REMARKS

WOLF 1981 A B

Form C (690-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Application No. G8916

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, Melvin Y. Davenport Engr for Meadowland Ranches Inc., the holder of Permit No. G8311

to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 1st day of September, 1978.

Remarks: _____

IN WITNESS WHEREOF, I have hereunto set my hand this 26 day of Feb., 1980

Meadowland Ranches Inc By: Melvin Y. Davenport Engr PO Box 131, Caldwell, Id. 83605

WATER RIGHT OWNERSHIP UPDATE FORM

RECEIVED

JUL 03 2003

NOTICE TO SELLERS & BUYERS:

WATER RESOURCES DEPT.
SALEM, OREGON

By law, all water belongs to the public [ORS 537.110]. In almost every instance, a Permit OR Water Right Certificate from the **Water Resources Department** is needed before using, diverting; or storing water [ORS 537-130]. However, most domestic wells do not require water rights. A water right stays with the land. In order to keep track of water right ownership, ORS 537.330 requires persons selling property that has a Water Right Certificate to: 1) provide evidence of the Water Right Certificate to the buyer and 2) notify the Water Resources Department of the Water Right Certificate involved with the real estate transaction. Sellers are exempted from this requirement if the water uses are served by a water district or a city.

Water that has been used for a long time in one place or that involves a water structure (like a dam) that already exists is no guarantee that there is a water right which would allow the water use to continue.

If you have any questions about this form or water right requirements, please contact your local watermaster or call the **Water Resources Department** at 503-378-8455.

Note: Please type or print legibly when filling in the following information. Use additional paper if necessary.

EXHIBIT "A"

PARCEL 1:

A parcel of land located in Section 27, Township 1 North, Range 23, East of the Willamette Meridian, in the County of Morrow, and State of Oregon, being more particularly described as follows:

Beginning at the Northwest Corner of the Southwest Quarter of the Northwest Quarter of said Section 27; thence South 88°59'29" East 301.45 feet along the North line of said subdivision to the Point of Beginning; thence South 16°51'43" East 484.64 feet; thence South 58°23'52" East 480.03 feet; thence South 82°23'12" East 787.33 feet; thence South 61°10'47" East 383.23 feet; thence south 82°29'20" East 695.64 feet; thence South 28°13'07" East, 1180.02 feet; thence South 47°03'46" East 455.37 feet; thence South 00°15'16" West 1561.88 feet to the South line of said Section 27; thence South 89° 04'40" East 376.45 feet along said South line to the Southeast Corner of the Southwest Quarter of the Southeast Quarter of said Section 27; thence North 00°15'16" East 5265.73 feet along the East line of the West Half of the Southeast Quarter and the East line of the West Half of the Northeast Quarter of said Section 27 to the Northeast Corner of the Northwest Quarter of the Northeast Quarter of said Section 27; thence North 89°57'45" West 1310.34 feet to the North Quarter Corner of said Section 27; thence South 00°19'15" West 658.54 feet to the Southeast corner of the North Half of the Northeast Quarter of the Northwest Quarter of said Section 27; thence North 88°58'38" West 1311.10 feet to the Southwest Corner of the North Half of the Northeast Quarter of the Northwest Quarter of said Section 27; thence South 00°23'13" West 658.86 feet to the Northeast Corner of the Southwest Quarter of the Northwest Quarter of said Section 27; thence North 88°59'29" West 1010.41 feet to the True Point of Beginning.

EXCEPTING THEREFROM an easement for Access across an existing driveway located in the North Half of said Section 27 and running from Highway 74 to a point on the North line of the above described property.

ALSO EXCEPTING the Rights of Way over said premises whether for irrigation ditches or road ways.

PARCEL 2:

That portion of the tract of land comprising the "abandoned Heppner Branch" right of way of the Union Pacific Railroad Company, successor in interest to the Oregon Railway & Navigation Company and Oregon-Washington Railroad & Navigation Company, situated in the following described parcel of land:

The West Half of the East Half of Section 27, Township 1 North, Range 23, East of the Willamette Meridian, in the County of Morrow and State of Oregon.

Important Disclaimer

This water rights research was conducted by staff at the Watermaster's office located in Pendleton, Oregon. Although every effort has been made to ensure an accurate search, the following discrepancies may occur:

- Acreage shown with a $\pm$ symbol are approximations of the amount of water right on a tax lot. This could mean that a water right does not lie entirely within the tax lot requested or there is some other doubt as to the actual acreage indicated. In this situation, one way to ascertain the exact, legal amount of water rights within a tax lot is to hire a certified water rights examiner.
- Although a property may have water rights of record, if they have undergone five successive years of non-use they may be subject to cancellation under ORS 540.610. For a copy of this statute or more information, please contact the Watermaster's office.
- It is critical that the person requesting the research carefully check any research conducted by staff from this office to be sure that the water right is appurtenant to the property they are interested in. Any listings as a result of a manual search of the Watermaster's records are not based on the official water right of record. The *official* water right records are kept in the Salem office.

