Agent – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT / BUSINESS NAME <i>Leland Hardy, H&R Engineering</i>		PHONE <i>503-581-9262</i>		FAX <i>503-581-9262</i>	
ADDRESS <i>690 Loring Drive NW</i>				CELL	
CITY <i>Salem</i>	STATE <i>OR</i>	ZIP <i>97304</i>	E-MAIL * <i>hardy.ang@comcast.net</i>		

Note: Attach multiple copies as needed

* By providing an e-mail address, consent is given to receive all correspondence from the Department electronically. (Paper copies of the final order documents will also be mailed.)

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally store water until the Water Resources Department issues a permit to me.
- The Department encourages all applicants to wait for a permit to be issued before beginning construction of any proposed diversion. Acceptance of this application does not guarantee a permit will be issued.
- If I begin construction prior to the issuance of a permit, I assume all risks associated with my actions.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.

SECTION 2: PROPERTY OWNERSHIP

Indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

RECEIVED

JUL 24 2020

OWRD

- ☒ YES, there are no encumbrances.
☐ YES, the land is encumbered by easements, rights of way, roads or other encumbrances.
☐ NO, I have a recorded easement or written authorization permitting access.
☐ NO, I do not currently have written authorization or easement permitting access.
☐ NO, written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
☐ NO, because water is to be diverted, conveyed, and/or used only on federal lands.

Affected Landowners: List the names and mailing addresses of all the owners of any lands that are not owned by the applicant and that are crossed by the proposed ditch, canal or other work, even if the applicant has obtained written authorization or an easement from the owner. *(Attach additional sheets if necessary).*

Legal Description: You must provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.

SECTION 3: SOURCE OF WATER

A. Reservoir Name: Schmitz Farm Dam and Reservoir

B. Source: Provide the name of the water body or other source from which water will be diverted, and the name of the stream or lake it flows into. Indicate if source is run-off, seepage, or an unnamed stream or spring.

Source 1: <u>Reservoir, unnamed stream</u>	Tributary to: <u>Rock Creek & Pudding River</u>
TRSQQ of POD: <u>Township 9 S South, Range 1 East, Section 33, SE NW</u>	
Source 2:	Tributary to:
TRSQQ of POD:	

- Is the proposed reservoir in a wetland (as determined by DSL)? ☐ Yes ☒ No ☐ Don't know
- Is the proposed reservoir an enlargement of an existing dam/reservoir? ☒ Yes ☐ No
- Is the proposed reservoir in-channel of a stream or off-channel? ☒ In-channel ☐ Off-Channel
- If the reservoir is proposed to be in-channel, is the stream: ☐ Perennial ☒ Intermittent ☐ Ephemeral
- If the reservoir is proposed to be in-channel, has ODFW determined that native migratory fish are present?
☐ Yes ☐ No ☒ Don't know
- Is the reservoir in the 100-year floodplain? ☒ Yes ☐ No ☐ Don't know
- If the reservoir is not in the channel of a stream, state how it is to be filled:

For Department Use: App. Number: _____

SECTION 4: SENSITIVE, THREATENED OR ENDANGERED FISH SPECIES PUBLIC INTEREST INFORMATION

This information must be provided for your application to be accepted as complete. The Water Resources Department will determine whether the proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened or endangered fish species.

To answer the following questions, refer to the map shown on [Attachment 3](#) or the link below to determine whether the proposed point of diversion (POD) is located in an area where the Upper Columbia, the Lower Columbia, and/or the Statewide public interest rules apply.

For more detailed information, click on the following link and enter the TRSQQ or the Lat/Long of a POD and click on "Submit" to retrieve a report that will show which section, if any, of the rules apply:

https://apps.wrd.state.or.us/apps/misc/lkp_trsqq_features/

If you need help to determine in which area the proposed POD is located, please call the customer service desk at (503) 986-0801.

RECEIVED

JUL 24 2020

OWRD

Upper Columbia - OAR 690-033-0115 thru -0130

Is the POD located in an area where the Upper Columbia Rules apply?

☐ Yes ☒ No

If yes, you are notified that the Water Resources Department will consult with numerous federal, state, local and tribal governmental entities so it may determine whether the proposed use is consistent with the "Columbia River Basin Fish and Wildlife Program" adopted by the Northwest Power Planning Council in 1994 for the protection and recovery of listed fish species. The application may be denied, heavily conditioned, or if appropriate, mitigation for impacts may be needed to obtain approval for the proposed use.

