NOTICE OF COMPLETION OF CONSTRUCTION

I, Jessie Tuttle, the holder of Application No. 7637, being
ditch and dam Permit No. 4860, issued by the State Engineer of the State of Oregon
 (Reservoir or Enlargement)
 for the appropriation of 2.0 second-feet of the waters of Thompson Creek
 in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engineer,
 have completed the construction of the works described therein the 1st day of April, 1922,
 being within the time limitation as fixed in said permit or extended by the State Water Board for the
 completion of construction work.

Remarks:

This water is now irrigating our land
 If the works have a less capacity than as described in the permit, or you have definitely abandoned your plan of irrigating any of the lands described
and 4 rods of ditch & flume completed
 in your permit, you should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 15th day of June, 1922.

Selma, Ore Mrs Jessie Tuttle
 (Present Address) (Signature of Applicant)

Fill out, detach, and mail to the Secretary, State Water Board, Salem, Oregon. Form D should be used in reporting progress of work if more than one year has been allowed for completion.

Form C

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, Jessie Tuttle, the holder of Application No. 7637, being
ditch and dam Permit No. 4860, issued by the State Engineer of the State of Oregon
 (Reservoir or Enlargement)
 for the appropriation of 2.0 second-feet of the waters of Thompson Creek
 in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engineer,
 completely applied the water to a beneficial use, on the 1st day of October, 1923,
 being the time limitation as fixed in said permit or extended by the State Water Board for the complete
 application of water to a beneficial use.

Remarks:

All this water has been in constant
 If all of the water granted in the permit had not been fully applied to beneficial use, you should so state, so that delinquent appropriators may
use since June 1st '23
 have notice.

IN WITNESS WHEREOF, I have hereunto set my hand this 6 day of October, 1923.

Selma Jessie Tuttle
 (Present Address) (Signature of Applicant)

Fill out, detach, and mail to the Secretary, State Water Board, Salem, Oregon.

Form A

NOTICE OF BEGINNING OF CONSTRUCTION

I, Mrs Jessie Tuttle, the holder of Application No. 7637, being
Ditch Permit No. 4860, issued by the State Engineer of the State of Oregon
 (Reservoir or Enlargement)
 for the appropriation of 2.0 second-feet of the waters of Thompson Creek
 in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engineer,
 began the actual construction of the works described therein on the 27 day of December, 1920,
 being within the time limitation as fixed in said permit for the beginning of construction work.

Commenced construction with two men digging ditch

The appropriator should state the manner of beginning construction work, number of men and teams employed, the amount of work completed up to the date of this
there is 48 rods of ditch and four rods of flume completed
 statement, and any additional information which may tend to show the beginning of work in good faith.
and water in actual use. I want a small reservoir
will build 50 rods more ditch to where

IN WITNESS WHEREOF, I have hereunto set my hand this _____ day of _____, 19____.

Selma Oregon Mrs Jessie Tuttle
 (Present Address) (Signature of Applicant)

August 28, 1973

Mr. Robert B. Steimer
Watermaster, District #14
714 N. W. "A" Street
Grants Pass, Oregon 97526

Dear Bob:

With reference to your letter of July 12 (copy enclosed), I have looked over the permit map, the adjudication map, and the other available data which really do not prove or disprove Mr. Camp's statement that the diversion of water is actually from a spring fed stream instead of being directly from the spring. The map prepared for the water right permit probably was made by the applicant at the time of filing. The adjudication map, of course, was made by employees of the State Engineer and may or may not be accurate as to the spring location. My opinion is that if an inspection on the ground shows that the point of diversion identified on the adjudication map as a spring is in fact a diversion from a spring fed stream, Mr. Camp could make the change in point of diversion regardless of the word used to describe the source in the adjudication proceeding.

As you probably noticed in your inspection of the records, the lands in Section 21 that are not shaded in yellow on the adjudication map, plus 4 acres in the SW 1/4 SW 1/4 of Section 21, enjoy a right to 0.2 cubic foot of water per second from Thompson Creek under the priority date November 24, 1920, as established under permit number 4860. It appears from the location of the rights as shown by the application map that it must be partly supplemental to the right allowed by the decree of the Court in the Illinois River Adjudication.

