proposed use is in an area of the state in which OAR 690-033-0210 thru -0230 and OAR 690-033-0310 thru -0340 apply. These rules establish definitions, additional procedures, and standards to aid the Department in determining whether a proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened, or endangered fish species.

OAR 690-033-0210 Lower Columbia Rules (Below Bonneville Dam)

- A. The proposed use of water is detrimental to the protection or recovery of a threatened or endangered species. OAR 690-033-0220(1)
- B. The proposed use can be conditioned or mitigated to avoid the detriment. OAR 690-033-0220(1)
- C. The application is not presumed to impair or be detrimental to the public interest.

OAR 690-033-0310 Statewide Rules

- A. The proposed use occurs occur in an area that may affect the habitat of sensitive, threatened or endangered fish species. OAR 690-033-0310(2)
- B. The applicant has been notified that based on a preliminary determination, the proposed use may affect the habitat of sensitive, threatened or endangered fish species and the application may be conditioned or denied. OAR 690-033-0330(1)(a)
- C. The interagency review team has been notified that an application has been received in an area that may affect the habitat of sensitive, threatened or endangered fish species. OAR 690-033-0330(1)(b)
- D. The interagency review team was convened to review the application and recommended conditions as necessary, including limiting the period of use to October 1 through June 15, to achieve the standards listed in 690-033-0330(2)(a) and (b). The draft permit has been conditioned accordingly.

Determination of Presumption that a Proposed Surface Water Use will not Impair or be Detrimental to the Public Interest

Based on the review of the presumption criteria (a)-(d) above, the presumption has been established. ORS 537.153(2); OAR 690-310-0110(1)(a)-(d)

Further Evaluation of the Proposed Use

12. No comments were received by the close of either comment period. OAR 690-310-0120(3)

13. Information available in department files, received from other interested agencies, and other available information does not provide a preponderance of evidence that the proposed use would impair or be detrimental to the public interest under ORS 537.153. OAR 690-310-0120(3)

Other Criteria and Requirements

14. The proposed use is not located within or above a state scenic waterway, as designated under ORS 390.826.

15. The amount requested, 0.27 CFS, is excessive for the proposed use.

16. The amount allowed shall be limited to 0.14 CFS. ORS 537.153(3)(c); OAR 690-310-0150(2)(d)

17. The applicant proposed methods to measure the amount of water diverted, prevent damage to aquatic life and riparian habitat, prevent discharge of contaminated water to a surface stream, or to prevent damage to public uses of any affected surface waters. These measures are adequate at this time. OAR 690-310-0150(2)(j)

18. The proposed use complies with rules of the Water Resources Commission not otherwise described above.

CONCLUSION OF LAW

1. The proposed use would not impair or be detrimental to the public interest as described in ORS 537.153(2).

NOTE: When issuing permits, ORS 537.170(6) authorizes the Department to include provisions or restrictions concerning the use, control and management of water to be appropriated for the project.

PROPOSED ORDER

The Department recommends approval of Application S-88743 and issuance of a permit consistent with the attached draft permit.

DATED July 21, 2020

Alyssa Mucken
Water Rights Section Manager, for
Thomas M. Byler, Director
Oregon Water Resources Department

Protests

Under the provisions of ORS 537.153(7) (for surface water) or ORS 537.621(8) (for groundwater), you can protest this Proposed Final Order. Protests must be received by the Water Resources Department no later than **September 4, 2020**.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified above.

Protests must be in writing and include the following:

- Your name, address, and telephone number;
- A description of your interest in the Proposed Final Order, and, if you claim to represent the public interest, a precise statement of the public interest represented;
- A detailed description of how the action proposed in the Proposed Final Order would impair or be detrimental to your interest;
- A detailed description of how the Proposed Final Order is in error or deficient, and how to correct the alleged error or deficiency;
- Any citation of legal authority to support your protest, if known;
- To affect the Department's determination that the proposed use in this application will, or will not, impair or be detrimental to the public interest, ORS 537.153(6) requires that a protest demonstrate, by a preponderance of evidence any of the following: (a) One or more of the criteria for establishing the presumption are, or are not, satisfied; or (b) The specific aspect of the public welfare, safety and health under ORS 537.170(8) that would be impaired or detrimentally affected, and specifically how the identified aspect of the public welfare, safety and health under ORS 537.170 (8) would be impaired or be adversely affected;
- If you are the applicant, a protest fee of \$410 required by ORS 536.050; and
- If you are not the applicant, a protest fee of \$810 required by ORS 536.050 and proof of service of the protest upon the applicant.
- If you are the applicant, a statement of whether or not you are requesting a contested case hearing.

