## **SECTION 2: PROPERTY OWNERSHIP** Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used. RECEIVED YES, there are no encumbrances. AUG 1 4 2020 YES, the land is encumbered by easements, rights of way, roads or other encumbrances. OWRD NO, I have a recorded easement or written authorization permitting access. NO, I do not currently have written authorization or easement permitting access. NO, written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040). NO, because water is to be diverted, conveyed, and/or used only on federal lands. Affected Landowners: List the names and mailing addresses of all owners of any lands that are not owned by the applicant and that are crossed by the proposed ditch, canal or other work, even if the applicant has obtained written authorization or an easement from the owner. (Attach additional sheets if necessary). Legal Description: You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the See attached Exhibit A water is to be used as depicted on the map. SECTION 3: SOURCE OF WATER A. Proposed Source of Water Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into (if unnamed, say so), and the locations of the point of diversion (POD): Tributary to: Source 1: Willamette Ash Creek South Township: 8, Range: 4, Section: 31, Quarter: NW/NE TRSQQ of POD: Tributary to: Source 2: TRSQQ of POD: If any source listed above is stored water that is authorized under a water right permit, certificate, or decree, attach a copy of the document or list the document number (for decrees, list the volume, page and/or decree name). **B.** Applications to Use Stored Water Do you, or will you, own the reservoir(s) described in Section 3A above?

No. (Enclose a copy of your written notification to the operator of the reservoir of your intent

to file this application, which should have been mailed or delivered to the operator.)

Yes.

For Department Use: App. Number: \_

If <i>all</i> sources listed in Section 3A are stored water, the Department will review your application us expedited process provided in ORS 537.147, unless you check the box below. Please see the instrutor more information.		
By checking this box, you are requesting that the Department process your application under the process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by C To file an application under the standard process, you must enclose the following:		
<ul> <li>A copy of a signed non-expired contract or other agreement with the owner of the rese you) to impound the volume of water you propose to use in this application.</li> </ul>	ervoir (if not	
<ul> <li>A copy of your written agreement with the party (if any) delivering the water from the you.</li> </ul>	reservoir to	
SECTION 4: SENSITIVE, THREATENED OR ENDANGERED FISH SPECIES PURITHEREST INFORMATION	UBLIC	
This information must be provided for your application to be accepted as complete. The Water Re Department will determine whether the proposed use will impair or be detrimental to the public integard to sensitive, threatened or endangered fish species.	sources terest with	
To answer the following questions, use the map provided in <u>Attachment 3</u> or the link below to do whether the proposed point of diversion (POD) is located in an area where the Upper Columbia, Columbia, and/or the Statewide public interest rules apply.	etermine the Lower	
For more detailed information, click on the following link and enter the T,R,S,QQ or the Lat/Lor and click on "Submit" to retrieve a report that will show which section, if any, of the rules apply <a href="https://apps.wrd.state.or.us/apps/misc/lkp_trsqq_features/">https://apps.wrd.state.or.us/apps/misc/lkp_trsqq_features/</a>		
If you need help to determine in which area the proposed POD is located, please call the custome at (503) 986-0801.	er service desk	
<u> Upper Columbia - OAR 690-033-0115 thru -0130</u>	RECEIVE	
Is the POD located in an area where the Upper Columbia Rules apply?	AUG 1 4 20	20
☐ Yes ☑ No	OWRD	
If yes, you are notified that the Water Resources Department will consult with numerous federal, tribal governmental entities so it may determine whether the proposed use is consistent with the "C Basin Fish and Wildlife Program" adopted by the Northwest Power Planning Council in 1994 for t and recovery of listed fish species. The application may be denied, heavily conditioned, or if appromitigation for impacts may be needed to obtain approval for the proposed use.	state, local and Columbia River The protection	,
If yes,		
<ul> <li>I understand that the proposed use does <u>not</u> involve appropriation of direct streamflow dur period April 15 to September 30, <u>except as provided in OAR 690-033-0140</u>.</li> </ul>	ing the time	
<ul> <li>I understand that I will install, operate and maintain a fish screen and fish passage as listed 498.301 through 498.346, and 509.580 through 509.910, to the specifications and extent re Oregon Department of Fish and Wildlife, prior to diversion of water under any permit issue this application.</li> </ul>	equired by	
Surfac	e Water — Page 3	

For Department Use: App. Number:

Rev. 06-18

- I understand that the Oregon Department of Environmental Quality will review my application to determine if the proposed use complies with existing state and federal water quality standards.
- I understand that I will install and maintain water use measurement and recording devices as required by the Water Resources Department, and comply with recording and reporting permit condition requirements.

