

Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.
Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.

Mr. Uchytill says he has about 95 ac irrigated so far. He did not plan to irrigate the rest until I explained the time limits of the permit to him. He said he will probably irrigate the remainder next year. He has a pump and pipe. He says he is a little short on pipe, but does have enough to cover all the land if he works at it.

Dear Ms. Dieter:

Enclosed is a copy of Water Right Certificate 51515 which you requested. Also enclosed is a copy of the final proof map and Water Resources Department Receipt 41968 for the \$ 2.10 in copying fees which you submitted.

While in most cases the right will be valid as described by the certificate, you are cautioned that the right or any part thereof may be forfeited by five successive years of non use. Our records will not show that a right has been lost until a cancellation proceeding has been initiated.

Sincerely,

Dear Mr. Cheek,

According to the report submitted by our field engineer, you have not made use of water to the extent intended within the limits of your permit numbered G-6251, although the notice of complete application of water was submitted.

Under the terms of your permit, the date for complete application of water is October 1, 1979; therefore, you have more time to irrigate the balance of the land. We will mark the notice previously submitted as premature.

I am enclosing another Form C for your use in reporting the completion of your project when applicable.

Sincerely,

Thomas E. Shook

Dear Mr. Cheek:

Your application for a permit to appropriate an unspecified amount of water from a well for the irrigation of 160 acres has been received along with a map and your check in the amount of \$35.00.

We did not file your application because there was not sufficient information to do so. The \$35.00 has been placed in a pending account in your name and will be applied to your application when it is in a form to be filed.

A specific amount of water to be appropriated from your well for irrigation purposes must be given in item 2.

It is also necessary to further describe the location of your well, on line 5 of item 4, as being within a quarter quarter section. Based on the information given on lines 1 and 2 of this item, the well is within the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 22.

The area to be irrigated must be completely described in item 12 and shown on your map. Incidentally, the map to accompany your application will have to be prepared on a good quality tracing paper so that it can be easily reproduced.

Your application requires an examination fee of \$15.00 in addition to an irrigation recording fee for 160 acres of \$42.50. We have \$35.00, so only \$22.50 should be submitted.

I am returning your map and application for correction and completion.

Very truly yours,

THOMAS E. SHOOK
Assistant
