Subject: Application for Secondary Instream Use from Prineville Reservoir

Dear Director Byler:

With this cover letter, the Bureau of Reclamation acting for the United States of America, is filing an application for secondary instream use of up to 78,887 acre-feet of water stored in Prineville Reservoir. This will include 10,000 acre-feet of water which can be used for either instream or irrigation use as authorized by federal law under the Crooked River Collaborative Water Security and Jobs Act of 2014 (Act) Sec. 6(a)(3) (Public Law 113-244 – December 18, 2014), and which amended the Crooked River Project Act, Public Law 84-992, 70 Stat. 1058-9 and dated August 6, 1956 and other applicable Reclamation laws. The applicant does not waive any attribute of sovereign immunity and files under state law as a matter of comity and in accordance with the transparency provided by the Reclamation Act of 1902 that states:

Nothing in this Act shall be construed as affecting or intended to affect or to in any way interfere with the laws of any State or Territory relating to the control, appropriation, use or distribution of water used in irrigation, or any vested right acquired thereunder, and the Secretary of the Interior, in carrying out the provisions of this Act, shall proceed in conformity with such laws...43U.S.C. §383.

In addition, United States reserves the right to file for this water right in a future adjudication as a federal water right for fish and wildlife and other beneficial purposes as prescribed by the federal Act.

The applicant has been assured that the fee schedule amount is based on the Oregon Water Resources Department (OWRD) costs of providing water right processing and protection services, is not assessed to defer costs of unrelated administrative overhead, and is neither excessive nor discriminatory in its application to the United States. Nonetheless, the United States requests a waiver of these fees on the basis that Congress intended that this water be put to a broad public use to protect and enhance fish and wildlife benefits, among other public beneficial purposes, all in the public interest. In order to avoid undue delay and to allow OWRD to expeditiously perform its responsibilities, the United States by and through Reclamation is paying the fees, but is paying under protest, reserving the right to a full or partial refund.

INTERIOR REGION 9 • COLUMBIA-PACIFIC NORTHWEST

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application.
- ~~I cannot legally use water until the Water Resources Department issues a permit.~~
- The Department encourages all applicants to wait for a permit to be issued before beginning construction of any proposed diversion. Acceptance of this application does not guarantee a permit will be issued.
- If I begin construction prior to the issuance of a permit, I assume all risks associated with my actions.
- If I receive a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to receive water to which they are entitled.

I (we) affirm that the information contained in this application is true and accurate

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

RECEIVED
 JUN 10 2021
 OWRD

- YES, there are no encumbrances.
- YES, the land is encumbered by easements, rights of way, roads or other encumbrances.
- NO, I have a recorded easement or written authorization permitting access.
- NO, I do not currently have written authorization or easement permitting access.
- NO, written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
- NO, because water is to be diverted, conveyed, and/or used only on federal lands.

Affected Landowners: List the names and mailing addresses of all owners of any lands that are not owned by the applicant and that are crossed by the proposed ditch, canal or other work, even if the applicant has obtained written authorization or an easement from the owner. *(Attach additional sheets if necessary).*

Legal Description: You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

SECTION 3: SOURCE OF WATER

A. Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into (if unnamed, say so), and the locations of the point of diversion (POD):

Source 1: Prineville Reservoir	Tributary to: Crooked River
TRSQQ of POD: T17S, 1R6E, S.11, SWNW	
Source 2:	Tributary to:
TRSQQ of POD:	

If any source listed above is stored water that is authorized under a water right permit, certificate, or decree, attach a copy of the document or list the document number (for decrees, list the volume, page and/or decree name).

B. Applications to Use Stored Water

Do you, or will you, own the reservoir(s) described in Section 3A above?

- Yes.
- No. (Enclose a copy of your written notification to the operator of the reservoir of your intent to file this application, which should have been mailed or delivered to the operator.)

If *all* sources listed in Section 3A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the instruction booklet for more information.

By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:

- A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application.
- A copy of your written agreement with the party (if any) delivering the water from the reservoir to you.

