NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

proof
 I, Sam & Doris Harding, the holder of Application No. 15362, being
 Permit No. 11254, issued by the State Engineer of the State of Oregon
 (Reservoir or Enlargement)
 for the appropriation of 14 second-feet of the waters of East Fork Illinois
 in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engineer,
 completely applied the water to a beneficial use, on the First day of June, 1934,
 being the time limitation as fixed in said permit or as extended by the State Engineer for the complete
 application of water to a beneficial use.

Remarks:

If all of the water granted in the permit had not been fully applied to beneficial use, you should so state, so that delinquent appropriators may

have notice.

IN WITNESS WHEREOF, I have hereunto set my hand this 22 day of Aug, 1934.

Kerby Cre R 1

APPLICATION No. 15362

COUNTY Josephine

PROOF OF APPROPRIATION OF WATER

1. Name Lem and Doris E. Harding
2. Address Kerby, Oregon.
3. Source of supply Waste Water from Geo. Thrasher ranch seeps into East Fork Illinois River
Tributary of _____
4. Amount of water 0.14 c.f.s. measured at
the point of diversion from the stream
5. Priority date May 19, 1934.
6. Use supplemental irrigation
7. Location of point of diversion, NW 1/4 NW 4 Sec. 11, Twp. 40 S, Range 8 W., W. M.
(Legal Subdivision)
8. The description of land given below corresponds to that found in your permit covering land to be irrigated, or, if for other purposes, the place of use. In the blank column on the right, headed "No. acres actually irrigated," fill in the number of acres you have irrigated in each of the tracts described:

Township	Range	Section	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
40 S	8 W	2	SW 1/4 SE 4	7	7
If for irrigation, this appropriation shall be limited to 1/50th of one cubic foot per second or its equivalent, for each acre irrigated throughout the irrigation season from April 1 to November 1 of each year, and is also limited to the water available at the proposed point of diversion, and does not carry with it the right to divert water from the stream from which the waste water is diverted nor the right to require the wasteful use of water by others, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.					
<i>[Handwritten signature: O.R. H.]</i>					
<i>[Vertical text on right margin: This column must be filled in if water is used for irrigation.]</i>					

(Attach separate sheet if necessary)

DESCRIPTION OF WORKS

9. (a) If a dam has been constructed, give description: Height, 2 ft.; length on top, 50 ft.; length on bottom 30 ft.; material used and character of construction,

Small earth dam.

- (b) Give description of headgate: Width, 2 ft.; depth, 1.5 ft.; material used and character of construction, **Timber**

- (c) Size of canal: Width on top (at waterline) 2.5 ft.; width on bottom, 2.0 ft.; depth of water, 0.6 ft.; grade, 5 ft. fall per 1,000 ft. Actual capacity, 2.0 sec.-ft.

Give general description: **Earth ditch**

- (d) Pipe line: Description of intake,

Length of pipe, ft.; size at intake, in.; size at ft. from intake, in.; size at place of use, in. Difference in elevation between intake and place of use, ft.

Is grade uniform? Actual capacity of pipe line, sec.-ft.

Give general description:

(Material: Steel, wrought, cast iron, wood stave, etc.)

- (e) Pumping plant: Give size and type of pump,

Suction lift, ft.; discharge lift, ft. Type of motor used

Horse power rating, H. P. Actual capacity of pump, sec.-ft.

10. During what months is water beneficially used **April 1 to Nov. 1**

11. State character of soil **Kerby loam**

Kind of crops raised **Pasture, garden**

12. Does the accompanying map, filed with your application, show correctly the point of diversion, area of land irrigated, or place of use? **Yes**

13. If not, wherein is such map in error?

14. Domestic use: Give number of families actually using water at this time

15. If for power, mining, municipal, manufacturing, storage or any other purpose than irrigation, give extent and method of such use

REPORT OF PERSON MAKING INSPECTION

(For use by representative of State Engineer)

I, Tom R. Pearce, do hereby certify that I have made an inspection of the works described herein and in Permit No. 11264, on the 4th day of September, 1934, and found the foregoing statements and descriptions of works to be accurate. In my opinion the appropriation has been completed to the extent of 0.14 sec.ft.
(Quantity of water in second-feet or acre-feet)

and I recommend the issuance of a water right certificate for this amount.

NOTE TO INSPECTORS

If conditions do not justify the above report by you, please return the proof without your signature, with a full report by letter.