If you have any further questions on this matter, please let me know and I'll give you a call on the Watts line.

Sincerely,

JAMES W. CARVER, Jr.
Deputy State Engineer

FILE NO.

CHRIS L. WHEELER
State Engineer

Chris L. Wheeler
State Engineer
Salem, Oregon

Dear Sir:

Mr. Lowell Camp was in Monday to check on his water rights. This is in the name of J. Tuttle, certificate 13933, priority 1858, Illinois River Decree from springs. Another in which he was interested was permit 3791, priority 1918 from springs. Mr. Camp maintains that the 1858 right and the 1918 right both are taken from spring fed unnamed streams and always have been. He was on the property in 1918 when permit 3791 was filed.

Mr. Camp would like to change the place of use and the point of diversion as he is fractionating the property. I informed him I didn't believe we could change diversion from the spring as it was listed on the decree as a spring, on the permit right as a spring and on the adjudication map as a spring. He said he felt the maps were incorrect and that while permit 3791 lists the source as springs, the application map shows the source as being an unnamed gulch headed by springs. He says this is also true of the spring located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 21 on the adjudication map. He would like to know if we intend to hold to the present definition of springs or if we would allow him latitude in that the springs were improperly described and that in years gone by a small spring fed gulch was called a spring. I told him I didn't believe it could be done through our office but I thought we should check with you first before he tried to have an attorney modify the decree.

Very truly yours,

Robert B. Steimer
Watermaster, Dist. #14

October 16, 1923.

Jennie Tuttle,
Selma, Oregon.

Dear Madam:

Blank for making final proof of appropriation of water under your permit No. 4860 has been forwarded to Mr. M. L. Opdycke, water master for your district, who will make an inspection and assist in filling out the proof at an early date.

When properly filled out and executed, the proof should be returned to this office, together with the \$1.00 fee required for recording final certificate of water right.

Yours very truly,

H.

Rhea Luper,
State Engineer.

October 16, 1923.

Mr. M. L. Opdycke,
Water Master,
Grants Pass, Oregon.

Dear Sir:

Blank for making proof of appropriation of
water under permit No. 4860, by Jennie Tuttle, is
enclosed.

Please make an inspection in accordance with
your usual practice, and also see that the proof is
filled out and signed in proper form and transmitted
with your report and recommendations.

The usual fee of \$1.00 for recording final
certificate of water right should accompany the proof.

Yours very truly,

H
Enclosure.

Rhea Luper,
State Engineer.

October 9, 1923.

Mrs. Jennie Tuttle,
Selma, Oregon.

Dear Madam:

Notice of complete application of
water under your application No. 7637, Per-
mit No. 4860, has been received in proper
form and placed on file.

Final proof blanks will be forward-
ed for execution within a short time and you
will be further advised.

Very respectfully,

Rhea Luper,
State Engineer.

Application No. 7637
Permit No. 4860

21932

STATE OF OREGON

COUNTY OF JOSEPHINE

CERTIFICATE OF WATER RIGHT

This is to Certify, That Jennie Tuttle

of Selma, State of Oregon, has made proof
to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of
Thompson Creek

a tributary of Deer Creek (Illinois River) for the purpose of irrigation
under Permit No. 4860 of the State Engineer, and that said right to the use of said waters
has been perfected in accordance with the laws of Oregon; that the priority of the right hereby
confirmed dates from November 24, 1920;

that the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed
0.2 cubic foot per second.

The use hereunder for irrigation shall conform to such reasonable rotation system as may be
ordered by the proper state officer.

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per
acre, or its equivalent in case of rotation.

A description of the lands irrigated under the right hereby confirmed, and to which such
right is appurtenant (or, if for other purposes, the place where the water is put to beneficial
use), is as follows: Twelve (12) acres in the Northeast Quarter of the Southwest
Quarter (NE $\frac{1}{4}$ SW $\frac{1}{4}$) and Four (4) acres in the Southeast Quarter of the Southwest
Quarter (SE $\frac{1}{4}$ SW $\frac{1}{4}$) of Section Twenty-one (21), Township Thirty-eight (38) South,
Range Seven (7) West of the Willamette Meridian, in Josephine County, Oregon.

