REFERENCE: Transfer 6447

Enclosed is our check for \$205.00. This is a full refund of the fees submitted with transfer application 6447.

This transfer application was filed to request a change in point of diversion for water use permit 4053, with a 1919 priority date. The water right certificate for this permit is being issued with the diversion point at the treatment plant. Since the certificate for permit 4053 accomplishes what the transfer requested, it is not needed.

Since the transfer is not needed, the application is being "mis-filed". Mis-filing is our administrative action which allow us close the file and make a full refund of the fees. If you have any questions, please call the Water Rights Section, (503) 378-3739.

Sincerely,

LARRY H. NUNN