ABSTRACT OF CERTIFICATE OF WATER RIGHT NO. 11042

Lem and Doris E. Harding of Kerby
State of Oregon, has made proof to the satisfaction of
the State Engineer of Oregon, of a right to the use of the waters of Waste water
from Geo. Thrasher ranch seeps into East Fork Illinois River
a tributary of for the purpose of
supplemental irrigation
under Permit No. 11264 of the State Engineer, and that said right to the use of
said waters has been perfected in accordance with the laws of Oregon; that the
priority of the right hereby confirmed dates from May 19, 1934;

that the amount of water to which such right is entitled and hereby confirmed,
for the purposes aforesaid, is limited to an amount actually beneficially used
for said purposes, and shall not exceed 0.14 cubic foot per second measured
at the point of diversion from the stream,

or its equivalent in case of rotation.

The point of diversion is located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 11, Township 40 South,
Range 8 West, W. M.

The amount of water used for irrigation, together with the amount
secured under any other right existing for the same lands shall be limited to
one-fiftieth of one cubic foot per second per acre, *

and shall conform to such reasonable rotation system as may be ordered by the
proper state officer.

A description of the place of use under the right hereby confirmed,
and to which such right is appurtenant, is as follows:

7 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$,
Section 2,
Township 40 South, Range 8 West, W. M.

* throughout the irrigation season from April 1 to November 1 of each year,
and is also limited to the water available at the proposed point of diversion,
and does not carry with it the right to divert water from the stream from which
the waste water is diverted nor the right to require the wasteful use of water
by others,

The right to the use of water for the purposes aforesaid is restricted
to the lands or place of use herein described.

REMARKS:

O.K.

Mr. Chas. E. Stricklin
State Engineer,
Salem, Oregon.

Dear Sir:

I have made investigation regarding the proposed appropriation of waste water by Lem and Doris E. Harding.

The waste water comes from the Geo. Thrasher ranch. Mr. Thrasher, who is County Commissioner, states that he has no objection to any one filing on his waste water.

We are cognizant of a condition whereby Harding complained that Thrasher interfered with Hardings' water-(on another ditch.) Harding was using the Thrasher ditch without right-of-way permit.

The only other interested party would be W. O. Kohler. He has verbally declared his intention of filing on this waste water.

In my opinion, the Permit should be granted. I believe a clause should be inserted that this right is for "waste water" and does not affect the ~~quota given to~~ prior rights.
natural freedom of

Yours very truly,

Tom R. Pearce

Dear Sir & Madam:

Your Application No. 15362 has been received and now appears to be in satisfactory form with the exception of the map. The map is also in quite acceptable form except that the seven acres which are to be irrigated in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 2, must be located. The simplest method to show their location is to shade that portion. When the map is submitted showing the location of these seven acres the application will be placed in line for approval and issuance of a permit.

Mr. Tom R. Pearce
Watermaster
Grants Pass, Oregon

Dear Sir:

We are in receipt of an application for permit to appropriate waste waters for irrigation purposes from Len and Doris E. Harding.

Due to the difficulties which often arise over the distribution of waste water, I believe that the watermaster should investigate each proposed appropriation of such waters before a permit is issued. I am, therefore, inclosing an abstract of this application with the request that you kindly investigate it at your early convenience and advise my whether or not you believe it should be approved.

Very truly yours

VSB EL

May 22, 1934

Lem & Doris E. Harding
Kerby, Oregon

Dear Sir & Madam:

This acknowledges receipt of your application for permit to appropriate waste waters for irrigation purposes, together with your remittance in the sum of \$9.50. Receipt No. 17575 is inclosed.

The application, which has been filed and given No. 15362, is being returned herewith for more complete information.

If the waste waters are tributary of or run into any natural stream the name of such stream should be given under Item 1. It should also be stated under remarks the source of these waste waters. The quantity of water which you intend to appropriate must be stated under Item 2, in cubic feet per second or gallons per minute. The quantity of water allowed for irrigation in that vicinity is generally $1/80$ th of one cubic foot per second for each acre to be irrigated. The smallest legal subdivision or forty-acre tract within which the ditch will terminate must be shown under Item 5, and the general description of the main ditch or pipe line must be given under Item 7.

The location of the lands to be irrigated must be given under Item 8, showing the number of acres which are to be irrigated in each smallest legal subdivision or forty-acre tract. Items 11 to 14 must be filled out and the application must contain your signature and that of at least one witness.

The map is not entirely satisfactory in that it must be drawn in ink and must show the location of the lands to be irrigated, as well as the main ditch and the point of diversion. A new four-section plat is inclosed so that you may prepare a new map.

The application has been endorsed so that in order to retain its priority it must be returned within thirty days or on or before June 22.

Very truly yours

CHAS. E. STRICKLIN
State Engineer
