REFERENCE: Transfer Application T-12655

Enclosed is a copy of the final order approving your water right transfer application.

The time allowed to complete the transfer is specified in the final order. **YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT.** The water right for any portion of the authorized change in character of use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change(s) within the time allowed.

You are required to hire a Certified Water Rights Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this Department within one year of the date you complete the change(s) or within one year of the completion date authorized in the transfer final order, whichever occurs first.

If you have any questions related to the approval of this transfer, you may contact your caseworker, Kelly Starnes, by telephone at (503) 986-0886 or by e-mail at Patrick.K.Starnes@oregon.gov.

Sincerely,

Stacy H. Phillips

Enclosure

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application	)	FINAL ORDER
T-12655, Harney County	)	APPROVING ADDITIONAL POINTS
	)	OF APPROPRIATION

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

TOR S FARMS LLC
6459 OAK HILL RD
ROSEBURG, OR 97471

Findings of Fact

1. On April 28, 2017, TOR S FARMS LLC filed an application for additional points of appropriation under Certificate 82356. The Department assigned the application number T-12655.
2. Notice of the application for transfer was published on May 2, 2017, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On May 29, 2018, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-12655 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of July 2, 2018, for the applicants to respond. The applicants requested the completion date be extended to October 1, 2023 and for the Department to proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicants are authorized to pursue the transfer.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

4. On September 20, 2018, the Department issued a Preliminary Determination proposing to approve Transfer Application T-12655 and sent a copy to the applicants. Additionally, notice of the Preliminary Determination for the transfer application was published in the Department's weekly notice on September 25, 2018, and in the Burns Times-Herald newspaper on September 26 and October 3, 2018, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.
5. The right to be transferred is as follows:

Certificate: 82356 in the name of CONNECTICUT GENERAL LIFE INSURANCE CO. (perfected under Permit G-7664)

Use: IRRIGATION of 626.2 ACRES

Priority Date: DECEMBER 6, 1977

Rate: 7.83 CUBIC FEET PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

Source: FOUR WELLS within the MALHEUR LAKE BASIN

Authorized Points of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances

Transfer Review Criteria (OAR 690-380-4010)

7. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
8. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12655.
9. The proposed change would not result in enlargement of the right.
10. The proposed change would not result in injury to other water rights.
11. All other application requirements are met.

Conclusions of Law

The additional points of appropriation proposed in Transfer Application T-12655 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore it is ORDERED:

1. The additional points of appropriation proposed in Transfer Application T-12655 are approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 82356 and any related decree.
3. Water right Certificate 82356 is cancelled.
4. The quantity of water diverted at the additional points of appropriation, together with that diverted at the original points of appropriation, shall not exceed the quantity of water lawfully available at the original points of appropriation.
5. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install totalizing flow meters, or, with prior approval of the Director, another suitable measuring device at each point of appropriation (new and existing).
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
6. Water shall be acquired from the same aquifer (water source) as the original points of appropriation.
7. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2024**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.

8. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this NOV 14 2018,

Dwight French, Water Right Services Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department

Mailing date: NOV 15 2018

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

NOTICE OF CERTIFICATE ISSUANCE

The attached certificate confirms the water right established under the terms of a permit issued by this department. The water right is now appurtenant to the specific place where the use was established as described by the certificate. The water right is limited to a specific amount of water, but not more than can be beneficially used for the purposes stated within the certificate.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within **60 days of the mailing date stated above** as specified by ORS 183.484(2).

This statement of judicial review rights is required under ORS 536.075; it does not alter or add to existing review rights or create review rights that are not otherwise provided by law.

Under ORS 537.260 and 537.270, a water right certificate may be contested before the Water Resources Department within three (3) months of the date it is issued. If a certificate is contested, the qualifying contestant shall be offered an administrative hearing.

Oregon law does not allow the Director to reissue a certificate because of a change in the ownership of the appurtenant place of use. The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If any portion of this water right is not used for five or more consecutive years, that portion of the right may be subject to forfeiture according to ORS 540.610. Land enrolled in a Federal Reserve Program is not subject to forfeiture during the period of enrollment. Other exceptions to forfeiture are explained in ORS 540.610.

If you have any questions please contact Gerry Clark at 503-986-0811.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). SECTION 19

TOWNSHIP 23 SOUTH, RANGE 34 EAST, W.M.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The wells shall include an air line and pressure gauge or an access port for a measuring line to adequate to determine water level elevation in the well at all times.