The right to the use of the water for irrigation purposes is restricted to the lands or place of
use herein described.

Rights to the use of water for power purposes are limited to a period of forty years from
the date of priority of the right, as herein set forth, subject to a preference right of renewal under
the laws existing at the date of the expiration of the right for power purposes, as hereby con-
firmed and limited.

WITNESS the signature of the State Engineer,

affixed this 1st day
of April, 1924.

Rhea Luper,
State Engineer.

APPLICATION FOR A PERMIT

To Appropriate the Public Waters of the State of Oregon

I, Jennie Tuttle
 of Selma (Name of Applicant)
Oregon (Postoffice), County of Josephine
 State of Oregon, do hereby make application for a permit to appropriate the
 following described public waters of the State of Oregon subject to existing rights:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Thompson Creek
 (Name of stream)
 tributary of Deer Creek (Illinois River)

2. The amount of water which the applicant intends to apply to beneficial use is
0.20 cubic feet per second.

3. The use to which the water is to be applied is Irrigation
 (Irrigation, power, mining, manufacturing,
 domestic supplies, etc.)

4. The point of diversion is located Commencing at the SE corner of Section 21;
thence West 110 rods; thence North 2 rods
 (Give distance and bearing to section corner)

being within the SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Sec. 21, Tp. 38 S
 (Give smallest legal subdivision) (No. N. or S.)
 R. 7 W, W. M., in the county of Josephine
 (No. E. or W.)

5. The ditch to be 80 rods
 (Main ditch, canal or pipe line)
miles in length, terminating in the NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Sec. 21, Tp. 38 S
 (Smallest legal subdivision) (No. N. or S.)
 R. 7 W, W. M., the proposed location being shown throughout on the accompanying map.
 (No. E. or W.)

6. The name of the ditch, canal or other works is Tuttle Ditch

DESCRIPTION OF WORKS

DIVERSION WORKS—

7. (a) Height of dam 20 feet, length on top 1 feet, length at bottom
1 feet; material to be used and character of construction Brush and rock, etc.
 (Loose rock, concrete,
 masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate Wood
 (Timber, concrete, etc., number and size of openings)

* A different form of application is provided where storage works are contemplated. These forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

Completed & signed B.

CANAL SYSTEM—

8. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: Width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate. Width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

FILL IN THE FOLLOWING INFORMATION WHERE THE WATER IS USED FOR:

IRRIGATION—

9. The land to be irrigated has a total area of 16 acres, located in each smallest legal subdivision, as follows:

(Give area of land in each smallest legal subdivision which you intend to irrigate.)
12 acres in the NE $\frac{1}{4}$ of SW $\frac{1}{4}$ and

4 acres in the SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 21, Township 38 S R 7 W.W.M.

(If more space required, attach separate sheet)

POWER, MINING, MANUFACTURING, OR TRANSPORTATION PURPOSES—

10. (a) Total amount of power to be developed theoretical horsepower.

(b) Total fall to be utilized feet.

(Head)

FOOT

(c) The nature of the works by means of which the power is to be developed

(d) Such works to be located in of Sec.

(Legal subdivision)

Tp., R., W. M.

(No. N. or S.)

(No. E. or W.)

(e) Is water to be returned to any stream?

(Yes or No)

(f) If so, name stream and locate point of return

....., Sec., Tp., R., W. M.

(No. N. or S.)

(No. E. or W.)

(g) The use to which power is to be applied is

(h) The nature of the mines to be served

MUNICIPAL SUPPLY—

11. To supply the city of
 County, having a present population of and an
 (Name of) estimated population of in 19.....

(Answer questions 12, 13, 14 and 15 in all cases)

12. Estimated cost of proposed works, \$..... 100.00
 13. Construction work will begin on or before April 1, 1921
 14. Construction work will be completed on or before April 1, 1922
 15. The water will be completely applied to the proposed use on or before
 October 1, 1923

Duplicate maps of the proposed ditch or other works, prepared in accordance with the rules of the
 State Water Board, accompany this application.
