This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

PAUL YOST
65751 REPPLINGER LANE
ENTERPRISE, OREGON 97828

confirms the right to use the waters of GOOSEBERRY CREEK, a tributary of CHESNIMNUS CREEK, for IRRIGATION OF 37.6 ACRES.

This right was perfected under Permit 48752. The date of priority is APRIL 6, 1984. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 0.94 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

GOV'T LOT 15 (NE 1/4 SE 1/4), SECTION 6, T 2 N, R 46 E, W.M.;
1530 FEET SOUTH AND 1040 FEET WEST FROM THE NE CORNER, SECTION 6.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

STATE OF OREGON
COUNTY OF WALLOWA

CERTIFICATE OF WATER RIGHT

This is to Certify, That J. H. Maxwell

of Lewis, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of Chesnimus, Gooseberry & Butte Creeks a tributary of Joseph Creek (Grande Ronde River) for the purpose of Irrigation under Permit No. 7420 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from July 12, 1926;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.54 cubic foot per second;

The point of diversion is located in the of Section 32, Township 3N, Range 46E W. M. The use hereunder for irrigation shall conform to such reasonable rotation system as may be ordered by the proper state officer.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent in case of rotation.

A description of the lands irrigated under the right hereby confirmed, and to which such right is appurtenant (if for irrigation or any other purpose), is as follows: 8 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, 5 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 32, 12 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and 18 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 31, Township 3N, Range 46E East of the Willamette Meridian in Wallowa County, Oregon.

The right to the use of the water for any purpose is restricted to the lands or place of use herein described.

After the expiration of fifty years from the date of this certificate or on the expiration of any federal power license issued in connection with this right, and after not less than two years notice in writing to the holder hereof, the State of Oregon, or any municipality thereof, shall have the right to take over the dams, plants and other structures and all appurtenances thereto which have been constructed for the purpose of devoting to beneficial use the water rights specified herein, upon condition that before taking possession the State or municipality shall pay not to exceed the fair value of the property so taken, plus such reasonable damages, if any, to valuable, serviceable and dependable property of the holder of this certificate, not taken over, as may be caused by the severance therefrom of the property taken in accordance with the provisions of section 5728, Oregon Laws.

WITNESS the signature of the State Engineer,

affixed this 26th day
of November, 19 28

Edna Luper

June 24, 2002 FINAL PROOF SURVEY Application # 68049, Permit # 48752

Land Owner - Paul Yost

Address 65751 Repplinger Lane, Enterprise, OR 97828, phone # 541-426-3542.

On June 20th, I conducted the final proof survey for this permit. Mr. Paul Yost took me to the diversion and irrigated lands and explained the irrigation system.

The system was put in by the Soil Conservation Service in 1984.

The source is Gooseberry Creek.

The diversion is with a 20 feet long 12" CMP in the creek change is emptying into a ditch. The diversion end of the pipe on the day of the survey was 2/3 full of water. The ditch is 10 feet long, with a fish screen that has the number 8-261 stamped on the concrete side walls of the screen set up. Downstream from the screening device 3 or 4 feet, the water flows over another screen and the water drops through the screen into an 8" mainline, reduced to 6" then 5" on the lower end of the project. There is about 5000' of 8 inch and 2000' of 6" and about 3500' of 5". Water is flumed over Chesimnus creek via 4" mainline to irrigate the parcels on the north and east sides of the creek. The mainline is laid under the bridge at the confluence of Butte Cr. and Chesnimnus Creek to irrigate east and west on Chesnimnus creek with hand line.

The application map was prepared by Jack Burris, land surveyor from Enterprise and all the land applied for is irrigate except for the small piece identified as 0.6 acres on the application map being in the SW 1/4 NW 1/4, section 32. This is irrigated under certificate 7803. The mainline lays as describes on the application map.

Mr. Yost sprinkle irrigates all the land under the permit with gravity fall from the diversion.