The water user shall maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed

PROPOSED

Phillip C. Ward, Director

Recorded in State Record of Water Right Certificates Number.

FAX 503-986-0904

DATE MAILED: May 12, 2006

NOTICE

Reference: Permit G-7664

Enclosed is a proposed certificate of water right and a map which illustrates the location of the right. The map and proposed certificate represent the extent water was used within the terms of the permit based upon a survey and inspection.

If you do not agree with the proposed certificate or the map, Oregon Administrative Rule 690-330-010 (2) allows the permittee or landowner 60 days from the mailing date of this notice to request the Department to reconsider the contents of the proposed certificate.

If you agree with the proposed certificate and map no response to this notice is required. Sometime after the 60 day period, the recorded certificate of water right will be mailed to the permittee.

If you have any questions please contact Gerry Clark at 503-986-0811.

Sincerely,

Dwight French
Administrator
Water Rights Division

[illegible]

41025-179-37L, J.M. 6-26-1997

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

PROPOSED

In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

STATE OF OREGON

COUNTY OF HARNEY

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

CONNECTICUT GENERAL LIFE INS. CO.
910 STEMMONS TOWER NORTH
DALLAS, TEXAS 75207

confirms the right to use the waters of FOUR WELLS in the MALHEUR LAKE BASIN for IRRIGATION OF 626.2 ACRES.

This right was perfected under Permit G-7664. The date of priority is DECEMBER 6, 1977. This right is limited to 7.83 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the wells.

The wells are located as follows:

WELL 1 - ~~LOT 2~~ SE $\frac{1}{4}$ SE $\frac{1}{4}$, SECTION 19, TOWNSHIP 23 SOUTH, RANGE 34 EAST, W.M.; 1320 FEET NORTH AND 1320 FEET WEST FROM THE SE CORNER, SECTION 19.

WELL 2 - ~~LOT 4~~ (SW $\frac{1}{4}$ SW $\frac{1}{4}$) SECTION 19, TOWNSHIP 23 SOUTH, RANGE 34 EAST, W.M.; 1320 FEET NORTH AND 1300 FEET EAST FROM THE SW CORNER, SECTION 19.

G-8493.JM/LHN

CERTIFICATE NUMBER

WELL 3 - SE $\frac{1}{4}$ NE $\frac{1}{4}$, SECTION 19, TOWNSHIP 23 SOUTH, RANGE 34 EAST, W.M.; 2320 FEET SOUTH AND 1320 FEET WEST FROM THE NE CORNER, SECTION 19.

WELL 4 - LOT 2 (SW $\frac{1}{4}$ NW $\frac{1}{4}$), SECTION 19, TOWNSHIP 23 SOUTH, RANGE 34 EAST, W.M.; 2320 FEET SOUTH AND 1300 FEET EAST FROM THE NW CORNER, SECTION 19. X

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

Delete The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

*The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 7.89
7.69 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from four wells.*

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is December 6, 1977

Actual construction work shall begin on or before December 13, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 13th day of December, 1977

PROPOSED CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

CONNECTICUT GENERAL LIFE INS. CO. **Richard Kimball - owner
910 STEMMONS TOWER NORTH 18040 Purrett Mr. Rd.
DALLAS TEXAS 75207 Sherwood, OR 97140

confirms the right to use the waters of FOUR WELLS in the MALHEUR LAKE BASIN for IRRIGATION OF 626.2 ACRES.

This right was perfected under Permit G-7664. The date of priority is DECEMBER 6, 1977. This right is limited to 7.69 CUBIC FOOT PER SECOND, BEING 1.86 CFS FROM WELL 1, 1.24 CFS FROM WELL 2, 2.04 CFS FROM WELL 3 AND 2.55 CFS FROM WELL 4, or its equivalent in case of rotation, measured at the wells.

The wells are located as follows:

WELL NO. 1 - SE 1/4 SE 1/4, SECTION 19, T 23 S, R 34 E, W.M.;
1320 FEET NORTH AND 1320 FEET WEST FROM THE SE CORNER OF SECTION 19.

WELL NO. 2 - SW 1/4 SW 1/4, SECTION 19, T 23 S, R 34 E, W.M.;
1320 FEET NORTH AND 1300 FEET EAST FROM THE SW CORNER OF SECTION 19.

WELL NO. 3 - SE 1/4 NE 1/4, SECTION 19, T 23 S, R 34 E, W.M.;
2320 FEET SOUTH AND 1320 FEET WEST FROM THE NE CORNER OF SECTION 19.

