Authorities

The Department may approve a limited license pursuant to its authority under ORS 537.143, 537.144 and OAR 690-340-0030.

ORS 537.143(2) authorizes the Director to revoke the right to use water under a limited license if it causes injury to any water right or a minimum perennial streamflow.

A limited license will not be issued for more than five consecutive years for the same use, as directed by ORS 537.143(8).

Findings of Fact

1. The forms, fees, and map have been submitted, as required by OAR 690-340-0030(1).
2. On June 30, 2020, the Department provided public notice of the application as required by OAR 690-340-0030(2).
3. The Department has not received comments related to the possible issuance of the limited license.
4. This limited license request is limited to an area within a single drainage basin, as required by OAR 690-340-0030(3).

5. On July 30, 2020, the Department completed a technical review, determining that groundwater is not over appropriated, and is available for the requested use. The proposed use will, if properly conditioned, avoid injury to existing groundwater rights or to the groundwater resource. A copy of this technical review is in the file and can be viewed on the Department's website.
6. Based upon this technical review, the Department has stipulated conditions pertaining **annual reporting of water use information**.
7. The Department has determined that the proposed source has not been withdrawn from further appropriation per ORS 538.200.
8. Pursuant to OAR 690-340-0030(4)(5), conditions have been added with regard to notice and water-use measurement.
9. Linn County has indicated that the proposed use is compatible with the applicable acknowledged comprehensive land-use plan. A copy of the land use compatibility statement is in the file.

Conclusions of Law

The proposed water use will not impair or be detrimental to the public interest pursuant to OAR 690-340-0030(2), as limited in the order below.

Order

Therefore, pursuant to ORS 537.143, ORS 537.144, and OAR 690-340-0030, Application LL-1837 is approved as conditioned below.

1. The authorized use of water under this limited licenses is as follows:

Amount: 3.064 CFS (1,375 GPM)

Source: AGGREGATE MINE POND

Use: INDUSTRIAL USE, COMMERCIAL USE, AND FIRE PROTECTION

Duration: YEAR ROUND; FROM LIMITED LICENSE ISSUE DATE – JUNE 30, 2025

2. The licensee shall give notice to the Watermaster in the district where use is to occur not less than 15 days or more than 60 days in advance of using the water under the limited license. The notice shall include the location of the diversion, the quantity of water to be diverted, and the intended use and place of use. In the case of this application, this order serves as the notice described above.
3. Before water use may begin under this limited license, the licensee shall install a totalizing flow meter at each point of diversion. The totalizing flow meter must be installed and maintained in good working order. In addition, the licensee shall maintain a record of all water use, including the total number of hours of pumping, the total quantity pumped, and the categories of beneficial use to which the water is applied. During the period of the limited license, the record of use shall be submitted to the Department annually, and shall be submitted to the Watermaster upon request.
4. The Director may revoke the right to use water for any reason described in ORS 537.143(2), and OAR 690-340-0030(6). Such revocation may be prompted by field regulatory activities or by any other information.

5. Use of water under a limited license shall not have priority over any water right exercised according to a permit or certificate, and shall be subordinate to all other authorized uses that rely upon the same source.
6. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
7. A copy of this limited license shall be kept at the place of use, and be made available for inspection by the Watermaster or other state authority.

NOTE: This water-use authorization is temporary. Applicants are advised that issuance of this final order does not guarantee that any permit for the authorized use will be issued in the future; any investments should be made with that in mind.