SECTION 4: SENSITIVE, THREATENED OR ENDANGERED FISH SPECIES PUBLIC INTEREST INFORMATION

This information must be provided for your application to be accepted as complete. The Water Resources Department will determine whether the proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened or endangered fish species.

To answer the following questions, use the map provided in [Attachment 3](#) or the link below to determine whether the proposed point of diversion (POD) is located in an area where the Upper Columbia, the Lower Columbia, and/or the Statewide public interest rules apply.

For more detailed information, click on the following link and enter the T,R,S,QQ or the Lat/Long of a POD and click on "Submit" to retrieve a report that will show which section, if any, of the rules apply: https://apps.wrd.state.or.us/apps/misc/lkp_trsqq_features/

If you need help to determine in which area the proposed POD is located, please call the customer service desk at (503) 986-0801.

RECEIVED

JUN 10 2021

OWRD

Upper Columbia - OAR 690-033-0115 thru -0130

Is the POD located in an area where the Upper Columbia Rules apply?

Yes No

If yes, you are notified that the Water Resources Department will consult with numerous federal, state, local and tribal governmental entities so it may determine whether the proposed use is consistent with the "Columbia River Basin Fish and Wildlife Program" adopted by the Northwest Power Planning Council in 1994 for the protection and recovery of listed fish species. The application may be denied, heavily conditioned, or if appropriate, mitigation for impacts may be needed to obtain approval for the proposed use.

If yes,

- I understand that the proposed use does not involve appropriation of direct streamflow during the time period April 15 to September 30, except as provided in OAR 690-033-0140.
- I understand that I will install, operate and maintain a fish screen and fish passage as listed in ORS 498.301 through 498.346, and 509.580 through 509.910, to the specifications and extent required by Oregon Department of Fish and Wildlife, prior to diversion of water under any permit issued pursuant to this application.

- I understand that the Oregon Department of Environmental Quality will review my application to determine if the proposed use complies with existing state and federal water quality standards.
- I understand that I will install and maintain water use measurement and recording devices as required by the Water Resources Department, and comply with recording and reporting permit condition requirements.

Lower Columbia - OAR 690-033-0220 thru -0230

Is the POD located in an area where the Lower Columbia rules apply?

Yes No

If yes, you are notified that that the Water Resources Department will determine, by reviewing recovery plans, the Columbia River Basin Fish and Wildlife Program, and regional restoration programs applicable to threatened or endangered fish species, in coordination with state and federal agencies, as appropriate, whether the proposed use is detrimental to the protection or recovery of a threatened or endangered fish species and whether the use can be conditioned or mitigated to avoid the detriment.

If a permit is issued, it will likely contain conditions to ensure the water use complies with existing state and federal water quality standards; and water use measurement, recording and reporting required by the Water Resources Department. The application may be denied, or if appropriate, mitigation for impacts may be needed to obtain approval of the proposed use.

If yes, provide the following information (the information must be provided with the application to be considered complete).

Yes No The proposed use is for more than **one** cubic foot per second (448.8 gpm) and is not subject to the requirements of OAR 690, Division 86 (Water Management and Conservation Plans).

If yes, provide a description of the measures to be taken to assure reasonably efficient water use:

Statewide - OAR 690-033-0330 thru -0340

Is the POD located in an area where the Statewide rules apply?

Yes No

RECEIVED

JUN 10 2021

OWRD

If yes, the Water Resources Department will determine whether the proposed use will occur in an area where endangered, threatened or sensitive fish species are located. If so, the Water Resources Department, Department of Fish and Wildlife, Department of Environmental Quality, and the Department of Agriculture will recommend conditions required to achieve “no loss of essential habitat of threatened and endangered (T&E) fish species,” or “no net loss of essential habitat of sensitive (S) fish species.” If conditions cannot be identified that meet the standards of no loss of essential T & E fish habitat or no net loss of essential S fish habitat, the agencies will recommend denial of the application unless they conclude that the proposed use would not harm the species.

