Dear Applicant:

The Oregon Water Resources Department has received your surface water application for a water use permit. Your application has been assigned file number **S-88893**. Please refer to this number when contacting the Department. Should you have any questions about your application, please contact the following Water Rights Specialist assigned to your application:

Kim French, Water Rights Specialist	Phone: 503-986-0816
	Email: <a href="mailto:kim.r.french@oregon.gov">kim.r.french@oregon.gov</a>

A description of the steps that are used for processing a surface water application are shown on the reverse side of this letter. Surface water applications that propose to use stored water exclusively are reviewed using an expedited process and contain slightly different processing steps.

The Department's goal is to process applications within statutory deadlines. The first step in the process is issuance of an Initial Review, which summarizes the Department's preliminary determinations. Surface water applications typically receive an Initial Review in approximately two to three months. Copies of the Initial Review, Proposed Final Order, and Final Order will be mailed to you. Applications proposing to use stored water only under the expedited process will receive a Final Order.

Please note that your application is subject to review and comment from other state agencies and interested parties.

Sincerely,

Cory Middleton  
Customer Service Representative  
Oregon Water Resources Department

# **Water-Use Permit Application Processing Steps**

## **Oregon Water Resources Department**

### **Standard Process for a Surface Water Application:**

#### **1. Initial Review**

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$260. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

#### **2. Public Notice**

Within 7 days of the mailing of the Initial Review, the Department gives public notice of the application in the weekly notice published by the Department at [www.oregon.gov/owrd](http://www.oregon.gov/owrd). The public comment period is 30 days from publication in the weekly notice.

#### **3. Proposed Final Order Issued**

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the Initial Review, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

#### **4. Public Notice & Protest Opportunity**

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. A protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$410.00 for the applicant and \$810.00 for non-applicants. Protests are filed on approximately 10 percent of Proposed Final Orders. If a protest is filed the Department will attempt to settle the protest but will schedule a contested case hearing, if necessary.

#### **5. Final Order Issued**

If no protests are filed, the Department can issue a Final Order within 60 days of the close of the period for receiving protest. If the application is approved, a permit is issued. The permit will specify the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate.

### **Expedited Process for a Surface Water Application:**

*Note: The expedited process only applies to an applications using stored water only under ORS 537.147.*

The expedited process allows the Department to process an application within several weeks in cases where no public interest concerns are identified. It does not provide an opportunity to protest the Department's recommendation unless public interest issues are identified, in which case the Department will then evaluate the application using the standard process and a protest opportunity will be available. For expedited applications, the Department issues a Final Order only. Once accepted by the Department, these applications are published in the weekly public notice every Tuesday and a 30-day public comment period begins. Following the public comment period, the Department can issue the Final Order.