Lower Columbia - OAR 690-033-0220 thru -0230 Is the POD located in an area where the Lower Columbia rules apply?
✓ Yes □ No
If yes, you are notified that that the Water Resources Department will determine, by reviewing recovery plans, the Columbia River Basin Fish and Wildlife Program, and regional restoration programs applicable to threatened or endangered fish species, in coordination with state and federal agencies, as appropriate, whether the proposed use is detrimental to the protection or recovery of a threatened or endangered fish species and whether the use can be conditioned or mitigated to avoid the detriment.
If a permit is issued, it will likely contain conditions to ensure the water use complies with existing state and federal water quality standards; and water use measurement, recording and reporting required by the Water Resources Department. The application may be denied, or if appropriate, mitigation for impacts may be needed to obtain approval of the proposed use.
If yes, provide the following information (the information must be provided with the application to be considered complete).
Yes No The proposed use is for more than one cubic foot per second (448.8 gpm) and is not subject to the requirements of OAR 690, Division 86 (Water Management and Conservation Plans).
If yes, provide a description of the measures to be taken to assure reasonably efficient water use:  Drip irrigation will be the primary means of application and more disught - tolerant crops are anticipated.  Statewide - OAR 690-033-0330 thru -0340
Is the POD located in an area where the Statewide rules apply?
✓ Yes □ No
If yes, the Water Resources Department will determine whether the proposed use will occur in an area where endangered, threatened or sensitive fish species are located. If so, the Water Resources Department, Department of Fish and Wildlife, Department of Environmental Quality, and the Department of Agriculture will recommend conditions required to achieve "no loss of essential habitat of threatened and endangered (T&E) fish species," or

"no net loss of essential habitat of sensitive (S) fish species." If conditions cannot be identified that meet the standards of no loss of essential T & E fish habitat or no net loss of essential S fish habitat, the agencies will recommend denial of the application unless they conclude that the proposed use would not harm the species.

## **Water-Use Permit Application Processing**

#### 1. Completeness Determination

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050. The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

#### 2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$260. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

#### 3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives <u>public notice</u> of the application in the weekly notice published by the Department at <u>www.oregon.gov/owrd</u>. The public comment period is 30 days from publication in the weekly notice.

#### 4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

#### 5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$410.00 for the applicant and \$810.00 for non-applicants. Protests are filed on approximately 10 percent of Proposed Final Orders. If a protest is filed the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

#### 6. Final Order Issued

If no protests are filed, the Department can issue a Final Order within 60 days of the close of the period for receiving protest. If the application is approved, a permit is issued. The permit specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate

# **Land Use Information Form**

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 503-986-0900 www.oregon.gov/OWRD

## NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

#### This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or groundwater registration modification, and all of the following apply:
  - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b) The application involves a change in place of use only;
  - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
  - d) The application involves irrigation water uses only.

**RECEIVED** 

AUG 1 4 2020

# NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land use form and return it to the WRD. If no land use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

Receipt for l	Request for Land Use Inforn	nation		
Applicant name:				- t."
City or County:	Staff contact:		22	- = = =

Date:

\*The applicant indicated that they would construct the reservoir outside of the floodplain (see plot plan), however, this serves as notification that the subject property is located within the Special Flood Hazard Area (SFHA). Any non-structural floodplain development, such as excavating, drilling, removal or fill material, etc., within the SFHA would require a land use application and approval prior to conducting the non-structural floodplain development activities. The applicable review and decision criteria for non-structural floodplain development can be found in the Polk county Zoning Ordinance Chapter 178.

The subject property also contains wetlands identified on the NWI map. According to the SRA map the wetlands are not inventoried as being fish bearing, however this serves as notification to the property owners of the presence of wetlands. Any development within the inventoried wetland areas may require permits from the Oregon Department of State Land (DSL) and Oregon Department of Fish and Wildlife (ODFW).