SECTION 5: WATER USE

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):
(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

SOURCE	USE	PERIOD OF USE	AMOUNT
Prineville Reservoir	Protect up to 68,887 AF instream for fish life and wildlife use from Prineville Reservoir to Lake Billy Chinook. Up to 10,000 AF to be protected instream or to be used for irrigation purposes as authorized by sub-section 6 of Public Law 113-244 (December 18, 2014) amending the Crooked River Project Act.	68,887 AF year-round at a variable rate of release as determined by the Bureau of Reclamation and pursuant to a schedule of releases required by the Crooked River Project Act as amended by Public Law 113-244 (December 18, 2014) and 10,000 AF of the total available as authorized by sub-section 6 of Public Law 113-244 (Dec. 18, 2014) amending the Crooked River Project Act.	78,887 <input type="checkbox"/> cfs <input type="checkbox"/> gpm <input checked="" type="checkbox"/> af RECEIVED JUN 10 2021 OWRD
			<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af
			<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af
			<input type="checkbox"/> cfs <input type="checkbox"/> gpm <input type="checkbox"/> af

Please indicate the number of primary and supplemental acres to be irrigated.

Primary: N/A Acres Supplemental: 58,891.8 Acres

If supplemental acres are listed, provide the Permit or Certificate number of the underlying primary water right(s):

Water Rights Certificates/Permit		Acres
Certificate 72279	DE	49916.0
Certificate 72280	DE	133.9
Certificate 94079	DE	3152.0
Certificate 93422	DE	520.0
Certificate 95488	DE	642.1
Certificate 88877	CR	92.3
Certificate 80937	CR	37.3
Certificate 95488	CR	4373.5
Permit 47284	CR	24.7
		TOTAL 58891.8

Indicate the maximum total number of acre-feet you expect to use in an irrigation season: 10,000 AF

- If the use is **municipal or quasi-municipal**, attach **Form M**
- If the use is **domestic**, indicate the number of households: _____
- If the use is **mining**, describe what is being mined and the method(s) of extraction: _____

SECTION 6: WATER MANAGEMENT

A. Diversion and Conveyance

What equipment will you use to pump water from your source?

Pump (give horsepower and type): A pumping plant pumps water from the Crooked River for discharge into the district's Main Canal. The plant consists of nine vertical shaft pumps with a total capacity of 200 cubic feet per second at a total dynamic head of 150 feet. Each pump is powered by a 450-horsepower motor that pumps the water into a 60-inch steel pipe discharge line 220 feet long. Water is delivered through a network consisting of 65 miles of canals and 235 miles of laterals.

Other means (describe): _____

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water.

Water to be released through the outlet works of AR Bowman Dam into the Crooked River for downstream fish life and wildlife use. Up to 10,000 AF irrigation water to be diverted at the NUID Crooked River pumps, and then conveyed through NUID's delivery system.

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) 850 landowners receive water from the North Unit Irrigation District. Landowners have varying water application methods, including different types of drip irrigation, sprinkler irrigation, and flood irrigation.

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to public uses of affected surface waters.

The proposed release of stored water will provide a fish and wildlife public benefit from Prineville Reservoir to Lake Billy Chinook during periods when flows are not sufficient to provide sufficient usable habitat or when water temperatures are limiting. Public Law 113-244 gives the Bureau of Reclamation authority to use this water to benefit fish life and wildlife, and to make up to 10,000 AF available to NUID for irrigation under annual temporary water service contracts.

SECTION 7: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources:

- Diversion will be screened per ODFW specifications in ORS 498.301 through 498.346 to prevent uptake of fish and other aquatic life.
Describe planned actions: The instream use will not require a diversion. The NUID pumps are already screened to meet ODFW specifications.
- Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.

Note: If disturbed area is more than one acre, applicant should contact the Department of Environmental Quality to determine if a 1200C permit is required.

Describe planned actions and additional permits required for project implementation: The proposed release of stored water will not require excavation or clearing of banks.

Operating equipment in a water body will be managed and timed to prevent damage to aquatic life. Describe planned actions and additional permits required for project implementation: The proposed release of stored water will not require operating equipment in a water body.