If yes,

- I understand that the proposed use does not involve appropriation of direct streamflow during the time period April 15 to September 30, except as provided in OAR 690-033-0140.
- I understand that I will install, operate and maintain a fish screen and fish passage as listed in ORS 498.301 through 498.346, and 509.580 through 509.910, to the specifications and extent required by Oregon Department of Fish and Wildlife, prior to diversion of water under any permit issued pursuant to this application.
- I understand that the Oregon Department of Environmental Quality will review my application to determine if the proposed use complies with existing state and federal water quality standards.
- I understand that I will install and maintain water use measurement and recording devices as required by the Water Resources Department, and comply with recording and reporting permit condition requirements prior to diversion or use of water under any permit issued pursuant to this application.

RECEIVED

SEP 01 2020

OWRD

RECEIVED

JUL 24 2020

Lower Columbia - OAR 690-033-0220 thru -0230

Is the POD located in an area where the Lower Columbia rules apply?

☒ Yes ☐ No

OWRD

If yes, you are notified that that the Water Resources Department will determine, by reviewing recovery plans, the Columbia River Basin Fish and Wildlife Program, and regional restoration programs applicable to threatened or endangered fish species, in coordination with state and federal agencies, as appropriate, whether the proposed use is detrimental to the protection or recovery of a threatened or endangered fish species and whether the use can be conditioned or mitigated to avoid the detriment.

If a permit is issued, it will likely contain conditions to ensure the water use complies with existing state and federal water quality standards; and water use measurement, recording and reporting required by the Water Resources Department. The application may be denied, or if appropriate, mitigation for impacts may be needed to obtain approval of the proposed use.

If yes, provide the following information (the information must be provided with the application to be considered complete).

☒ Yes ☐ No The proposed use is for more than one cubic foot per second (448.8 gpm) and is not subject to the requirements of OAR 690, Division 86 (Water Management and Conservation Plans).

If yes, provide a description of the measures to be taken to assure reasonably efficient water use:

Sprinkler irrigation applications (time and amount) will be determined by crop need.

Statewide - OAR 690-033-0330 thru -0340

Is the POD located in an area where the Statewide rules apply?

☒ Yes ☐ No

If yes, the Water Resources Department will determine whether the proposed use will occur in an area where endangered, threatened or sensitive fish species are located. If so, the Water Resources Department, Department of Fish and Wildlife, Department of Environmental Quality, and the Department of Agriculture will recommend conditions required to achieve "no loss of essential habitat of threatened and endangered (T&E) fish species," or "no net loss of essential habitat of sensitive (S) fish species." If conditions cannot be identified that meet the standards of no loss of essential T&E fish habitat or no net loss of essential S fish habitat, the agencies will recommend denial of the application unless they conclude that the proposed use would not harm the species.

SECTION 5: WATER USE

- a) The use of the impounded water will be: *Multipurpose, including irrigation, nursery and wildlife*
 b) The amount of water to be stored is: *50.0* acre-feet.
 c) The area submerged by the reservoir, when filled, will be *6.9* acres.

Permit R-6658, certificate 56289 8.6 acft
Permit R-8893, certificate 65041 2.7
Proposed 38.7
50.0 acft

SECTION 6: DAM HEIGHT AND COMPOSITION

The maximum height of the structure will be 22 feet above streambed or ground surface at the centerline of the crest of the dam.

Attach preliminary plans, specifications and supporting information for the dam and impoundment area including 1) dam height, 2) width, 3) crest width, 4) surface area and 5) preliminary fish passage design.

Note: If your dam height is greater than or equal to 10.0' above land surface AND your reservoir will store equal to or greater than 9.2 acre-feet, engineered plans and specifications must be approved by the Department's Dam Safety Section prior to storage of water.

The dam will be (check one): ☒ Earthfill ☐ Concrete ☐ Flash board ☐ Other

If "other," provide the description: _____

RECEIVED

JUL 24 2020

SECTION 7: PRIMARY OUTLET WORKS

OWRD

- a) Describe the location and the dimensions of the outlet conduit through the dam:

NOTE: Most dams across a natural stream channel will need an outlet conduit having a minimum diameter of 8 inches or greater. The 10" diameter r/c encased conduit will be

used for draining the reservoir and supplying water to an irrigation pump.

- b) How and when will the outlet be operated?

At least twice annually for irrigation and nursery and as needed to drain the reservoir.

- c) If ODFW has determined fish are present in the stream, how do you propose to protect fish through the outlet conduit (the conduit does not constitute fish passage)?

the proposed reservoir will flood over the two existing reservoirs. No fish are present.

