Form C (890-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Application No. G-7063

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

Sylvester (Bud) Morris, the holder of Permit No. G-6542
to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in
accordance with the terms of said permit, on the 20 day of July, 1976

Remarks: _____

FINAL PROOF SURVEY
UNDER

Application No. G-7063 Permit No. G-6542....
IN NAME OF

BUD MORRIS

Surveyed OCT. 7, 1981, by J. L. TOLL.....

STATE OF OREGON

COUNTY OF

HARNEY

RECEIVED

JAN 9 1987

WATER RESOURCES DEPT.
SALEM, OREGON

PROOF OF APPROPRIATION OF WATER

SYLVESTER F. (BUD) MORRIS

of Star Rt. 1, 1046 Hwy. 205, Burns, State of OR 97720,
has applied beneficially the waters of
a well

a tributary of Harney Lake for the purpose of
irrigation of 50.8 acres

under Permit No. G-6542 and that the use of said waters has been completed under the terms of said
permit; that the priority of the right dates from
January 2, 1976

that the amount of water for the purposes aforesaid, has been actually beneficially used in the amount of

0.64 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the well. The well is
located in the SE 1/4 SW 1/4, Section 33, T24S, R31E, WM;
2220 feet East from SW corner Section 33.

The amount of water used for irrigation, together with the amount secured under any other right
existing for the same lands, shall be limited to one-eightieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be
further limited to a diversion of not to exceed 3.0 acre-feet per acre for
each acre irrigated during the irrigation season of each year,

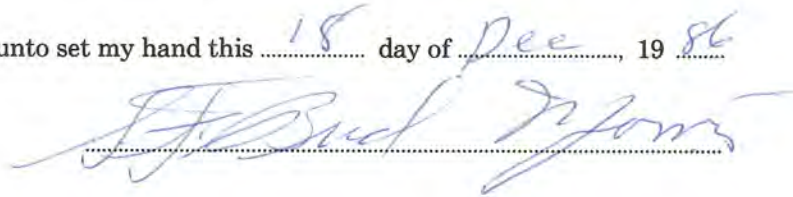

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is as follows:

11.6 acres NE 1/4 SW 1/4
39.2 acres SE 1/4 SW 1/4
Section 33
Township 24 South, Range 31 East, WM

I have read the above and foregoing proof of appropriation of water; I know the contents thereof, and that
the facts therein stated are true.

WATER RESOURCES DEPT.
SALEM, OREGON

Water Resources Director,
Due to a fire which destroyed our home and papers, we haven't sent form C to your office.

Please forward us the necessary paper so we may effectively complete our water right. We have not abandoned this development. We also have two other reservoirs we have developed on other pieces of land which are fed by springs - could you please send us any forms we might need to obtain water rights on them. Thank you.

Dud Morris

P.S. Would it be possible to get a copy of our permit which we lost in our fire?

Burns, OR 97720

Dear Mr. Morris:

We have recently received your corrected application numbered G-7063, map, and fees in the amount of \$22.00. Your application has been reinstated and given a new date of priority of January 2, 1976.

Your application is now in satisfactory form for approval by the issuance of a permit.

Sincerely,

Thomas E. Shook
Water Rights Engineer

JAN 2 1976

WATER RESOURCES DEPT.
SALEM, OREGON

Burns, Ore.

Dear sir,

Sorry for the delay on returning
our water right application material.
Due to the sale of some land,
we wish to change the amount
of acres applied for from 120 to 70 acres.
We have noted the changes on
the application. Enclosed also find
map on tracing paper showing
the location of the well. You also
asked for the name & address of
the well driller or contractor and
date the well was constructed mentioning
you had no record of it. There were
five wells on this 80 acres when
we purchased it from the previous
owner. We cleaned out this particular
well and cased it to a depth of
83 feet, sealed off surface water,
cemented the upper 25 feet of casing
in to comply with your specifications.
The Harney County watermaster was

out and inspected this operation
and helped us fill out the application
form. Hoping this answers your
inquiries and meets with your approval.

Yours Truly
Dud Morris

Enclosed find check for \$22.00
as per your letter.

File G-7063

Sylvester Frank (Bud) Morris
P.O. Box 245
Burns, OR 97720

Dear Mr. Morris:

Since you have not returned your application numbered G-7063 or replied to correspondence regarding it, we assume that you have reconsidered the matter of your proposed appropriation and have decided to abandon your project.

Unless we hear from you within thirty days from the date of this letter, your application will be rejected without further notice. The recording fee in the amount of \$15.00 will be returned; however the examination fee in the amount of \$20.00 is required by law to be paid into the General Fund of the State and is, therefore, not returnable.

Sincerely,

Thomas E. Shook
Water Rights Engineer

Burns, OR 97720

Dear Mr. Morris:

Your application numbered G-7063 which was returned to you for correction and completion has not been received. It was endorsed so that in order to have retained its priority date it should have been received on or before October 23, 1975.

It has, therefore, lost its priority, but may be re-instated and given a new priority date as of the day it is again received.

Sincerely,

Thomas E. Shook
Assistant

G-7063

Sylvester Frank (Bud) Morris
P.O. Box 243
Burns, OR 97720

Dear Mr. Morris:

Your application for a permit to appropriate 800 gallons of water per minute from a well for the irrigation of 120 acres has been received along with prints of maps, and the fees of \$35.00. Your application has been filed as number G-7063.

The map of your proposed project will have to be prepared on a good quality tracing paper so that it can be easily reproduced. The description of the location of the well must be shown on the map to correspond with the information given in item 4 of the application and you will also have to show the area to be irrigated as well as inserting the number of acres to be irrigated within each forty acre tract to correspond with the data given in item 12 of the application.

The most recent session of legislation increased the statutory fees. Your application requires an examination fee of \$20.00 and an irrigation recording fee for 120 acres of \$37.00. We have applied \$35.00 to your application, but an additional \$22.00 is required to complete the fees.

We do not have a record of the well at the location described on your application. Will you please send us the name and address of the well driller or contractor and the date the well was constructed.

August 19, 1975
