The Oregon Department of Fish and Wildlife (ODFW) has submitted the above instream water right applications for fish life and wildlife purposes. This document, called a consolidated “Initial Review”, is to inform ODFW of the potential limitations to the proposed instream water right and to describe some of ODFW’s options. Based on the information ODFW provided; the Water Resources Department has made several determinations:

The referenced applications are complete and not defective.

The proposed use is not prohibited by law;

The instream fish life uses, and wildlife uses are allowed under the Rogue Basin Program OAR (690-515-0000); The instream fish life uses, and wildlife uses are allowed under the Umpqua Basin Program OAR (690-516-0000); The instream fish life uses, and wildlife uses are allowed under the Southcoast Basin Program OAR (690-517-0000)

All amounts of water identified in this document are shown in cubic feet per second.