Yost irrigates with 55 sections of 4" aluminum hand line and 50 sections of 3" hand line, both sizes are in 40' sections. Rainbird sprinklers heads are attached to the hand line. The sprinkler sizes are 3/16 and 1/8 inch. He operates 50 max. sprinklers at a time at 60 PSI.

Use: Grass Hay, pasture grass

Tie: Mr. Yost and I looked for marked section corners and found none. Mr. Yost did not know where any recognized corners were. He said the fence lines were off some. I will project the diversion from the Northwest corner of section 6 for the map. This is shown on the Greenwood Butte 7 1/2 min. quadrangle map.

The intersection of Chesnumnus Cr. and the driveway to Yost's farm house in section 32 shows up on the aerial photo.

Fall: The elevation at the diversion is 3560' and the average elevation at the place of use is $\pm$ 3400'. This is 160 feet of fall in 7000' of horizontal distance. This was taken off the Greenwood

RECEIVED

FEB 03 2003

WATER RESOURCES DEPT.
SALEM, OREGON

Page 2 FPS Permit 48752

Butte quadrangle 7 ½ min. map.

Mr. Yost figures the operating pressure was about 60 PSI.

The system also irrigates lands under Cert 7803.

Irrigated lands are identified on aerial 41063-179-321L

The diversion was read with the Leika GPS.

June Miller, FI

Mapping layout was with GIS layer of 1/4 1/4 sections, quad layers and aerial layers. The township lines between 3N and 2N are off set and some of the 1/4 1/4 sections within sections 31, 32 of 3N and 5 and 6 of 2N are identified as gov. lots and track numbers.

The 1/4 1/4 gis layer matches up with the quad layer and the assessors tax lot maps.

There may or may not be some conflict with a small portion of the Butte Cr. Right under certificate 7803 within the NW SW, Sec 32. The map for C # 7803 identifying the 1/4 1/4 sections are not as the 1/4 1/4 section layout is today. The original GLO do not identify the sections as they are identifies by a resurvey in 1916 which is how this area is represented today under the survey and mapping system. Mr. Yost uses Butte Cr. water for a ½ acre garden and lawn area around his farm house.

Abstract of Permit

RECEIVED

FEB 03 2003

WATER RESOURCES DEPT.
SALEM, OREGON

This is to certify that I have examined APPLICATION 68049 and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE APPROPRIATE MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

This permit is issued to Paul Yost of Chico Route, Box 46A, Enterprise, Oregon 97828, phone 426-3542, for the use of the waters of Gooseberry Creek, a tributary of Chesnimus Creek, for the PURPOSE of irrigation of ~~38.6~~ 37.6 acres

that the PRIORITY OF THE RIGHT dates from April 6, 1984

and is limited to the amount of water which can be applied to beneficial use and shall not exceed ~~0.97~~ 0.94 cubic foot per second

The POINT OF DIVERSION is to be LOCATED: 1550 feet South and 710 feet West from the Northeast Corner of Section 6, being within the SE 1/4 NE 1/4 of Section 6, Township 2 North, Range 46 East, WM, in the County of Wallowa.

A description of the PLACE OF USE under the permit, and to which such right is appurtenant, is as follows:

Township 3 North, Range 46 East, WM

Section 29 NW 1/4 SW 1/4	2.1 acres
SW 1/4 SW 1/4	8.3 acres
Section 31 NE 1/4 NE 1/4	0.1 acre
SE 1/4 NE 1/4	1.4 acres
NE 1/4 SE 1/4	3.6 acres
NW 1/4 SE 1/4	8.6 acres
Section 32 NW 1/4 NW 1/4	<u>6.7</u> acres
SW 1/4 NW 1/4	1.0 acre
NW 1/4 SW 1/4	6.8 acres

The AMOUNT OF WATER used for irrigation, together with the amount secured under any other right existing for the same lands shall be limited to 1/40 of one cubic foot per second per acre, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year, and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Actual construction work shall begin on or before September 27, 1985, and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1986.

Complete application of the water to the proposed use shall be made on or before October 1, 1987.

Witness my hand this 27th day of September, 1984.