CERTIFICATE OF WATER RIGHT

This Is to Certify, That **ROBERT HEIDEMAN**

of Star Route 2, Ione, State of Oregon, 97843, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of a well

a tributary of Willow Creek for the purpose of irrigation of 0.4 acre and supplemental irrigation of 15.9 acres

under Permit No. G-4445 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from December 16, 1958 that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes and shall not exceed 0.20 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the well. The well is located in the NW 1/4 SE 1/4, Section 27, T. 1 N., R. 23 E., W. M., 2450 feet North and 2260 feet West from the SE Corner, Section 27

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer. A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

Primary
0.4 acres NW 1/4 SE 1/4

Supplemental
3.3 acres SW 1/4 NW 1/4
12.6 acres NW 1/4 SE 1/4

Section 27
T. 1 N., R. 23 E., W. M.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

WITNESS the signature of the Water Resources Director, affixed

(City)

State of Oregon97843

(Zip Code)

Phone No. 422-7270

do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well

(Give number of wells, tile lines, distribution galleries, etc.)

having a diameter of 10" and an estimated depth of 100 feet.2. The well or other source is to be located 1120 ft. S and 2180 ft. W

(N. or S.)

(E. or W.)

from the NE corner of Sec. 27

(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ ofSec. 27 Tp. 1N R. 23E, W.M., in the county of Morrow.

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated	
				PRIMARY	SUPPLEMENT
<u>1N</u>	<u>23E</u>	<u>27</u>	<u>NW $\frac{1}{4}$ NE $\frac{1}{4}$</u>	<u>12⁴</u>	<u>3⁹</u>
			<u>SW $\frac{1}{4}$ NE $\frac{1}{4}$</u>	<u>9⁸</u>	<u>0⁶</u>
			<u>NE $\frac{1}{4}$ NW $\frac{1}{4}$</u>	<u>12⁵</u>

Application No. 6-819

Permit No. G 7617

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.75 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 7, 1977

Actual construction work shall begin on or before December 2, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 2nd day of December, 19 77

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ORAMARTIC, INC.
C/O BOB BUTLER
P.O. BOX 430
VALE, OREGON 97918

confirms the right to use the waters of A WELL in the SILVIES RIVER BASIN for the purpose of IRRIGATING 130.9 ACRES.

The right has been perfected under Permit G-8311. The date of priority is AUGUST 7, 1978. The right is limited to not more than 1.64 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the well.

The well is located as follows:

NE 1/4 NE 1/4, SECTION 14, T 23 S, R 32 E, W.M.; 1190 FEET SOUTH & 1220 FEET WEST FROM THE NORTHEAST CORNER OF SECTION 14.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The right shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is as follows:

NE 1/4 NE 1/4	32.0 ACRES
NW 1/4 NE 1/4	34.0 ACRES
SW 1/4 NE 1/4	32.4 ACRES

ANNUAL INSPECTION REPORT

Oramartic Inc. 1981 A-18

August 10, 1983 Ves Garner

On August 10, 1983 I made the annual inspection of Oramartic's project near Burns.

The project is a used pivot to irrigate 130 acres in grain production.

This year there does not appear to have been any crop planted. The field has been cultivated but not seeded or irrigated. Possibly the field is in the PIK program.

INSPECTION REPORT

Oramartic, Inc. 1981 A-18

June 16, 1982 Ves Garner

On June 16, 1982 I again inspected Oramartic's project near Burns.

The project is a used pivot.

The pivot is on the project and appears in good repair.

The land is not yet farmed due to wet soil conditions this year.

INSPECTION REPORT
Oramartic, Inc. 1981 A-18
10/28/81 Ves Garner

On October 28, 1981 I inspected the Oramartic, Inc. project near Burns in Harney County. No one was contacted or on the property at the time of the inspection.

The project is as last inspected. The land had been farmed and irrigated for the 1981 season. The crop appeared to be barley and yield appeared to be sparse.

INSPECTION REPORT
Oramartic, Inc. 1981 A-
5/1/81 V.G.

On May 1, 1981 I inspected the project of Oramartic, Inc. near Burns. No one was contacted or on the property at the time of the inspection.

