REFERENCE: Transfer Application T-12351

Enclosed is a copy of the final order approving your water right transfer application.

The time allowed to complete the transfer is specified in the final order. **YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT.** The water right for any portion of the authorized change in character of use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change(s) within the time allowed.

You are required to hire a Certified Water Rights Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this Department within one year of the date you complete the change(s) or within one year of the completion date authorized in the transfer final order, whichever occurs first.

If you have any questions related to the approval of this transfer, you may contact your caseworker, Kelly Starnes, by telephone at (503) 986-0886 or by e-mail at Patrick.K.Starnes@oregon.gov.

In the Matter of Transfer Application	)	FINAL ORDER
T-12351, Harney County	)	APPROVING A CHANGE IN PLACE
	)	OF USE

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

GLEN ADAMS
PO BOX 755
CRANE, OR 97732

Findings of Fact

1. On April 25, 2016, GLEN ADAMS filed an application to change the place of use under Certificate 67661. The Department assigned the application number T-12351.
2. Notice of the application for transfer was published on May 3, 2016, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On August 16, 2016, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-12351 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of September 16, 2016, for the applicant to respond. The applicant requested the completion date be extended to October 1, 2022 and that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
4. On August 18 2017, the Department issued a Preliminary Determination proposing to approve Transfer Application T-12351 and sent a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published in the Department's weekly notice on August 29, 2017 pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

5. The right to be transferred is as follows:

Certificate: 67661 in the name of RICHARD O. ADAMS (perfected under Permit G-8704)
Use: IRRIGATION OF 156.6 ACRES
Priority Date: AUGUST 23, 1979
Rate: 1.96 CUBIC FEET PER SECOND
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Transfer Review Criteria (OAR 690-380-4010)

7. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
8. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12351.

9. The proposed change would not result in enlargement of the right.
10. The proposed change would not result in injury to other water rights.
11. All other application requirements are met.

Conclusions of Law

The change in place of use proposed in Transfer Application T-12351 is consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The change in place of use proposed in Transfer Application T-12351 is approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 67661 and any related decree.
3. Water right Certificate 67661 is cancelled.
4. Water use measurement conditions:
 - a. **Before water use may begin** under this order, the water user shall install a totalizing flow meter, at each point of appropriation.
 - b. The water user shall maintain the meter in good working order.
 - c. The water user shall allow the Watermaster access to the meter; provided however, where the meter is located within a private structure, the Watermaster shall request access upon reasonable notice.
5. The former place of use of the transferred right shall no longer receive water under the right.
6. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2022**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
7. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 29 day of September, 2017.

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.0 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 23, 1979

Actual construction work shall begin on or before January 9, 1981 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1981

Complete application of the water to the proposed use shall be made on or before October 1, 1982

RE: Files No. G-8725 & G-9376

Dear Mr. Adams:

Your application for a permit to appropriate 1100.0 gallons of water per minute from a well for irrigation of 160.0 acres has been filed as No. G-9376. Also received were your map and fees of \$69.00, for which our receipt No. 13598 is enclosed.

According to the information in your earlier file relative to your permit No. G-8117, you do not intend to use water from the well for irrigation purposes as allowed. Therefore, before your new application No. G-9376 can be approved for primary irrigation of the same lands, it will be necessary for you to authorize cancellation of permit G-8117. I am enclosing a statement, which when properly signed, dated, and returned will provide for canceling permit G-8117.

To date, we have not received the land owners bond for your proposed second well.

Upon receipt of your authorization to cancel the permit, further action can be taken on your new application.

Sincerely,

Wayne J. Overcash
