

Oregon Water Resources Department
Water Right Services Division

Water Right Application S-88851 in the)
name of WELLMAN BURCH and DEBBI)
ANN BURCH)

FINAL ORDER
APPROVING THE USE OF
STORED WATER

Authority

Oregon Revised Statute (ORS) 537.147 establishes the process by which an application to use stored water exclusively may be submitted. Oregon Administrative Rule (OAR) Chapter 690, Divisions 310 and 340 implement the statute, and provide the Department's procedures and criteria for evaluating applications to use stored water exclusively.

FINDINGS OF FACT

1. On July 23, 2020, Wellman Burch and Debbie Ann Burch submitted an application for a water-use permit pursuant to ORS 537.147.
 - Volume:** 15.0 ACRE-FEET (AF)
 - Use:** IRRIGATION of 4.5 ACRES
 - Period of Use:** MARCH 1 THROUGH OCTOBER 31
 - Source:** APPLGATE RESERVOIR, CONSTRUCTED UNDER PERMIT R-7810, TRIBUTARY TO APPLGATE RIVER
 - County:** JACKSON COUNTY
 - Place of Use:** SECTION 29, TOWNSHIP 39 SOUTH, RANGE 3 WEST, W.M.
2. The required examination fees were paid and minimum application requirements were met.
3. The Department has determined that the proposed use is an authorized use under the water right permit, certificate, or decree that allows the storage of water.
4. On August 11, 2020, the Department provided public notice of the application in the Department's weekly public notice. A 30-day comment period followed.
5. The Department has not received public comments related to the possible issuance of the attached permit. Therefore, the Department has determined that no public interest issues as identified in ORS 537.170(8) have been raised.
6. Application S-88851 proposes irrigation during the irrigation season of each year. The Department assumes that the application is referencing the standard irrigation season, being March 1 through October 31 of each year.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 536.075 and ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

7. A portion of the area (2.5 acres) proposed to be irrigated under this application is currently authorized under an existing irrigation water right evidenced by Certificate 15505, which conflicts with the application (see attached map of Certificate 15505).
8. On October 30, 2020, the Department sent a certified letter to the applicant to notify them of the conflict and requested resolution no later than December 30, 2020. As of the date of this Final Order, the Department has not received the required information. Therefore, the conflicting 2.5 acres authorized under Certificate 15505 have been omitted from the attached draft permit.

CONCLUSIONS OF LAW

1. Application S-88851 is consistent with the requirements of ORS 537.147 and OAR Chapter 690.

ORDER

Application S-88851 is approved. **Upon payment of the remaining permit recording fee of \$105 and submission of a valid, executed contract with the U.S. Bureau of Reclamation authorizing the use of stored water from the Applegate Reservoir, a permit shall be issued authorizing the proposed water use.** Failure to meet this requirement within 60 days from the date of this Final Order may result in the proposed rejection of the application.

If you need to request additional time, your written request should be received in the Salem office of the Department within 60 days of this Final Order. The Department will evaluate the request and determine whether or not the request may be approved.

Dated at Salem, Oregon on **MAR 09 2021**

DRAFT

THIS IS NOT A PERMIT

DRAFT

STATE OF OREGON

COUNTY OF JACKSON

DRAFT PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS DRAFT PERMIT IS HEREBY ISSUED TO:

WELLMAN BURCH
DEBBIE ANN BURCH
10337 HWY 238
JACKSONVILLE OR 97530

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-88851

SOURCE OF WATER: APPLGATE RESERVOIR, CONSTRUCTED UNDER PERMIT R-7810,
TRIBUTARY TO APPLGATE RIVER

MAXIMUM VOLUME: 15.0 ACRE-FEET (OR AS FURTHER LIMITED BY CONTRACT)

PURPOSE OR USE: IRRIGATION OF 2.0 ACRES

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: JULY 23, 2020

AUTHORIZED POINT OF RE-DIVERSION:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	3 W	WM	29	NW SW	760 FEET SOUTH AND 550 FEET EAST FROM NW CORNER, LOT 2, SECTION 29

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to a diversion of not to exceed 4.5 acre-feet per acre for each acre irrigated during the irrigation season of each year. The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

AUTHORIZED PLACE OF USE:

Twp	Rng	Mer	Sec	Q-Q	Acres
38 S	3 W	WM	29	NW SW	2.0

1. Water Use Measurement, Recording, and Reporting Condition:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter at each point of diversion. The permittee shall maintain the device in good working order.

- B. The permittee shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.
 - C. The Director may require the permittee to keep and maintain a record of the volume of water diverted, and may require the permittee to report water-use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water-use information, the periods of water use and the place and nature of use of water under the permit.
 - D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.
- 2. The water user shall install, maintain, and operate fish screening and fish passage devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion, while passage devices provide adequate upstream and downstream passage for fish. The required screen and passage devices are to be in place and functional, and approved in writing by ODFW prior to diversion of water. The water user may submit evidence in writing that ODFW has determined screens and/or passage devices are not necessary.
 - 3. The use of water under this permit is subject to the terms and conditions of contract No. XXXX, or a satisfactory replacement, between the U.S. Bureau of Reclamation and the permittee, a copy of which must be on file in the records of the Water Resources Department.

STANDARD CONDITIONS

- 1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
- 2. Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.
- 3. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
- 4. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
- 5. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

6. Construction of the water system shall begin within five years of the date of permit issuance. The deadline to begin construction may not be extended. This permit is subject to cancellation proceedings if the begin construction deadline is missed.
7. Complete application of the water shall be made within five years of the date of permit issuance. If beneficial use of permitted water has not been made before this date, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.
8. Within one year after making complete application of water, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.