SECTION 8: EMERGENCY SPILLWAY

- a) Describe the location and the dimensions of the spillway channel. *A 4'x16' r/c weir box and 36" diameter conduit on the left abutment will pass the design 1% event. Also PMP*

- b) How will the emergency spillway be designed to prevent erosion? *The designed r/c weir box and 36" conduit will pass the Q100 design and probable maximum precipitation event*

- c) What is the maximum design flow for the spillway? (Should be able to handle high flow events. 10-year flood events? 50-year flood events?)

*Design Q₁₀₀ (1%) = 135 cfs w/ 2.0' Freeboard
PMP (0.1%) = 200 cfs w/ 1.2' Freeboard.*

RECEIVED

SEP 01 2020

OWRD

SECTION 9: WATER QUALITY

- a) Describe how the reservoir will be managed to maintain water quality in the reservoir and downstream.
Each year stored water will be used for irrigation and other purposes. Reservoir abutments are and will remain dry.
- b) Describe how the perimeter of the reservoir will be buffered to limit nutrient and bacteria contamination.
A 10' wide strip of drought tolerant grass will be maintained around the reservoir.
- c) Describe how annual maintenance of the reservoir will be accomplished without discharging contaminated water instream.
Very little sediment deposition in the two existing reservoirs over 43 years indicates a stable water shed, should sediment removal or other work be necessary, excavated material will be spread on adjacent fields or removed from the site.

SECTION 10: PROJECT SCHEDULE (List Month and Year)

- a) Proposed date construction work will begin: *August 2021*
(Fish passage approval is necessary prior to construction.)
- b) Proposed date construction work will be completed: *October 2022*
- c) Proposed date water use will be completed: *June 2022*

RECEIVED

JUL 24 2020

OWRD

SECTION 11: WITHIN A DISTRICT

- ☐ Check here if the point of diversion or place of use are located within or are served by an irrigation or other water district.

Irrigation District Name	Address	
City	State	Zip

SECTION 12: REMARKS

Use this space to clarify any information you have provided in the application.

The proposed 20' dam will replace an existing dam. Stored water will flood both existing reservoirs.

If suitable existing dam earth fill will be used to construct the proposed dam.

CMP drain conduit, riser and cut off collars for the existing dam will be removed during construction

						☐ Diverted	☐ Conveyed	☐ Used	
						☐ Diverted	☐ Conveyed	☐ Used	

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- ☒ Permit to Use or Store Water
 ☐ Water Right Transfer
 ☐ Permit Amendment or Groundwater Registration Modification
☐ Limited Water Use License
 ☐ Allocation of Conserved Water
 ☐ Exchange of Water

Source of water: ☒ Reservoir/Pond ☐ Groundwater ☐ Surface Water (name) _____

Estimated quantity of water needed: *50* ☐ cubic feet per second ☐ gallons per minute ☒ acre-feet

Intended use of water:
 ☐ Irrigation ☐ Commercial ☐ Industrial ☐ Domestic for household(s)
☐ Municipal ☐ Quasi-Municipal ☐ Instream ☒ Other *Multipurpose*

Briefly describe:

Irrigation, nursery, wildlife, aesthetics

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- ☒ Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): ZDO Section 401.
- ☒ Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below. (Please attach documentation of applicable land use approvals which have already been obtained. Record of Action/land use decision and accompanying findings are sufficient.) If approvals have been obtained but all appeal periods have not ended, check "Being pursued."

Type of Land Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land Use Approval:	
Stream Conservation Area Permit	ZDO Section 704	☐ Obtained ☐ Denied	☒ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued
		☐ Obtained ☐ Denied	☐ Being Pursued ☐ Not Being Pursued

Local governments are invited to express special land use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.

Project is allowed outright in underlying Exclusive Farm Use (EFU) Zoning District per Ordinance Section 401, but requires permitting under Ordinance Section 704 because it is located in the County Stream Conservation Area (SCA). The permit for the SCA has been submitted, and is being reviewed under File No. Z0342-20-RSCA.

NAME Steve Hanschka		TITLE: Sr. Planner
SIGNATURE 	PHONE: 504-742-4500	DATE: 8/26/2020
GOVERNMENT ENTITY Clackamas County		

Note to local government representative: Please complete this form or sign the receipt below and return it to the applicant. If you sign the receipt, you will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD may presume the land use associated with the proposed use of water is compatible with local comprehensive plans.