WELL NO. 4 - SW 1/4 NW 1/4, SECTION 19, T 23 S, R 34 E, W.M.;
2320 FEET SOUTH AND 1320 FEET EAST FROM THE NW CORNER OF SECTION 19.

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

NE 1/4 NE 1/4	40.0 ACRES	NE 1/4 SW 1/4	40.0 ACRES
NW 1/4 NE 1/4	40.0 ACRES	NW 1/4 SW 1/4	37.9 ACRES

6 December 1977

Mike Stafford
Crane, Oregon 97732

Dear Mr. Stafford:

We have received your superceding application numbered G-8493 along with your letter authorizing this office to complete your application.

Your application has been completed to request the use of 7/29 cubic feet of water per second from four wells for primary irrigation of 631.4 acres.

As discussed with you earlier, there is an existing right for use of water from Mahon Creek and an unnamed stream for irrigation of the majority of the land described by your application. On your superceding application, you have indicated that this water right is to be abandoned. Therefore, I am enclosing an affidavit of abandonment of the right as evidenced by certificate numbered 24815. The affidavit should be signed by you before a Notary Public and returned to this office.

Upon receipt of the properly completed affidavit, a permit will be issued in approval of your application numbered G-8493.

Sincerely,

Vestal R. Garner
Water Rights Engineer

14 November 1977

Mike Stafford
Crane, Oregon 97732

Dear Mr. Stafford:

Thank you for returning your map and application and also the three copies of the well logs. As you have requested, I am returning the well logs for your records.

In reviewing your project prior to the issuance of a permit, it has come to my attention that there is an existing right on the majority of the land described by your application.

Certificate numbered 24815 was issued to Robert F. Smith in evidence of the water right perfected under permit numbered 18926. This certificate is evidence of the right to use not to exceed 6.0 cubic feet of water per second from Mahon Creek and 1.0 cubic foot of water per second from an unnamed stream for irrigation of 553.7 acres within Section 19, Township 23 South, Range 34 East.

If the existing right to use of water from the two streams is valid, it will be necessary that you amend your application numbered G-2493 to request supplemental irrigation of the land already having an existing right. A supplemental water supply is meant to make up the deficiency in the available supply of an existing right.

The existing right would be valid unless it has been intentionally abandoned in favor of the wells or abandoned by five successive years of non-use.

If the right has been abandoned, we will prepare the necessary affidavit of abandonment.

For your reference, I am enclosing a copy of the map identifying the existing water right. I am also returning your map and application for amendment if the use of ground water is intended to be supplemental to the existing right. Please identify the number of acres of primary irrigation (new land) and supplemental acreage (existing rights) to be irrigated in each quarter-quarter section.

Stafford
Page Two

Dear Mr. Leavall:

We have received an application for a permit from Mike Stafford to use 3926 gallons per minute of water from four wells for irrigation of 640 acres. The application has been filed and, for reference, is numbered G-8493.

The land involved is all of Section 19 of Township 23S., Range 34E.

A permit cannot be issued in approval of this application until the map and application are properly completed to describe the intended project. A copy of our letter to Mr. Stafford is enclosed.

Sincerely,

PHONE 378-3066

G-8493

19 October 1977

Mike Stafford
Crane, Oregon 97732

Dear Mr. Stafford:

We have received your map, fees of \$213.00 and your application for a permit to use 3926 gallons of water per minute from four wells for irrigation of 640 acres. For reference, your application is numbered G-8493.

We have also received your notices that the project is completed and the land has been irrigated to the full extent intended.

Before a permit can be issued in approval of your application, the map and application must describe your intended use of water.

According to the government land office records, Section 19 of Township 23S, Range 34E is not a standard section containing 640 acres. The records indicate that the East three-quarters of the section is standard with each quarter-quarter section containing 40.0 acres. The records further indicate that the West quarter of the section is small with 38.9 acres the NW $\frac{1}{4}$ NW $\frac{1}{4}$, 39.0 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, 39.1 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ and 39.2 in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of the section. If you intend to irrigate all of Section 19, your map must be amended accordingly. In addition, the number of acres to be irrigated in each quarter-quarter section must be listed on the map and the intended irrigated area must be shaded or cross-hatched to be positively identified.

Item #3 of your application must be completed to list the number of acres to be irrigated in each quarter-quarter section. If additional space is required, an additional sheet of paper not exceeding 8 $\frac{1}{2}$ " by 11" in size can be added to the application as an attached sheet.

