OCT 16 1967 CARD FOR C
JAN 15 1968 FORM 100

Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.

REFERENCE: Transfer Application T-11906

Enclosed is a copy of the final order approving your water right transfer application.

The time allowed to complete the transfer is specified in the final order. **YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT.** The water right for any portion of the authorized change in character of use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change(s) within the time allowed.

You are required to hire a Certified Water Rights Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this Department within one year of the date you complete the change(s) or within one year of the completion date authorized in the transfer final order, whichever occurs first.

If you have any questions related to the approval of this transfer, you may contact your caseworker, Kelly Starnes, by telephone at (503) 986-0886 or by e-mail at Patrick.K.Starnes@wrd.state.or.us.

Authority

Oregon Revised Statute (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rule (OAR) Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Findings of Fact

1. On October 17, 2014, CURT BLACKBURN filed an application to change the points of appropriation and add additional points of appropriation under Certificates 35135, 36880, 49683, 83994, and 89445. The Department assigned the application number T-11906.
2. Notice of the application for transfer was published on October 28, 2014, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On November 4, 2014, the Department emailed the agent notifying them of the deficiencies in the application.
4. On November 19, 2014, the agent submitted a revised application and map correcting the deficiencies.
5. On July 21, 2015, the Department emailed the agent notifying them of the deficiencies in the application.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

6. On July 22, 2015, the agent submitted a revised application and map correcting the deficiencies.
7. On December 2, 2015, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-11906 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of January 4, 2016, for the applicant to respond. The applicant requested that the completion date be extended to October 1, 2022 and for the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
8. On February 17, 2015, the Department issued a Preliminary Determination proposing to approve Transfer Application T-11906 and sent a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published in the Department's weekly notice on February 23, 2016, and in the Burns Times Herald newspaper on February 24 and March 2, 2016, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notices.
9. The portion of the first right to be transferred is as follows:

Transfer Review Criteria (OAR 690-380-4010)

19. Water has been used within the last five years according to the terms and conditions of the rights. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
20. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-11906.
21. The proposed change would not result in enlargement of the rights.
22. The proposed change would not result in injury to other water rights
23. All other application requirements are met.

Conclusions of Law

The change in points of appropriation and additional points of appropriation proposed in Transfer Application T-11906 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The change in points of appropriation and additional points of appropriation proposed in Transfer Application T-11906 are approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificates 35135, 36880, 49683, 83994, and 89445 and any related decree.
3. Water right Certificates 83994 and 89445 are cancelled.
4. Water right Certificates 35135, 36880, and 49683 are cancelled. New certificates will be issued describing those portions of the rights not affected by this transfer.

5. The quantity of water diverted at the additional points of appropriation, together with that diverted at the original points of appropriation, shall not exceed the quantity of water lawfully available at the original points of appropriation.
6. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at each point of appropriation (new and existing).
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
7. If substantial interference with a senior water right occurs due to withdrawal of water from any well listed in this transfer, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.
8. If the number, location, source, or construction of any well deviates from that proposed in the transfer application or required by permit conditions, this transfer may be subject to cancellation, unless the Department authorizes the change in writing.
9. Prior to using water from any well listed in this transfer, the applicant shall ensure that the well has been assigned an OWRD Well Identification Number (Well ID). A tag showing the Well ID shall be permanently attached to the well. If a well does not have a Well ID, the applicant shall apply for one from the Department and attach it to the well within 60 days of the date the transfer is approved. The Well ID shall be used as a reference in any correspondence regarding the well, including any reports of water use, water level, or pump test data.
10. Dedicated Measuring Tube: Wells with pumps shall be equipped with a minimum 3/4-inch diameter, unobstructed, dedicated measuring tube pursuant to figure 200-5 in OAR 690-200. If a pump has been installed prior to the issuance of this transfer, and if static water levels and pumping levels can be measured using an electrical tape, then the installation of the measuring tube can be delayed until such time that water levels cannot be measured or the pump is repaired or replaced.
11. Before water use may begin, the water user shall install a totalizing flow meter at each point of appropriation. The totalizing flow meter must be installed and maintained in good working order. In addition, the water user shall maintain a record of all water used each month, including the total number of hours of pumping, the total quantity pumped, and the categories of beneficial use to which the water is applied. During the period of the limited license, the record of use shall be submitted to the Department annually, or more frequently as may be required by the Director, and shall be submitted to the Watermaster upon request.

12. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
13. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2022**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
14. After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.

Dear Sir:

On May 11, 1970, we mailed you copies of proofs of the certificates in connection with the incomplete water rights represented by your permits numbered G-2880, G-2881 and G-3904 for the use of water from Pon Well No. 20, Pon Wells No. 15 and 15-A and a well, together with the instructions that the statement at the bottom of each page be signed and the copies be returned to this office accompanied by the certificate recording fees in the amount of \$3.00.

To date these forms have not been received nor has any correspondence regarding reasons for not returning them been received. This is to notify you that unless we receive the signed final proof forms and the certificate recording fees, or a request for additional time within thirty days from the date of this letter, we will be required to take steps toward the cancelation of these permits.

Dear Sir:

Enclosed is the final proof in connection with the incomplete water right represented by your permit No.s. G-2880, G-3904, and G-2881.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your permit. The proof should be dated and signed by you and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory recording fee of \$1, a certificate of water right will be issued confirming the right thereunder and, after being recorded in the county records, will be forwarded to you.

Gentlemen:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No.s G-2880 and G-2881.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

According to the terms of your permit No. G-2880 which is for the appropriation of 1.7 c.f.s., Pon Well No. 20 from Foleys Slough tributary of Silvies River for the supplemental irrigation of 138 acres complete application of water was to have been made by October 1, 1967.

Complete application of water means the application of water to beneficial use under the permit to the full extent intended. In the case of irrigation, it means beneficial irrigation of all the lands the permittee intends to cover under the terms of the permit. If water has been used, you should promptly submit notice describing the extent of completion as set forth in the letter accompanying your permit and also in our postal card of October 16, 1967.

ORS 537.260 provides that: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the State Engineer proof of completion of the appropriation as required by ORS 537.230 and 537.250, the State Engineer may, after 60 days' notice by registered mail, order the cancelation of the permit.****"

In accordance with the provisions of ORS 537.260, you are hereby notified that unless proof of beneficial use is received within 60 days (s) may be canceled without