WATER RESOURCES DIRECTOR

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Sprinkler Capacity Calculator

Data Entry (fill in underlined blanks)

Sprinkler group 1 Nozzle size = 3/16 inch (type an apostrophe before the size)
 Pressure = 60 PSI
 Number of heads = 50

Sprinkler group 2 Nozzle size = 1/8 inch (type an apostrophe before the size)
(if applicable) Pressure = 50 PSI - *Ad + cal above this.*
 Number of heads = 50

Sprinkler group 3 Nozzle size = 0 inch (type an apostrophe before the size)
(if applicable) Pressure = 0 PSI
 Number of heads = 0

Results calculated

Sprinkler group 1 capacity = 390 gpm, or 0.869 cfs
Sprinkler group 2 capacity = 160 gpm, or 0.356 cfs
Sprinkler group 3 capacity = 0 gpm, or 0 cfs

Total sprinkler capacity = 550 gpm, or 1.225 cfs

Note: If entered values return a result of 0 gpm, then the sprinkler capacity chart does not contain a rate for that nozzle size and PSI.

See FPS report -

Pipe Capacity Calculator

PROPOSED CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

PAUL YOST
65751 REPPLINGER LANE
ENTERPRISE, OREGON 97828

confirms the right to use the waters of GOOSEBERRY CREEK, a tributary of CHESNIMNUS CREEK, for IRRIGATION OF 37.6 ACRES.

This right was perfected under Permit 48752. The date of priority is APRIL 6, 1984. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 0.94 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

LOT 15, NE 1/4 SE 1/4, SECTION 6, TOWNSHIP 2 NORTH, RANGE 46 EAST, W.M.; 1530 FEET SOUTH AND 1040 FEET WEST FROM THE NORTHEAST CORNER OF SECTION 6.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

NW 1/4 SW 1/4	2.9 ACRES
SW 1/4 SW 1/4	7.9 ACRES
SE 1/4 SW 1/4	0.3 ACRE
SECTION 29	

SE 1/4 NE 1/4	2.1 ACRES
NE 1/4 SE 1/4	2.3 ACRES
NW 1/4 SE 1/4	13.5 ACRES

Dear Mr. Yost,

Thankyou for visiting with me on the telephone last night on your water rights.

Enclosed are copies of your water rights that are pertinent to your property on Chesnimnus Creek. The water right documents have a few notes scribbled across some of the pages, as they are copies taken from the copy I was using last summer when I met with you.

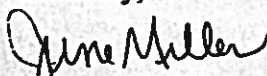

Your old rights are under certificate C-7803 with water sources from Gooseberry Creek, Butte Creek and Chesnimnus Creek for irrigation of 43 acres.. The map associated with C-7803 identifies the authorized points of diversion from these sources and shows the ditches used for irrigation.

I am sending you copies of portions of Oregon Revised Statutes and Oregon Administrative Rules regarding forfeiture of water rights and transfers of water rights. Hopefully, these will help you in your discussion you may need to make on your rights.

Shad Hattan is the watermaster for Wallowa County. His office is in Island City, out of LaGrande. His phone number is 541-963-1031. He would be able to help you with any questions you may have on your water rights and with the fees associated with water right transfers.

I hope this information is helpful to you.

Sincerely,

June Miller
Field Inspector

Chico Route, Box 46A
Enterprise, OR 97828

Dear Mr. Yost:

REFERENCE: File 68049

This is to acknowledge return of your Application 68049 along with the affidavit providing for the cancellation of the right evidenced by the Certificate 8869 and the statement advising that the appropriate parts of the water right described by the Certificate 7803 will be canceled prior to making proof on the use of water under a permit approving your Application 68049.

As mentioned in my earlier letter, it will be necessary for you to sign your Application 68049 in the space provided on the third page.

Incidentally, according to maps we have available, Gooseberry Creek would be a tributary of Chesnimnus Creek instead of the Imnaha River presently noted in the latter part of Item 1. If you agree, Item 1 should be amended.