All of the land is cleared and has been cultivated. A crop for 1981 has not been planted.

I found a well near the center pivot that had a 100 horsepower GE motor and an 8 inch Aurora Turbine pump. Power was in to the well and it appeared to be at least two or three years old.

I found a Lockwood Circle Rider center pivot which appeared to be in good condition. The pivot was primarily a low pressure mist system but did have a couple of impact sprinklers near the pivot. The system uses two end guns of different sizes (large sprinklers).

The 320 acres immediately to the east of this parcel appear to have similar developments.

Dear Mr. Davenport:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit number G-8311.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

I am not sure what you meant by the "form to transfer a water permit."

If you mean to change the name of the permit holder from Meadowland Ranches, Inc. to some new owner, enclosed are these forms. We call them assignment forms because you would be assigning your interest in the water right to someone else. Once the certificate of water right is issued this is no longer necessary. The right then transfers with sale of the property.

If you wish to change the location of the water right in some way, this would constitute a transfer. Enclosed are the forms for making a transfer.

Sincerely,

Larry M. Toll
Water Rights Engineer

Dear Sir:

Enclosed is an application for a permit to appropriate Ground Water from an existing well by Meadowland Ranches, Inc. to irrigate 153.6 acres in the NE $\frac{1}{4}$ of Section 14, Township 23 South, Range 32 East W.M.

Also enclosed is my check for \$ 67.20 for Examination Fee of \$ 20.00, and Recording Fee of \$ 47.20

Also enclosed are 4 copies of the land description and 4 copies of the test pump curve on the well.

Also enclosed is a sepia map and 3 prints of the proposed irrigation system.

Yours truly,

Melvin V. Davenport

REFERENCE: Transfer Application T-12399

Enclosed is a copy of the final order approving your water right transfer application.

The time allowed to complete the transfer is specified in the final order. **YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT.** The water right for any portion of the authorized change in character of use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change(s) within the time allowed.

You are required to hire a Certified Water Rights Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this Department within one year of the date you complete the change(s) or within one year of the completion date authorized in the transfer final order, whichever occurs first.

If you have any questions related to the approval of this transfer, you may contact your caseworker, Jessica Joye, by telephone at (503) 986-0814 or by e-mail at Jessica.L.Joye@oregon.gov.

Sincerely,

Marissa Andrews
Water Right Services Support

Enclosure

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application	)	FINAL ORDER APPROVING AN
T-12399, Harney County	)	ADDITIONAL POINT OF
	)	APPROPRIATION

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

STEPHEN F. ROTH
41600 HWY 20
BROTHERS, OR 97712

Findings of Fact

1. On May 27, 2016, STEPHEN F. ROTH filed an application for an additional point of appropriation under Certificate 89564. The Department assigned the application number T-12399.
2. Notice of the application for transfer was published on June 7, 2016, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On April 6, 2017, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-12399 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of May 5, 2017, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

4. On July 5, 2017, the Department issued a Preliminary Determination proposing to approve Transfer T-12399 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on July 11, 2017, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.
5. The right to be transferred is as follows:

Certificate: 89564 in the name of ORAMARTIC, INC. (perfected under Permit G-8311)

Use: IRRIGATION of 130.4 ACRES

Priority Date: AUGUST 7, 1978

Rate: 1.634 CUBIC FEET PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season for each year.

Source: A WELL in the SILVIES RIVER BASIN

Authorized Point of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
23 S	32 E	WM	14	NE NE	1190 FEET SOUTH AND 1220 FEET WEST FROM THE NE CORNER OF SECTION 14

Authorized Place of Use:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
23 S	32 E	WM	14	NE NE	32.0
23 S	32 E	WM	14	NW NE	34.0
23 S	32 E	WM	14	SW NE	32.4
23 S	32 E	WM	14	SE NE	32.0
TOTAL					130.4

6. Transfer Application T-12399 proposes an additional point of appropriation approximately 950 feet from the existing point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
23 S	32 E	WM	14	NE NE	1000 FEET SOUTH AND 400 FEET WEST FROM THE NE CORNER OF SECTION 14

Transfer Review Criteria (OAR 690-380-4010)

7. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.

8. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12399.
9. The proposed change would not result in enlargement of the right.
10. The proposed change would not result in injury to other water rights.
11. All other application requirements are met.

