Dear Sir:

This office is just in receipt of advice from Miss Bertha E. Fredenburg, Administratrix of the Estate of Adolph Olson, to the effect that you are the present owner of property previously owned by Mr. Olson and covered by Permit No. 11872.

According to our records, the appropriation defined by this permit, which covers the use of water for the irrigation of 20 acres, has been commenced but not completed and if this is the case and if it is your desire to complete the appropriation by irrigating the land described in the permit, you should have the permit assigned to you by Miss Fredenburg as Administratrix and submit the assignment to this office for recording accompanied by the statutory fee, which is \$1.00 if the enclosed form is used in making the assignment.

The enclosed blank for making application for an extension of time should also be executed by you, signed before a notary public and submitted with the assignment. This application for an extension of time is required because under the terms of the permit, all of the lands intended to be irrigated under the permit should have been irrigated on or before October 1, 1938.