Requests for Standing

Under the provisions of ORS 537.153(7) (for surface water) or ORS 537.621(8) (for groundwater), persons other than the applicant who support a Proposed Final Order can request standing for purposes of participating in any contested case proceeding on the Proposed Final Order or for judicial review of a Final Order.

Requests for standing must be received in the Water Resources Department no later than **September 4, 2020**. Requests for standing must be in writing, and must include the following:

- The requester's name, mailing address and telephone number;

- If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;
- A statement that the requester supports the Proposed Final Order as issued;
- A detailed statement of how the requester would be harmed if the Proposed Final Order is modified; and
- A standing fee of \$230. If a hearing is scheduled, an additional fee of \$580 must be submitted along with a petition for party status.

After the protest period has ended, the Director will either issue a Final Order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been submitted and either:

- upon review of the issues, the director finds that there are significant disputes related to the proposed use of water, or
- the applicant requests a contested case hearing within 30 days after the close of the protest period.

If you do not request a hearing within 30 days after the close of the protest period, or if you withdraw a request for a hearing, notify the Department or the administrative law judge that you will not appear or fail to appear at a scheduled hearing, the Director may issue a Final Order by default. If the Director issues a Final Order by default, the Department designates the relevant portions of its files on this matter, including all materials that you have submitted relating to this matter, as the record for purpose of proving a prima facie case upon default.

You may be represented by an attorney at the hearing. Legal aid organizations may be able to assist a party with limited financial resources. Generally, partnerships, corporations, associations, governmental subdivisions or public or private organizations are represented by an attorney. However, consistent with OAR 690-002-0020 and OAR 137-003-0555, an agency representative may represent a partnership, corporation, association, governmental subdivision or public or private organization if the Department determines that appearance of a person by an authorized representative will not hinder the orderly and timely development of the record in this case.

PHILOMATH OR 97370

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-88743

SOURCE OF WATER: LUCKIAMUTE RIVER, TRIBUTARY TO WILLAMETTE RIVER

PURPOSE OR USE OF THE WATER: IRRIGATION OF 11.0 ACRES

MAXIMUM RATE: 0.14 CUBIC FOOT PER SECOND

PERIOD OF USE: OCTOBER 1 THROUGH JUNE 15

DATE OF PRIORITY: SEPTEMBER 19, 2019

AUTHORIZED POINT OF DIVERSION:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
10 S	6 W	WM	29	SW SW	50 FEET NORTH AND 850 FEET EAST FROM WESTERLY SW CORNER, WATSON DLC 40

AUTHORIZED PLACE OF USE:

Twp	Rng	Mer	Sec	Q-Q	Acres
10 S	6 W	WM	30	SE SE	11.0

1. Water Use Measurement, Recording, and Reporting Condition:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter at each point of diversion. The permittee shall maintain the device in good working order.
- B. The permittee shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.

- C. The Director may require the permittee to keep and maintain a record of the volume of water diverted, and may require the permittee to report water-use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water-use information, the periods of water use and the place and nature of use of water under the permit.
- D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

2. Fish Screen Condition:

The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional prior to diversion of any water. Permittee shall obtain written approval from ODFW that the installation of the required screen and by-pass devices meets the state's criteria or the permittee shall submit documentation that ODFW has determined screens and/or by-pass devices are not necessary.

3. Riparian Condition:

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

4. Water Quality Condition:

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

5. Agricultural Water Quality Management Area Rules Condition:

The permittee shall comply with basin-specific Agricultural Water Quality Management Area Rules in OAR 603-095. Livestock management and cropping must protect riparian areas on the property, allowing site capable vegetation along streams to establish and grow to provide the following functions; shade (on perennial and some intermittent streams), bank stability, and infiltration or filtration of overland runoff. Active management of livestock and/or a livestock exclusion fence is needed to protect riparian areas and provide the required functions

STANDARD CONDITIONS

- 1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
- 2. Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

3. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
4. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
5. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
6. Construction of the water system shall begin within five years of the date of permit issuance. The deadline to begin construction may not be extended. This permit is subject to cancellation proceedings if the begin construction deadline is missed.
7. Complete application of the water shall be made within five years of the date of permit issuance. If beneficial use of permitted water has not been made before this date, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.
8. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.