Conclusions of Law

The additional point of appropriation proposed in Transfer Application T-12399 is consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

Now, therefore, it is ORDERED:

1. The additional point of appropriation proposed in Transfer Application T-12399 is approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 89564 and any related decree.
3. Water right Certificate 89564 is cancelled.
4. The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
5. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation.
 - b. The water user shall maintain the meter or measuring device in good working order.
 - c. The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device are located within a private structure, the Watermaster shall request access upon reasonable notice.
6. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

7. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2018**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
8. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 14 day of August, 2017.

Dwight French, Water Right Services Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department

Mailing date: AUG 23 2017

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE STATE OF OREGON**

In the Matter of a Partial Cancellation of Water)
Right Certificate 63579, in the name of)
Oramartic, Inc., Harney County) **FINAL ORDER**

Authority

ORS 540.621 directs the Commission to enter an order cancelling a water right whenever the owner of a perfected and developed water right certifies that the water right has been abandoned by the owner and the owner desires to cancel the right or portion thereof.

Findings of Fact

1. On June 18, 2014, the Department received an affidavit from Lanny R. Quackenbush, Eastern Region Manager for Department of State Lands Eastern Region, 1645 NE Forbes Rd., Bend, OR 97701, stating the State of Oregon is the legal owner of land and the appurtenant water right evidenced by Certificate 63579.
2. Pursuant to OAR 690-017-0100(2)(a), the Department has determined the State of Oregon is the recorded owner, as established by county deed records, of the water right evidenced by Certificate 63579.
3. Certificate 63579 allows for the use of not more than 1.64 cubic foot per second (cfs) from a well for the purpose of irrigating 130.9 acres. The date of priority is August 7, 1978.
4. The affidavit requests cancellation of 0.006 cfs and 0.5 acres at the location identified in the table below:

Twp	Rng	Mer	Sec	Q-Q	Acres
23 S	32 E	WM	14	NE NW	0.3
23 S	32 E	WM	14	SE NW	0.2

Conclusions of Law

The Director of the Water Resources Department concludes the portion of the right evidenced by Certificate 63579 has been abandoned in accordance with the provisions of ORS 540.621 and shall be cancelled.

Now, therefore, it is ORDERED:

1. Certificate 63579 is cancelled.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

2. The Department shall issue a new and superseding certificate to describe the remaining portion of the water right NOT cancelled by the provisions of this order.

Dated at Salem, Oregon this 26th of November, 2014.

E. Timothy Wallin, Water Rights Program Manager for
THOMAS M. BYLER, DIRECTOR

Mailing date: NOV 26 2014

STATE OF OREGON

COUNTY OF HARNEY

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ORAMARTIC, INC.

PO BOX 430

VALE, OR 97918

confirms the right to use the waters of a WELL in the SILVIES RIVER BASIN for IRRIGATION of 130.4 ACRES.

This right was perfected under Permit G-8311. The date of priority is AUGUST 7, 1978. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 1.634 CUBIC FEET PER SECOND (cfs) or its equivalent in case of rotation, measured at the well.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
23 S	32 E	WM	14	NE NE	1190 FEET SOUTH AND 1220 FEET WEST FROM THE NE CORNER OF SECTION 14

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
23 S	32 E	WM	14	NE NE	32.0
23 S	32 E	WM	14	NW NE	34.0
23 S	32 E	WM	14	SW NE	32.4
23 S	32 E	WM	14	SE NE	32.0
Total:					130.4

This certificate describes that portion of the water right confirmed by Certificate 63579, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered **NOV 26 2014**, at Special Order Volume 93, Pages 858-859.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed NOVEMBER 26 2014.

**APPLICATION PROCESS DESCRIPTION FOR
GROUNDWATER, SURFACE WATER AND REGULAR RESERVOIR
APPLICATIONS**

WATER RESOURCES DEPT
SALEM, OREGON

In order to take and use the waters of Oregon, a citizen must first obtain a permit from the Water Resources Department. The water must be used for beneficial purpose - without waste. To become well-informed about water right topics, weekly public notice, forms and fees please visit our web site at www.wrd.state.or.us

1. Pre-application considerations

- follow instructions in the application packet
- if you have questions about completing an application or would like to arrange a pre-application conference contact the Department's Water Rights Information Group (WRIG) at 503-986-0801

2. Application filing

- application with fee is received by the Department
- Department determines completeness of application
- if use is not allowed by statute (ORS 538), the application and fees are returned to the applicant
- incomplete application and fees are returned to the applicant
- only a complete application receives a tentative priority date, is assigned a caseworker, and moves forward for processing

