SUBJECT: Water Right Transfer Application T-12819

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-12819. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Burns Times Herald newspaper, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the last date of newspaper publication.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at 503-986-0886 or [Patrick.K.Starnes@oregon.gov](mailto:Patrick.K.Starnes@oregon.gov) if I may be of assistance.

Sincerely,

Kelly Starnes

OF THE  
STATE OF OREGON**

In the Matter of Transfer Application	)	PRELIMINARY DETERMINATION
T-12819, Harney County	)	PROPOSING APPROVAL OF
	)	ADDITIONAL POINTS OF
	)	APPROPRIATION AND A CHANGE IN
	)	PLACE OF USE

**Authority**

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

**Applicant**

TRAVIS AND KELLY SINGHOSE  
29327 WEAVER SPRINGS LANE  
BURNS, OR 97720

**Findings of Fact**

1. On January 4, 2018, TRAVIS AND KELLY SINGHOSE filed an application for additional points of appropriation and to change the place of use under Certificates 55574 and 82391. The Department assigned the application number T-12819.
2. Notice of the application for transfer was published on January 16, 2018, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On July 31, 2018, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-12819 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of August 31, 2018 for the applicants to respond. The applicants requested the completion date be extended to October 1, 2023 and for the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

**Transfer Review Criteria (OAR 690-380-4010)**

- 10. Water has been used within the last five years according to the terms and conditions of the rights. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
- 11. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-12819.
- 12. The proposed changes would not result in enlargement of the rights.
- 13. The proposed changes would not result in injury to other water rights.
- 14. All other application requirements are met.

**Determination and Proposed Action**

The additional points of appropriation and change in place of use proposed in Transfer Application T-12819 appear to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

*If Transfer Application T-12819 is approved, the final order will include the following:*

- 1. *The additional points of appropriation and change in place of use proposed in Transfer Application T-12819 are approved.*
- 2. *The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificates 55574 and 82391 and any related decree.*
- 3. *Water right Certificates 55571 and 82391 are cancelled.*

4. *The quantity of water diverted at the additional points of appropriation, together with that diverted at the original points of appropriation, shall not exceed the quantity of water lawfully available at the original points of appropriation.*
5. *Water use measurement conditions:*
  - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at each point of appropriation (new and existing).*
  - b. *The water user shall maintain the meters or measuring devices in good working order.*
  - c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
6. *Water shall be acquired from the same aquifer (water source) as the original points of appropriation.*
7. *The former place of use of the transferred right shall no longer receive water under the right.*
8. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2019**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*

9. *After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.*

Dated at Salem, Oregon this SEP 27 2018,

Dwight French, Water Right Services Administrator, for  
Thomas M. Byler, Director  
Oregon Water Resources Department

Enclosed is a copy of the final order approving your water right transfer application.

The time allowed to complete the transfer is specified in the final order. **YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT.** The water right for any portion of the authorized change in character of use or change in place of use **NOT** carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change(s) within the time allowed.

You are required to hire a Certified Water Rights Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this Department within one year of the date you complete the change(s) or within one year of the completion date authorized in the transfer final order, whichever occurs first.

If you have any questions related to the approval of this transfer, you may contact your caseworker, Kelly Starnes, by telephone at (503) 986-0886 or by e-mail at [Patrick.K.Starnes@oregon.gov](mailto:Patrick.K.Starnes@oregon.gov).

**Findings of Fact**

1. On January 4, 2018, TRAVIS AND KELLY SINGHOSE filed an application for additional points of appropriation and to change the place of use under Certificates 55574 and 82391. The Department assigned the application number T-12819.
2. Notice of the application for transfer was published on January 16, 2018, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On July 31, 2018, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-12819 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of August 31, 2018 for the applicants to respond. The applicants requested the completion date be extended to October 1, 2023 and for the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

4. On September 27, 2018, the Department issued a Preliminary Determination proposing to approve Transfer Application T-12819 and sent a copy to the applicants. Additionally, notice of the Preliminary Determination for the transfer application was published in the Department's weekly notice on October 2, 2018, and in the Burns Times-Herald newspaper on October 3 and 10, 2018, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

**Transfer Review Criteria (OAR 690-380-4010)**

11. Water has been used within the last five years according to the terms and conditions of the rights. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
12. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-12819.
13. The proposed changes would not result in enlargement of the rights.
14. The proposed changes would not result in injury to other water rights.
15. All other application requirements are met.

**Determination and Proposed Action**

The additional points of appropriation and change in place of use proposed in Transfer Application T-12819 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

**Now, therefore, it is ORDERED:**

1. The additional points of appropriation and change in place of use proposed in Transfer Application T-12819 are approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificates 55574 and 82391 and any related decree.
3. Water right Certificates 55571 and 82391 are cancelled.
4. The quantity of water diverted at the additional points of appropriation, together with that diverted at the original points of appropriation, shall not exceed the quantity of water lawfully available at the original points of appropriation.
5. Water use measurement conditions:
  - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at each point of appropriation (new and existing).
  - b. The water user shall maintain the meters or measuring devices in good working order.
  - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
6. Water shall be acquired from the same aquifer (water source) as the original points of appropriation.
7. The former place of use of the transferred right shall no longer receive water under the right.
8. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2020**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
9. After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.

Dated at Salem, Oregon this NOV 27 2018,

Dwight French, Water Right Services Administrator, for  
Thomas M. Byler, Director  
Oregon Water Resources Department

Mailing date NOV 28 2018

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

Actual construction work shall begin on or before October 20, 1983, and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1984.

Complete application of the water to the proposed use shall be made on or before October 1, 1985.

Witness my hand this 20th day of October, 1982.

WATER RESOURCES DIRECTOR

This permit is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Gentlemen:

REFERENCE: File G-10688

Your Application G-10688 describing the proposed use of 6.0 cubic feet per second of water from five wells for the irrigation of 360.0 acres, along with the accompanying map, has been reviewed.

It appears that certain lands will be irrigated from certain wells. The lands to be served by each well must be indicated.

The total quantity of water described by Item 6 is not in agreement with the total of the quantities described by your attachment. You should describe a total quantity of water, then describe the quantity to be appropriated from each well.

I am returning your application and map for correction and completion. Your application is endorsed so that in order to retain its priority date, it must be received in this office on or before September 15, 1982.

Sincerely,

Stephen C. Brown

We have received your application for use of water for irrigation along with the supporting data and fees. Our Receipt 30370 is enclosed. Your application has been filed and assigned number G-10688.

Because of the many applications which have been filed in recent months, we are temporarily behind in our processing. Your application will be examined in detail as soon as possible. We will contact you if we need any additional information. If a permit is required to satisfy the conditions of a loan or land sale or if other emergency conditions exist, please let us know and we will attempt to process your application in the shortest possible time.

After examining your application, a permit may be issued without further correspondence if no additional information is required and it does not conflict with existing rights. The proposed appropriation will be subject to the Water Policy Review Board's Basin Program Statements, existing minimum flows, and demands of prior rights during periods of low water.

Thank you for your patience.

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

### Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 4.5 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from wells #1

#2, #3, #4 and #5

The use to which this water is to be applied is irrigation being  
2.5 cfs from wells #1, 2, 5, & 2.0 cfs from wells #3 & 4

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.  
The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 19, 1982

Actual construction work shall begin on or before ..... and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19.....

Complete application of the water to the proposed use shall be made on or before October 1, 19.....

WITNESS my hand this ..... day of....., 19.....
