REMARKS

Form C (690-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Application No. G-8342

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

Tyler Brothers, the holder of Permit No. G7766

to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 15th day of August, 1977.

Remarks: _____

IN WITNESS WHEREOF, I have hereunto set my hand this 15 day of Feb, 1978.

(Signature of Applicant)

(Address)

Form B (690-9-77)

Application No. G-8342

NOTICE OF COMPLETION OF CONSTRUCTION

Tyler Brothers, the holder of Permit No. G7766

to appropriate the public waters of the state of Oregon, completed the construction of the works described therein on the 12th day of July, 1977.

Remarks: _____
If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed develop-

ment, you should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 15 day of Feb, 1978.

(Signature of Applicant)

(Address)

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when construction work is completed.

Form A (690-9-77)

Application No. G-8342

NOTICE OF BEGINNING OF CONSTRUCTION

I, Tyler Brothers, the holder of Permit No. G7766

to appropriate the public waters of the state of Oregon, began the actual construction of the works described therein on the 22nd day of February, 1977.

Remarks: Cable tool rig, drilled 468 ft. turbine
The appropriator must state the manner of beginning of construction, the amount of work completed and the type of equipment

required for the water system up to the date of this statement, and any additional information which shows a substantial beginning of construction as authorized by your permit.

IN WITNESS WHEREOF, I have hereunto set my hand this 15 day of Feb, 1978.

(Signature of Applicant)

(Address)

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when construction work is begun.

FINAL PROOF SURVEY
UNDER

Application No. G-8342 Permit No. G-7766
IN NAME OF

TYLER BROTHERS

Surveyed AUG. 25 1978, by C. L. HUGHES

STATE OF OREGON

COUNTY OF

HARNEY

RECEIVED

FEB 16 1982

WATER RESOURCES DEPT
SALEM, OREGON

Proof of Appropriation of Water

TYLER BROTHERS

of Box 693, Burns
has applied beneficially the waters of
a well

, State of Oregon 97720 ,

a tributary of Foley Slough
supplemental irrigation of 282.8 acres

for the purpose of

under Permit No. G-7766 and that the use of said waters has been completed under the
terms of said permit; that the priority of the right dates from

August 5, 1977

that the amount of water for the purposes aforesaid, has been actually beneficially used in the
amount of

3.45 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the well.
The well is located in the SW 1/4 NW 1/4, Section 4, T23S, R31E, WM; 4,530 feet
West from E 1/4 Corner, Section 4.

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further limited
to a diversion of not to exceed 3 acre-feet per acre for each acre irrigated
during the irrigation season of each year;

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is
as follows:

39.3 acres SW 1/4 NE 1/4	40.0 acres NE 1/4 SE 1/4
38.6 acres SE 1/4 NE 1/4	40.0 acres NW 1/4 SE 1/4
35.9 acres NE 1/4 SW 1/4	29.0 acres SW 1/4 SE 1/4
21.5 acres NW 1/4 SW 1/4	36.9 acres SE 1/4 SE 1/4
1.6 acres SE 1/4 SW 1/4	Section 4

Township 23 South, Range 31 East, WM

* While processing the application towards issuance of the permit, it appears
that a clerical error was inadvertently made in limiting the quantity of water
to be appropriated to 2.54 cubic feet per second. In the issuance of this
certificate, the quantity of water allowed under this right has been increased
to the equivalent requested or 3.45 cubic feet per second in keeping with the
customary policy and determination of this office of the proper maximum limits.

I have read the above and foregoing proof of appropriation of water; I know the contents
thereof, and that the facts therein stated are true.

IN WITNESS WHEREOF, I have hereunto set my hand this 12 day of Feb.,

1982

PHONE 378-3066

G-8342

November 22, 1977

Tyler Brothers
Box 693
Burns, OR. 97720

Your application for a permit to use 1550 gallons of water per minute from a well for the irrigation of 205.0 acres and the supplemental irrigation of 77.8 acres has been examined.

The location of your well in Item #2 of your application does not agree with the location of the well shown on the map. Please amend either the map or application to be in agreement.

The land you filed on as primary irrigation has a water right of record for irrigation from main and Foley Slough in the names of J.C. Welcome and Allen Jones. This right was established by a Decree of the Circuit Court for Harney County entered February 23, 1926 in the adjudication proceedings for the Silvies River and its tributaries. Enclosed is a copy of the records.

If this right has been abandoned due to 5 successive years of non-use or in favor of your new irrigation well, an affidavit to abandon this right should be completed to remove the right from the records. The affidavit will be prepared upon request.

If use of this right has been continuous and you will continue using it, your application should be amended to be supplemental irrigation for all the land.

I am returning the map and application for completion and correction. It is endorsed so that in order to retain its priority date, it must be received in this office on or before January 23, 1978.

Sincerely,

LARRY TOLL
Water Rights Engineer

Dear Sirs:

We have received your application for flood irrigation along with the supporting data and fees. Our receipt number 63008 is enclosed. Your application has been filed and assigned number G-8342 .

Because of the many applications which have been filed in recent months, we are temporarily behind in our processing. Your application will be examined in detail as soon as possible. We will contact you if we need any additional information.

The permit approving your application will be issued without further correspondence if no additional information is required. Thank you for your patience.

Sincerely,

Larry W. Jebousek
Administrator

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 3.44 ~~2.54~~ cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.

TRIO FOLEY SLOUGH

The use to which this water is to be applied is supplemental irrigation of 202.4 Ac.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

While processing the application, it was determined that a clerical error was inadvertently made in listing the quantity of water to be appropriated to 2.54 cubic feet per second. In the issuance of this certificate, the quantity of water allowed under this right has been increased to the equivalent requested or 3.44 cubic feet per second in keeping with the customary policy of determination of the office of the proper maximum limits.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 5, 1977

Actual construction work shall begin on or before January 20, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 20th day of January, 1978

James E. Saxon
Water Resources Director

Info: Mr. Lyle Tyler. All is irrigated as applied. He says he uses it ^{to well} to supplement his other water rights.

Source: A well. Depth 468' 12" Casing. W.L. 12'

Drawdown - He doesn't know.

pump - GE 40 HP @ 1770 RPM turbine

Peerless 8" disch.

Use: Irrigation of hay crop.

Equip: He pumps into a ditch which connects to a series of ditches to irrigate prop.

Open discharge through 8" pipe. Pipe was full and was going 30" for a 12" fall. (He says the Watermaster told him it looked like about 1500 GPM)

Lift: zero.