3. Initial Review (IR)

- caseworker reviews application by considering basin plans, water availability, statutory restrictions and all other appropriate factors
- caseworker sends IR report to applicant
- contact the caseworker if you have questions about the IR
- seven days after date of the IR, it is included in Department's weekly Public Notice
- public comments must be submitted within 30 days after the Public Notice
- administrative hold may be requested in writing by applicant

4. Proposed Final Order (PFO)

- caseworker evaluates application against required criteria and develops draft permit, if appropriate
- PFO includes instructions for filing of protests
- caseworker considers public comments and mails PFO to applicant
- the PFO is included in Department's weekly Public Notice
- public protests to the PFO must be submitted within 45 days after the Public Notice

Stop Processing deadline is within 14 days of Initial Review - use the form below
- applicant may request no further action and fee refund of all but \$225

**STOP PROCESSING REQUEST FOR
GROUNDWATER, SURFACE WATER AND REGULAR RESERVOIR APPLICATIONS**

Applicant notification to withdraw Water Right Application # _____

After reviewing the Initial Review for my application, I request that processing be stopped and the fees be refunded (minus a \$225 examination fee.) I understand that without a valid permit I may not legally use the water as requested in my application

Signature _____ date _____

Signature _____ date _____

Under ORS 537.150 (5) and 537.620 (5) timely submission of this request authorizes that the water right application process be stopped and all filing fees (except \$225 examination fee) be returned.

This notice must be received at Water Resources Department by _____

Return the notice to: OWRD, Water Rights Division

STOP PROCESSING

725 Summer Street, NE - Suite A

RECEIVED

JUN 18 2014

Salem OR 97301-1271

WATER RESOURCES DEPT
SALEM, OREGON

5. Final Order (FO)

- if no protest is filed, Final Order is issued

The protest process

If one or more protests are filed, permit process consists of:

- settlement discussion
- contested case hearing
- proposed order
- period of time to file exceptions
- possible hearing by Water Resources Commission
- final order issued

Permit holder responsibilities

- comply with all water use conditions of the permit
- advise Department of address change or assignment to new permit holder
- if need arises, request extension of time or authorize cancellation of permit
- submit timely claim of beneficial use (COBU) to Department
- most permits require COBU to be prepared by a Certified Water Right

Examiner

- permits may be canceled by the permit holder or by the Department for failure to comply with or one or more permit conditions

WATER RESOURCES DEPT
SALEM, OREGON

Dear Applicant:

**THIS IS NOT A PERMIT AND IS
SUBJECT TO CHANGE AT THE NEXT PHASE OF PROCESSING.**

This letter is to inform you of the preliminary analysis of your water-use permit application and to describe your options. In determining whether an application may be approved, the Department must consider the factors listed below, all of which must be favorable to the proposed use if it is to be allowed. Based on the information you have supplied, the Water Resources Department has made the following preliminary determinations:

Initial Review Determinations:

1. The application proposed the appropriation of 5.8 cubic feet per second (CFS) of water from Well 1, Well 2, Well 3, Well 4, Well 6, and Well 7 in Malheur Lake Basin for irrigation of 347.8 acres March 1 through October 31 of each year.
2. The proposed use is not prohibited by law or rule except where otherwise noted below.
3. The appropriation of water from Well 1, Well 2, Well 3, Well 4, Well 6, and Well 7 in Malheur Lake Basin for irrigation is allowable under the Malheur Lake Basin Program.
4. Ground water will likely be available within the capacity of the resource, and if properly conditioned, the proposed use of ground water will avoid injury to existing ground water rights.

The Department has determined, based upon OAR 690-009, that the proposed ground water use will not have the potential for substantial interference with any surface water source.

5. The application proposed a water use limit that is higher than the general basin-wide standard and submitted information that demonstrates the need for the higher limit. Oregon Revised Statute 537.621(4) allows the Department to authorize the requested limit except upon specific findings related to the application to support a determination that a lesser amount is needed. The Department has determined there is a need for the higher limit, being 1/60 CFS per acre.

RECEIVED

JUN 18 2014

WATER RESOURCES DEPT
SALEM, OREGON

6. A portion of the area proposed to be irrigated under this application is currently covered by an existing irrigation water right evidenced by Certificate 63579, which conflicts with the application. Please see the Conflict Resolution Information section below for more information.

Summary of Initial Determinations

The appropriation of 5.8 CFS from Well 1, Well 2, Well 3, Well 4, Well 6, and Well 7 in Malheur Lake Basin for irrigation of 347.8 acres is allowable during the full period requested, March 1 through October 31 of each year, contingent upon the resolution of the conflict with underlying rights.

Because of these favorable determinations, the Department can now move your application to the next phase of the water-rights application review process, where public interest factors will be evaluated.

