Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.

FINAL PROOF SURVEY
UNDER

R-47599 R-5734
Application No. 47600 Permit No. 35629
IN NAME OF

ESTATE OF ELERY STONE

Surveyed SEPT. 17, 1974, by L. TOLL

STATE OF OREGON

COUNTY OF JOSEPHINE

Proof of Appropriation of Water

ESTATE OF ELERY STONE

of 14181 Williams Hwy., Grants Pass, State of Oregon, 97526, has applied beneficially the waters of waste water and Stone Reservoir constructed under Application No. R-47599, Permit No. R-5734

a tributary of Applegate River for the purpose of supplemental irrigation of 51.7 acres

under Permit No. 35629 and that the use of said waters has been completed under the terms of said permit; that the priority of the right dates from October 1, 1970

that the amount of water for the purposes aforesaid, has been actually beneficially used in the amount of 0.65 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SE 1/4 SE 1/4, Section 1, T. 38 S., R. 5 W., W. M., 540 feet North and 50 feet West from the SE Corner, Section 1.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein, and shall also be limited to the water available at the proposed point of diversion, and shall not carry with it the right to compel the continuance of the waste water;

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is as follows:

- 10.6 acres SW 1/4 SW 1/4 Section 6 T. 38 S., R. 4 W., W. M. 1.2 acres SW 1/4 NE 1/4 6.3 acres NE 1/4 SE 1/4 19.6 acres NW 1/4 SE 1/4 2.0 acres SW 1/4 SE 1/4 12.0 acres SE 1/4 SE 1/4 Section 1 T. 38 S., R. 5 W., W. M.

RECEIVED JUN - 8 1976 WATER RESOURCES DEPT. SALEM, OREGON

I have read the above and foregoing proof of appropriation of water; I know the contents thereof, and that the facts therein stated are true.

IN WITNESS WHEREOF, I have hereunto set my hand this 7th day of June

1976...

Re: Your File No. R-47599 and
47600

Gentlemen:

I enclose two executed Proofs of Appropriation of Water in connection with the water rights involved in the above-referred to application. Both are signed by Jerry Stone, who is personal representative of the estate of Elery Stone, deceased. I also enclose the check of Mr. Stone in the amount of \$4.00 for your required recording fee of the two permits.

Yours truly,

Dan Wolke

Grants Pass, OR 97526

Dear Sir:

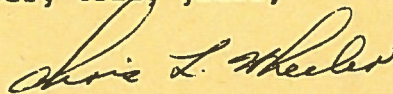

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit Nos R-5734 and 35629.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER
State Engineer

February 11, 1971

Elery Stone
14165 Williams Hwy.
Grants Pass, Oregon 97526

Dear Mr. Stone:

This will acknowledge the return of your application No. R-47599 and the small dam data sheet.

The small dam data sheet has been completed to describe the spillway as being a 24 inch pipe with the bottom of the pipe 4 feet from the top of the dam. Item No. 6 on the reservoir application indicates the height of dam above high water line when full is 2.5 feet. These two entries should be in agreement designating the distance from the bottom of the culvert to the top of the dam. Item No. 8 on the reservoir application must also give this dimension to the bottom of the 24 inch pipe.

I am returning the reservoir application and small dam data sheet for correction, endorsed so that in order to retain its priority date, it must be returned to this office on or before April 12, 1971.

Very truly yours,

Larry W. Jebousek
Assistant

Grants Pass, Oregon 97526

Dear Mr. Stone:

This will acknowledge the return of your applications No. R-47599 and 47600, the small dam data sheet, and the map.

The small dam data sheet must be completed to designate the distance between the top of the dam and the bottom of the spillway or over-flow pipe.

Item No. 8 on the reservoir application describes the waste way as being an 18 inch concrete pipe through the base of the dam. Item No. 9 indicates that 24 inch pipe at the top as over-flow. Item No. 8 should be corrected to describe the over-flow pipe.

I am returning your reservoir application and small dam data sheet for correction and completion, endorsed so that in order to retain its priority date, it must be returned to this office on or before March 4, 1971.

