Dear Sirs,

This is a statement to inform you
that we used the water from
our water project (PH# 36558) for
irrigation the following years, 1975,
1976, 1977 and then was cut off
by the water master. The project
is finished and ready for survey.

File No. 48741

Dear Mr. Söler:

According to the terms of your permit number 36558, which is for the appropriation of 0.06 cfs from an unnamed stream for irrigation of 5.0 acres,

complete application of water was to have been made by October 1, 1976.

Complete application of water means the application of water to a beneficial use under the permit to the full extent intended. In the case of irrigation, it means beneficial irrigation of all the lands the permittee intends to cover under the terms of the permit. If water has been used, you should promptly submit notice describing the extent of completion as set forth in the letter accompanying your permit and also in our postal card of March 2, 1978.

ORS 537.260 provides that: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the Water Resources Director proof of completion of the appropriation as required by ORS 537.230 and 537.250, the Water Resources Director may, after 60 days' notice by registered mail, order the cancellation of the permit..."

In accordance with the provisions of ORS 537.260, you are hereby notified that unless proof of beneficial use is received within 60 days from the date of this letter, the permit(s) may be canceled without further notice.

If, for any reason, you are no longer interested in the project described by the permit, we would appreciate it if you would so advise. If the property involved has changed hands and any part of the project has been completed, you should immediately assign the permit to the new owner and advise us of his name and address. An assignment form will be furnished upon request.

Sincerely,
James E. Sexson, Director

Dear Mr. Siler:

Under the terms of your permit 36558 which granted the right to the use of .06 cubic foot of water per second from an unnamed stream for the irrigation of 5.0 acres, the construction of the water system was to have been completed by October 1, 1975, and water used by October 1, 1976. To date, we have not been advised of use of water.

Will you please bring us up to date? I have enclosed forms for your use.

Sincerely,

Dear Mr. Siler:

This will acknowledge your application for a permit to appropriate 0.06 cubic foot of water per second from an unnamed creek for the irrigation of 5 acres, a legal description in the remarks section, a reproducible map and the fee of \$20 for which our receipt number 25677 is enclosed. This application has been filed and numbered 48741.

Item Number 4 on your application indicates that the point of diversion is located 400 feet south and 2840 feet west from the east quarter corner of the E $\frac{1}{2}$ of the SE $\frac{1}{4}$ of Section 26. The reference corner appears to be improperly designated. According to your map, the point of diversion is referenced to the east quarter corner of Section 26. If the map correctly represents the reference corner as the east quarter corner of Section 26, I can amend Item Number 4 on your application upon receipt of your written authorization.

Further action on your application will be withheld for a reasonable length of time, pending your reply.

Very truly yours,

WAYNE J. OVERCASH
Assistant