Conflict Resolution Information:

A portion of the area proposed to be irrigated under this application is currently covered by an existing irrigation water right evidenced by Certificate 63579, which conflicts with the application (see attached map of Certificate 63579). The overlap appears as 0.3 acre in the NENW and 0.2 acre in the SENW of Section 14, T23S, R32E, WM.

If you would like this application to be the primary right, the Department must receive:

- A completed form authorizing cancellation of the conflicting portions of the existing right, along with a map describing those portions; or
- A transfer application addressing the conflicting portions of the existing right; or
- Another means of dealing with the conflict between the existing right and the use proposed under this application.

If, however, you choose to drop the overlapping acreage from this application, you will need to submit a revised application map which excludes the conflicting lands.

Please provide information regarding the status of the overlapping acreage and how you would like to proceed no later than **Thursday, May 22, 2014**. If you are unable to submit the information listed above, you may request an administrative hold for up to an additional 180 days. You must submit the request in writing, stating how much more time you will need and why you need additional time. If an administrative hold is granted, your application will not be processed further until the requested information is received or the extended deadline has passed.

Please reference the application number when sending any correspondence regarding the conclusions of this initial review. Comments received within the comment period will be evaluated at the next phase of the process.

WATER RESOURCES DEPT
SALEM, OREGON

To Proceed With Your Application:

If you choose to proceed with your application, you do not have to notify the Department. Your application will automatically be placed on the Department's Public Notice to allow others the opportunity to comment. After the comment period the Department will complete a public interest review and issue a Proposed Final Order.

Withdrawal Refunds:

If you choose not to proceed, you may withdraw your application and receive a refund (minus a \$225 processing charge per application). To accomplish this you must notify the Department in writing by Friday, May 2, 2014. For your convenience you may use the enclosed "STOP PROCESSING" form.

If A Permit Is Issued It Will Likely Include The Following Conditions:

1. Measurement devices, and recording/reporting of annual water use conditions:
 - A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter, or other suitable measuring device as approved by the Director, at each point of appropriation. The permittee shall maintain the device in good working order.
 - B. The permittee shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.
 - C. The permittee shall keep a complete record of the volume of water diverted month, and shall submit a report which includes water-use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water-use information, including the place and nature of use of water under the permit.
 - D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

2. Static Water Level Conditions

The Department requires the water user to obtain, from a qualified individual (see below), and report annual static water levels for each well on the permit. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement.

The permittee shall report an initial March static water-level measurement once well construction is complete and annual measurements thereafter. Annual measurements are required whether or not the well is used. The first annual measurement will establish a reference level against which future measurements will be compared. However, the Director may establish the reference level based on an analysis of other water-level data. The Director may require the user to obtain and report additional water levels each year if more data are needed to evaluate the aquifer system.

RECEIVED

JUN 18 2014

Page 4
WATER RESOURCES DEPT
SALEM, OREGON

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board. Measurements shall be submitted on forms provided by, or specified by, the Department. Measurements shall be made with equipment that is accurate to at least the standards specified in OAR 690-217-0045. The Department requires the individual performing the measurement to:

- A. Associate each measurement with an owner's well name or number and a Department well log ID; and
- B. Report water levels to at least the nearest tenth of a foot as depth-to-water below ground surface; and
- C. Specify the method of measurement; and
- D. Certify the accuracy of all measurements and calculations reported to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if any of the following events occur:

- A. Annual water-level measurements reveal an average water-level decline of three or more feet per year for five consecutive years; or
- B. Annual water-level measurements reveal a water-level decline of 15 or more feet in fewer than five consecutive years; or
- C. Annual water-level measurements reveal a water-level decline of 25 or more feet; or
- D. Hydraulic interference leads to a decline of 25 or more feet in any neighboring well with senior priority.

The period of restricted use shall continue until the water level rises above the decline level which triggered the action or the Department determines, based on the permittee's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or causing substantial interference with senior water rights. The water user shall not allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

- 3. The permittee shall construct one minimum six-inch diameter observation well to penetrate the same aquifer as the production wells. The well shall meet the Department's minimum well construction standards and shall be cased and sealed to the same depth as the production wells. The well shall be constructed at a location approved by the Department for the purpose of instrumentation with continuous water-level monitoring equipment. The landowner or permittee shall provide access to Department staff to install and maintain the monitoring equipment. The well shall not be used for any other purpose while the Department is monitoring water levels. The well shall be completed prior to water use under the terms of this permit.
- 4. Prior to using water from any well listed on this permit, the permittee shall ensure that the well has been assigned an OWRD Well Identification Number (Well ID tag), which shall be permanently attached to the well. The Well ID shall be used as a reference in any correspondence regarding the well, including any reports of water use, water level, or pump test data.