Very truly yours,

Larry W. Jebousek

R-47599
47600

October 20, 1970

Elery Stone
14165 Williams Hwy.
Grants Pass, Oregon 97526

Dear Sir:

This will acknowledge your application for a permit to construct Stone Reservoir and to store therein $4\frac{1}{2}$ acre feet of water from wastewater for irrigation and small dam data sheet. This application has been filed and numbered R-47599.

Also acknowledged is your application for a permit to appropriate 0.8 cubic foot of water per second from Stone Reservoir and waste water for the irrigation of 19.48 acres and the supplemental irrigation of 45.3 acres, legal descriptions, transparency map, and two prints of a map. This application has been filed and numbered 47600.

Of the \$45.25 submitted, \$20.00 has been applied to your application No. R-47599 and \$25.25 has been applied to your application No. 47600. Our receipt No. 20848 is enclosed.

The small dam data sheet designates the depth of spillway as being six feet. Item No. 6 on the reservoir application indicates the height of dam above high water line when full as 2.5 feet. Item No. 8 describes the waste way as being an 18 inch steel pipe through the base of the dam. These three entries should be in agreement.

Item No. 9 on the reservoir application should describe the outlet through the base of the dam. If there is no spillway, is the inflow to the reservoir controlled? If so, please describe the method of control in the section provided for remarks.

Item No. 10 on the reservoir application indicates a surface area of one acre. From the dimensions shown on your map, the surface area appears to be between two and one half and three acres. Assuming

October 20, 1970

the dimensions on the map are correct and the mean depth of 4.5 feet as designated in item No. 10, the reservoir will store from 11.25 to 13.5 acre feet of water. Will you please recheck the dimensions shown on the map and the capacity computations and correct whichever is in error.

If the reservoir stores more than 9.2 acre feet of water, plans and specifications by a professional engineer will be required. This is more thoroughly explained on pages 14 and 15 on the enclosed booklet of Rules and Regulations.

The small dam data sheet should be further completed to designate the number of acres of drainage area above the dam contributing to the waste water flow.

Enclosed is a copy of the map made in connection with the inchoate proceedings of the Rogue River Adjudication. The area hatched in black is the land irrigated under the right evidenced by certificate 32813. The area outlined in green is that to be irrigated from your reservoir. The area shaded in solid green is the land that does not have an an existing right on it.

The location of the 9.6 acres of supplemental irrigation in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 1 does not agree with that shown on the inchoate map. Certificate 32813 describes the irrigation of 22.3 acres in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 1. Your map includes all of the land shown under the earlier right but designates it as being only 21.5 acres. The entire 1.06 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ is included in the earlier right. Certificate 32813 described the irrigation of 11.5 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 6. Your application describes the primary irrigation of 12.5 acres in this forty. Much of the land described in your application is included in the earlier right.

Application No. 47600 and the map must be in agreement with the earlier right as to the location and number of acres of supplemental irrigation.

Both applications must be signed on the space provided.

I am returning your applications, small dam data sheet, map, and print. The applications are endorsed so that in order to retain their priority dates, they must be returned to this office on or before November 20, 1970.

Very truly yours,

LWJ:reo

Application No. R47599-47600
Permit No.

September 23, 1970

Elery Stone
14165 Williams Hwy.
Grants Pass, Oregon 97526

Dear Mr. Stone:

This will acknowledge your applications for permit to construct a reservoir and store 4.5 acre feet therein from wastewater from the Bridge Point Ditch for irrigation, a small dam data sheet, for a permit to appropriate 0.8 cubic foot per second from the reservoir for the irrigation and supplemental irrigation of 54.76 acres, a map, legal descriptions, and the fee of \$45.20 for which our receipt No. 20848 is enclosed. These applications cannot be filed because there is insufficient information to do so.

The water in the Bridge Point Ditch is not subject to public appropriation. The actual source of water where it is physical diverted from a natural course should be specified as the source of appropriation on both applications.

The lands to receive supplemental and primary irrigation should be separately identified on the map and be in agreement with Item No. 8 on the secondary application.

Both applications and the small dam data sheet must be signed by you.

The \$45.20 submitted has been placed in an open account in your name and will be applied to these applications when returned. I am returning your applications and supporting data for completion.

Very truly yours,

Larry W. Jebousek
Assistant

Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.