Water quality will be protected by preventing erosion and run-off of waste or chemical products. Describe planned actions: The proposed release of stored water will not cause erosion or run-off of waste or chemical products.

List other federal and state permits or contracts to be obtained, if a water right permit is granted.
N/A

RECEIVED

JUN 10 2021

OWRD

SECTION 8: PROJECT SCHEDULE

- a) Date construction will begin: N/A: No construction is necessary for the proposed use.
- b) Date construction will be completed: N/A: No construction is necessary for the proposed use.
- c) Date beneficial water use will begin: Within 5 years of permit issuance.

SECTION 9: WITHIN A DISTRICT

Check here if the point of diversion or place of use are located within or are served by an irrigation or other water district.

Irrigation District Name <u>N/A</u>	Address	
City	State	Zip

SECTION 10: REMARKS

Use this space to clarify any information you have provided in the application. (*Attach additional sheets if necessary*).

As authorized by Reclamation Act of 1902, 43 USC §§ 371 et seq., and as specifically authorized by the Crooked River Project Act of August 6, 1956, as amended by The Crooked River Collaborative Water Security and Jobs Act of 2014, Public Law 113-244 (Dec. 18, 2014) (Crooked River Act), the Applicant herein will be the United States of America acting through the U.S. Bureau of Reclamation (Reclamation). This right is solely held and administered by Reclamation.

Reclamation will release this secondary right constituting remaining stored water in accordance with an annual release schedule as developed by Reclamation pursuant to Section 7(b) of the Crooked River Project Act (as amended by Section 4 of the Crooked River Act). Reclamation will annually determine, at its discretion under Reclamation law and the Crooked River Act, releases and how those releases will be shaped after consulting with the U.S. Fish and Wildlife Service and the National Marine Fisheries Service. When developing the annual release schedule, Reclamation will consider the timing and amount of releases needed to (1) comply with the US Army Corps of Engineers flood curve requirements; (2) satisfy instream flow requirements, including crediting

the benefits of other flows released pursuant to Section 7(a)(2) of the Crooked River Project Act (as amended by Section 4 of the Crooked River Act); (3) provide sufficient quantities of instream flows, to the maximum extent practicable, consistent with the recommendations for in-channel strategies as prepared by the Northwest Power and Conservation Council's plan (Deschutes Subbasin Plan); (4) satisfy any ESA obligation or court order requiring release of uncontracted stored water from Prineville Reservoir for fish and wildlife downstream of Bowman Dam; (5) protect first fill priorities from impacts; and (6) to the extent permitted by applicable Reclamation law, minimize impacts to irrigation efficiency of the project (*See e.g.* The Reclamation Act of June 17, 1902, Stat 954 (43USC 615), all Acts amendatory thereof or supplementary thereto the above cited Acts; and other applicable Reclamation laws).

With this water right Reclamation intends to have up to and not more than 68,887 AF of uncontracted storage protected by the water master from Prineville Reservoir to Lake Billy Chinook for fish and wildlife uses during any given year, assuming that Prineville Reservoir fills as of the Day of Allocation. Additionally, as provided by the Crooked River Act, Reclamation may have the water master protect up to and including an additional 10,000 AF instream from Prineville Reservoir to Lake Billy Chinook if such contracted storage water is not called for by North Unit Irrigation District or other contract holders as authorized by Section 6 of the Crooked River Act (amending the Crooked River Project Act). If this same 10,000 AF of water is called for by NUID, and if NUID has in place an annual temporary water service contract, this water will be made available to NUID for irrigation use, consistent with the Crooked River Act.

Water-Use Permit Application Processing

OWRD

1. Completeness Determination

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050. The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$260. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives [public notice](#) of the application in the weekly notice published by the Department at www.oregon.gov/owrd. The public comment period is 30 days from publication in the weekly notice.