The water source identified in your application may be affected by an Agricultural Water Quality Management Area Plan. These plans are developed by the Oregon Department of Agriculture (ODA) with the cooperation of local landowners and other interested stakeholders, and help to ensure that current and new appropriations of water are done in a way that does not adversely harm the environment. You are encouraged to explore ODA's Water Quality Program web site at http://www.oregon.gov/ODA/NRD/water_agplans.shtml to learn more about the plans and how they may affect your proposed water use.

If you have any questions:

Feel free to call me at 503-986-0859 if you have any questions regarding the contents of this letter or your application. Please have your application number available if you call. General questions about water rights and water use permits should be directed to our customer service staff at 503-986-0801. When corresponding by mail, please use this address: Mary Rohling, Oregon Water Resources Department, 725 Summer St NE Ste A, Salem OR 97301-1266. Our fax number is 503-986-0901.

This Indenture, made the 9 day of May, 1925,
by and between Clarence H. Young, as Sheriff of the County of
Harney, State of Oregon, the party of the first part, and
State of Oregon

the party of the second part:

Witnesseth, That the said party of the first part, by virtue of an execution and
order of sale duly issued out of the Circuit Court of the State of Oregon, for the County of
Harney on the 10th day of May, 1923, on a
judgment and decree theretofore duly taken in said Court, in a suit wherein The State
Land Board of Oregon
was plaintiff, and Ira L. Williams and Decie
Williams,

were defendants, for the foreclosure of a mortgage upon the
property hereinafter described, and a sale of said property duly made on the 12th day of
June, 1923, and a due confirmation of said sale on the 30th day of
July, 1923, and in pursuance of the statutes in such cases made and provided,
and for and in consideration of the sum of fifteen hundred thirty and 51/100
Dollars
to him in hand paid by the said party of the second part, the receipt
whereof is hereby acknowledged by said first party, and the said first
party

has granted, bargained, sold, conveyed and confirmed, and by these presents does grant, bargain, sell,
convey, and confirm unto the said party of the second part, and to its successors
and assigns forever, all the estate, right, title and interest, which the said defendants in said suit, or
either of them, had on the 12th day of June, 1923, or at any time
afterwards, or now have in or to all those certain lots, pieces or parcels of land, situate, lying and
being in the said County of Harney, State of Oregon, and more particularly
described as follows, to-wit:

The Northwest quarter (NW1) Section Fourteen

(14), Township Twenty-three (23) South, Range

Thirty-Two (32) East of Willamette Meridian,

together with all water rights appertaining

thereto, or in use thereon.

STATE OF OREGON
COUNTY OF HARNEY
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ORAMARTIC, INC.
C/O BOB BUTLER
P.O. BOX 430
VALE, OREGON 97918

confirms the right to use the waters of A WELL in the SILVIES RIVER BASIN for the purpose of IRRIGATING 130.9 ACRES.

The right has been perfected under Permit G-8311. The date of priority is AUGUST 7, 1978. The right is limited to not more than 1.64 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the well.

The well is located as follows:

NE 1/4 NE 1/4, SECTION 14, T 23 S, R 32 E, W.M.; 1190 FEET SOUTH & 1220 FEET WEST FROM THE NORTHEAST CORNER OF SECTION 14.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The right shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is as follows:

NE 1/4 NE 1/4	32.0 ACRES
NW 1/4 NE 1/4	34.0 ACRES
SW 1/4 NE 1/4	32.4 ACRES
SE 1/4 NE 1/4	32.0 ACRES
NE 1/4 NW 1/4	0.3 ACRE
SE 1/4 NW 1/4	0.2 ACRE

SECTION 14

TOWNSHIP 23 SOUTH, RANGE 32 EAST, W.M.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed this date DECEMBER 27, 1989.

Mary,

I have attached the revised application with the changes to the project as well as the revised map...Additionally, I have attached the form to cancel the portion of the water rights that are on DSL land that conflict with application G-17705. Please let me know if this works and a time frame when we will get the permits to these parcels.

Thank you,

Shawn

Subject: RE: Phone Number is not going through

Hi Shawn, I tried calling you when I saw this. You didn't mention how the project had changed, only that there would no longer be a conflict. So, if you are only changing the place of use, and that change does not increase the acreage, you should be able to request the change by email explaining the change and submitting revised map.