I am returning your application for completion. The application is endorsed so that in order to retain its priority date it must be received in this office on or before September 11, 1984.

Sincerely,

WAYNE J. OVERCASH

June 13, 1984

Paul Yost
Chico Route, Box 46A
Enterprise, OR 97828

Dear Mr. Yost:

REFERENCE: File 68049

Your Application 68049 describing the proposed use of 0.025 cubic foot of water per second per acre for the irrigation of 38.6 acres, together with the legal description of the property, a small sketch map of the water system, and the water right application map, has been reviewed.

As mentioned in our telephone discussion a few weeks back, it will be necessary to submit statements to provide for clearing our records of existing water rights involved providing for the use of water from Chesnimnus Creek and Butte Creek before your application can be considered for approval. We received the affidavits May 29, 1984, requesting cancelation of parts of the existing rights without defining the specific parts.

If the waters from Chesnimnus Creek are no longer being used for irrigation and if the water from the Butte Creek are now being used for the irrigation of only 0.2 acre as allowed under the Certificates 8869 and 7803, we will need an affidavit providing for the cancelation of the entire right described by the Certificate 8869 and we will also need a statement advising that prior to making proof on the use of water under the terms of the permit approving the Application 68049 and issuance of a water right certificate, an affidavit will be submitted providing for the cancelation of the water right described by the Certificate 7803 except for that part of said right providing for the use of water for the irrigation of certain acreage determined to be covered by the use of water from Gooseberry Creek and the 0.2 acre determined to be covered by the use of water from Butte Creek.

I am enclosing a statement which when properly signed by you and James Yost before a notary public and returned to this office will provide for clearing our records of the entire water right described by the Certificate 8869. I am also enclosing a statement you may sign and submit advising of your intended status of the right described by the Certificate 7803.

It will be necessary for you to sign your Application 68049 in the space provided on the third page.

REFERENCE: File 68049

We have received your application for use of water for irrigation along with the supporting data and fees. Our Receipt 42030 is enclosed. Your application has been filed and assigned number 68049.

Applications which are received in proper form for a permit, including maps, supporting data and fees, will be considered for approval shortly after the mandatory 30-day waiting period. Applications which are defective, conflict with existing rights or require additional information will be reviewed in detail and will be returned for completion or correction within 45 days.

If your application is approved, the project described in the application will be subject to the Water Policy Review Board's Basin Program statements, existing minimum flows and demands of prior rights during periods of low water.

Sincerely,

RALPH H. JACKSON, Supervisor

62776 10988 66317

200° 10
100° 10
58° 29
358° 29

4. The amount of water which the applicant intends to apply to beneficial use is 0.025
cubic feet per second..... per acre
(If water is to be used from more than one source, give quantity from each)

5. The use to which the water is to be applied is irrigation

6. DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

gravity flow system. 1010 feet of 4" water line; 3320 feet of 5" line; 3000 feet of 6" line; 4900 feet of 8" line for sprinkler system.

If for domestic use state number of families to be supplied none

7. Construction work will begin on or before system installed and in use

8. Construction work will be completed on or before n/a

9. The water will be completely applied to the proposed use on or before n/a

Application No. 68049

Permit No. RECEIVED

Application No. 68049

Permit No.

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.97 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Gooseberry Creek trib. Chessmanus Cr.

The use to which this water is to be applied is irrigation of 38.6 ac

If for irrigation, this appropriation shall be limited to 1/40 of one cubic foot per second or its equivalent for each acre irrigated 3

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is April 6, 1984

Actual construction work shall begin on or before and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19

Complete application of the water to the proposed use shall be made on or before October 1, 19

WITNESS my hand this day of, 19

Water Resources Director

RHS

Remarks:..... See attac hed

.....
.....
.....
.....
.....
.....

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Paul Yost

Signature of Applicant

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for..... completion.....

In order to retain its priority, this application must be returned to the Water Resources Director with corrections on or before ... August 13, September 11....., 19... 84.....

WITNESS my hand this 12th day of June, July....., 19... 84.....
