Dear Applicant:

The Oregon Water Resources Department has received your application to store water in a reservoir under the Alternate Review process. Your application has been assigned file number **R-89120**. Please refer to this number when contacting the Department. Should you have any questions about your application, please contact the following Water Rights Specialist assigned to your application:

Kim French, Water Rights Specialist	Phone: 503-986-0816
	Email: <a href="mailto:kim.r.french@oregon.gov">kim.r.french@oregon.gov</a>

A description of the steps that are used for processing an application to stored water in a reservoir are shown on the reverse side of this letter.

Included with this letter is a Wetland Determination Request form provided by the Department of State Lands (DSL) Wetland Program to determine if wetlands or other regulated water bodies (such as creeks) are in the project area. Please complete and return the form to DSL.

Please note that your application is subject to review and comment from other state agencies and interested parties.

Sincerely,

Cory Middleton

## **Water-Use Permit Application Processing Steps**

### **Oregon Water Resources Department**

#### **Alternate Review Process for a Reservoir Applications:**

After a completed application has been received by the Department, the Department must make public notice of the application within 60 days. Applications are noticed to the public every Tuesday and can be accessed from the Department's website: <https://www.oregon.gov/owrd>.

The Department does not notify individual, neighboring landowners of an application, unless they are identified in the application as affected landowners. The public notice is to ensure that any person may submit detailed information requesting the Department deny an application based upon whether the proposed use causes injury to existing water rights or poses a significant detrimental impact to an existing fishery resource. All comments must be submitted within 60 days of the public notice.

Following the 60-day public comment period, the Department can issue a Final Order. Alternate Reservoir applications typically take between 3-5 months to process, depending upon the number of pending applications in the queue.

The Department recommends applicants not schedule excavation work or otherwise expend financial resources until an ODFW fish passage plan and the alternate reservoir application have been approved. Also note that other permits may be required for any construction activities in waterways, wetlands, or riparian areas.

The Department of State Lands (DSL) conducts *offsite* wetland determinations upon request. There is no fee for this service. An offsite determination consists of reviewing wetlands and soils maps, aerial photos and other information to determine if wetlands or other regulated water bodies (such as creeks) are present, likely to be present, or unlikely to be present. Only an *onsite* check can verify whether or not there are regulated wetlands on a site. As time allows, DSL staff may be able to conduct a site visit to verify an offsite determination. Please allow 2-3 weeks for an initial response.

If wetlands are present or likely to be present on a parcel or near a project area, a wetland delineation by a qualified wetland consultant may be needed. Wetland delineation reports and the required fee should then be submitted to DSL for review and agency approval.

**Please provide the following information:**

1. Vicinity map (like a city map) with the precise parcel location indicated.
2. Large scale map (1" = 100' if possible) of the parcel showing existing buildings, property boundaries, any creeks and other features. An annotated tax assessor's map is fine, and a hand-drawn map is acceptable.
3. City, County, and site address. Please fill in below.