If the change involves additional changes then it might not be as simple. For example, changes in the location or number of wells may include the need for additional Groundwater Review and additional fees.

I will try calling again later. I have been contacted that they'll look into my phone problem with external calls.

Mary

Subject: RE: Phone Number is not going through

Thanks Shawn, I was out sick yesterday so wasn't at my desk to answer your call. I tried the number myself and you're right. I've contacted our phone person about it and will try you again today.

In the meanwhile, I want to touch base on the following-

G-17679

You mention that the project for G-17679 has been modified so there will be no conflict with the place of use. As mentioned in the Initial Review, the conflict is with certificate 1231. We are unable to determine exactly where the conflict is as the only map on record displays 40.0 acres within the q/q.

Based on what you said in your previous email, you don't need to resubmit the whole application. **Please provide a new map with the revised place of use.**

G-17705

If you are interested in cancelling or transferring the 0.5 acres in conflict with Certificate 63579, please complete the applicable form available on our website under Agency Forms - <http://www.oregon.gov/owrd/Pages/pubs/forms.aspx>

Application No. G-8916Permit No. G 8311

ASK S. COLEMAN

STATE OF OREGON WATER RESOURCES DEPARTMENT

RECEIVED

Application for a Permit to Appropriate Ground Water

I, Meadowland Ranches, Inc.

(Name of Applicant)

of Melvin V. Davenport

(Mailing Address)

P.O. Box 131-151

Caldwell

(City)

State of Idaho

83605

(Zip Code)

Phone No. (208) 459-3158

do hereby make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of One existing well

(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 24 and an estimated depth of 240 feet.2. The well or other source is to be located 1158 ft. S and 1118.5 ft. W

(N. or S.)

(E. or W.)

from the NE corner of Section 14, Township 23 South, Range 32 East, W.M.

(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ ofSec. 14 Tp. 23S R. 32E, W.M., in the county of Harney

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
23S	32E	14	NE $\frac{1}{4}$ NE $\frac{1}{4}$	37.8
			NW $\frac{1}{4}$ NE $\frac{1}{4}$	39
			SE $\frac{1}{4}$ NE $\frac{1}{4}$	37.8
			SW $\frac{1}{4}$ NE $\frac{1}{4}$	39.0
Total Acres to be Irrigated				153.6

4. It is estimated that 240 feet of the well will require 14" Steel casing.

(Kind)

5. Depth to water table is estimated 6 Well drilled by Unknown (Existing well)

Application No. G-8916

Permit No. G 8311

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.92..... cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from.....a well.....

The use to which this water is to be applied is..irrigation.....

If for irrigation, this appropriation shall be limited to 1/80th..... of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3..... acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 7, 1978.....

Actual construction work shall begin on or before October 13, 1979..... and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19.....80.....

Complete application of the water to the proposed use shall be made on or before October 1, 19.....81.....

WITNESS my hand this 13th..... day of.....October....., 19.....78.....

Subject: Water rights documentation

This is to request any and all information, documentation..etc, that you may have in relation to the water rights for my property in Harney County described as follows:

In twp. 23 S., R. 32 E., W.M.: Sec. 14: NE 1/4

If it could be of help, here is the tax info. associated with this land: Code area 12, Tax lot number is 1900, account # 5386. Records may still show the last owner name "Alshibib".

This land is currently under a CRP program with the dept. of agriculture, and my attorney explained that it is under a special statute that preserves its water rights through out the program. The type of information I am looking for (not inclusive) is the following:

- * Any documentation that proves the water rights to prospective buyers.
- * Any information, literature..etc. related to the special statute that can provide me with education as to what to expect or do at the end of the CRP contract if I did not renew it.
- * Copies of permits, final orders and/or water rights application map (previous or current) related to this property.
- * Any other statutes, legislation, rules..etc. that is related to the water usage on this property.

Your cooperation is needed and greatly appreciated.

I can be reached at (510) 823 1559 if you have any questions.

Thank you in advance.

LEGEND

○ ROD OR PIPE

Figure 1 illustrates the steps of the proposed algorithm for finding a minimum spanning tree. The process starts with a graph with 10 nodes and 15 edges. The algorithm iteratively selects edges with the minimum weight that do not create a cycle or result in a vertex with a degree greater than 2. The steps shown are: (a) Initial graph, (b) Select edge (1,2) with weight 1, (c) Select edge (2,3) with weight 1, (d) Select edge (3,4) with weight 1, (e) Select edge (4,5) with weight 1, and (f) Select edge (5,6) with weight 1. The final tree has 5 edges and 6 nodes.