Item #2 of the application must be completed to describe the location of each well with reference to a government survey corner. In addition, Item #2 must be completed to identify the quarter-quarter section where each well is located. If additional space is needed, you may also attach a separate sheet which provides the information on each well as requested in Item #2 of the application.

COPY

Mike Stafford
Page Two
G-8493

According to our records, we have a well log which describes the construction of a well located in the Southwest quarter of Section 19. We do not have copies of the driller's log regarding the other three wells. If Mr. Rossberg constructed all four wells, please provide us with copies of the logs describing the construction. If the wells were not constructed by Mr. Rossberg, please provide us with the name of the driller and the date each well was constructed.

Since we do not have adequate information in our files to determine that each well is drawing water from the same aquifer, please request a specific quantity of water to be taken from each well. This information can be placed in the remarks section of the application.

Item #7 of the application should be amended to describe the proposed use as irrigation.

I am returning your map and application for the additional information and correction. I am also providing a new application form and our instruction booklet, if needed. If a new form is used, please return the original so the priority date may be maintained. Your application numbered G-8493 is endorsed so that in order to retain its priority date it must be received in this office on or before December 20, 1977.

Sincerely,

Vestal R. Garner
Water Rights Engineer

4 Wells NO. 1 1476 gal Per min NO. 2 1000 gal Per min NO. 3 800 GPM NO. 4 650 GPM
(Give number of wells, tile lines, infiltration galleries, etc.)having a diameter of 12" and an estimated depth of 95-125 feet.

2. The well or other source is to be located

the 4 Wells are described on
the section Plat
from the corner of
(N. or S.) (E. or W.)

(Public Land Survey Corner)

there are 4 Wells which are described on attached
(If there is more than one well, each must be described)

Paper,

being within the all of sec 19, $\frac{1}{4}$ of
Sec. 19 Tp. 23 S R. 34 E, W. M., in the county of Harney

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
<u>23 S</u>	<u>34 E</u>	<u>19</u>	<u>all of Sec 19</u>	<u>640 acres</u>

4. It is estimated that 4 100' Wells feet of the well will require 100' each 12" Pipe casing.
(Kind)5. Depth to water table is estimated 10' Well drilled by Roesberg and Son
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 3926 gallons per minute.

7. The use to which the water is to be applied is Wheel line sprinkler

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

1 1/2 miles (7920 feet) of 8" steel Mainline
1/2 mile (2640 feet) of 10" Aluminum Mainline
Well no. 1. 75 HP turbine Pump (8")
Well no. 2. 60 HP turbine Pump (8")
Well no. 3. 50 HP turbine pump (8")
Well no. 4. 40 HP turbine Pump (6")

14 (1/4 mile) wheel lines

11. Construction work will begin on or before.....

Oct 23, 1975

12. Construction work will be completed on or before.....

July 12, 1977

13. The water will be completely applied to the proposed use on or before.....

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from.....

The use to which this water is to be applied is.....

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is

Actual construction work shall begin on or before and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19.....

Complete application of the water to the proposed use shall be made on or before October 1, 19.....

Permit No.

Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.

Application No.

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, Mike Stafford, the holder of Permit No.
to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 10 day of October, 1977

Remarks:

IN WITNESS WHEREOF, I have hereunto set my hand this day of, 19.....

Form B

Application No.

NOTICE OF COMPLETION OF CONSTRUCTION

I, Mike Stafford, the holder of Permit No.
to appropriate the public waters of the state of Oregon, completed the construction of the works described therein on the 12th day of July, 1977

Remarks:
If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed development, you

should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 10 day of October, 1977

Mike Stafford
(Signature of Applicant)

Crane, Oregon
(Address)

Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when construction work is completed.

Form A

Application No.

NOTICE OF BEGINNING OF CONSTRUCTION

I, Mike Stafford, the holder of Permit No.
to appropriate the public waters of the state of Oregon, began the actual construction of the works described therein on the 23 day of Oct, 1975

Remarks: starting drilling to develop section of land.
The appropriator should state the manner of beginning construction work, number of men employed, the amount of work completed

up to the date of this statement, and any additional information which may tend to show the beginning of work in good faith.

IN WITNESS WHEREOF, I have hereunto set my hand this 10 day of October, 1977

Mike Stafford
(Signature of Applicant)

Crane, Oregon
(Address)

Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when construction work is begun.
