Dear Sir:

In reply to your letter of the 13th instant you are advised that the source of water supply under application No. 3860, permit No. 2142, is "Monger Creek and Hartley Reservoir as described in application No. 3861, permit No. 296." The point of diversion is given as being within the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 42, T. 39 S. R. 5 W., and the termination is given as within the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 4, T. 39 S. R. 5 W.

No doubt Mr. Hartley has the permit granted by this office and if so, it would give him all the information we would have in this office in regard to his water right.

Very respectfully,

Percy A. Gupper,

Acting State Engineer.

Dear Sir:

I obtained a brief statement of applications No. 3860 and 3861 permits No. 2142 and R. 296 made by and granted to J. T. Hartley. Mr. Hartley either misunderstood the briefs or the application No. 3860 permit No. 2142 was for the enlargement of the Manger Creek ditch instead of the Williams Creek ditch, as originally intended.

Will you please advise me as to how the above is recorded.

Very truly yours

Dear Sir:

Proofs of appropriation of water under permit No. 2142 and Reservoir Permit No. 296, together with \$2.00, have been received in this office.

I am returning proof under permit No. 2142, together with tracing of the map filed with your application. From this it appears you are allowed to irrigate 10 acres in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ and 20 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 4, T. 39 S. R. 5 W. Your answer to question seven does not show the exact location of the lands irrigated. Please answer it by describing the forty acre tracts instead of the 160 acre tracts.

Upon receipt of the corrected proof, the matter will be presented to the Board at its next meeting for approval and issuance of final water right certificate.