4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$410.00 for the applicant and \$810.00 for non-applicants. Protests are filed on approximately 10 percent of Proposed Final Orders. If a protest is filed the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

6. Final Order Issued

If no protests are filed, the Department can issue a Final Order within 60 days of the close of the period for receiving protest. If the application is approved, a permit is issued. The permit specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or groundwater registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land use form and return it to the WRD. If no land use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water
- Water Right Transfer
- Permit Amendment or Groundwater Registration Modification
- Limited Water Use License
- Allocation of Conserved Water
- Exchange of Water

Source of water: Reservoir/Pond Groundwater Surface Water (name) _____

Estimated quantity of water needed: 78,887 AF cubic feet per second gallons per minute acre-feet

Intended use of water: Irrigation Commercial Industrial Domestic for _____ household(s)
 Municipal Quasi-Municipal Instream Other Downstream fish life and wildlife use.

Briefly describe:

The Applicant is requesting a permit for 68,887 acre-feet of stored water from Prineville Reservoir for downstream fish life and wildlife use, pursuant to Public Law 113-244. The "place of use" for the permit is in the Crooked River from Prineville Reservoir to Lake Billy Chinook. Up to 10,000 acre-feet to be protected instream or to be used for irrigation purposes as authorized by sub-section 6 of Public Law 113-244 (December 18, 2014 amending the Crooked River Project Act.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

Land Use Information Form

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
503-986-0900
www.oregon.gov/OWRD

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or groundwater registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land use form and return it to the WRD. If no land use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

247-21-000629-PS

Location: See attached map; Crooked River as identified on Assessor's Maps 14-13-03, 14-13-10, 14-13-11, 14-13-15, 14-13-11, 14-13-14, 14-13-12, and 14-13-13.

Request: The applicant has requested a Land Use Compatibility Statement (LUCS) for the transfer of stored water from Prineville Reservoir for downstream fish life and wildlife use, and irrigation.

Land Use Compatibility Statement: This LUCS only reviews the transfer of surface water through the Crooked River within Deschutes County. The application materials state that all diversion for irrigation will occur within the North Unit Irrigation District, which is located outside of Deschutes County. The applicant does not propose to establish any new land uses, including agricultural use as defined by DCC 18.04.030, within Deschutes County as part of this LUCS. To the extent other uses or structures are included on the OWRD LUCS application sheet, this LUCS does not review or approve those uses.

This LUCS does not review or approve:

- Construction of buildings or fencing,
- Earthmoving or construction in floodplains,
- Earthmoving, construction, or vegetation changes in wetlands,
- Surface mining, and/or
- Other primary or accessory uses regulated by the Deschutes County Code

Each of the listed uses would require separate land use permits and/or building permits, which are not covered by this LUCS.

For more information, please contact the Planning Division office at 541-388-6560.

THIS CERTIFICATE ISSUED TO

U.S. BUREAU OF RECLAMATION
ATTENTION: CAROLYN R. CHAD
1917 MARSH RD
YAKIMA WA 98901

confirms the right to store the waters of CROOKED RIVER, a tributary of the DESCHUTES RIVER, IN PRINEVILLE RESERVOIR, STORAGE FOR MITIGATION FOR CITY OF PRINEVILLE GROUNDWATER PUMPING (DOWNSTREAM FISH LIFE AND WILDLIFE USE), STORAGE FOR IRRIGATION AND DOWNSTREAM FISH LIFE AND WILDLIFE USE, AND STORAGE FOR DOWNSTREAM FISH LIFE AND WILDLIFE USE

This right was perfected under Permit R-2223. The date of priority is APRIL 8, 1914. The amount of water entitled to be stored each year under this right is not more than 83,987.0 ACRE-FEET (AF), BEING 5,100.0 AF FOR MITIGATION FOR CITY OF PRINEVILLE GROUNDWATER PUMPING (DOWNSTREAM FISH LIFE AND WILDLIFE USE), 10,000.0 AF FOR STORAGE FOR IRRIGATION AND DOWNSTREAM FISH LIFE AND WILDLIFE USE, AND 68,887.0 AF FOR DOWNSTREAM FISH LIFE AND WILDLIFE USE

The reservoir is located as follows:

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Public Law 113-244
113th Congress

An Act

Dec. 18, 2014
[H.R. 2640]

To amend the Wild and Scenic Rivers Act to adjust the Crooked River boundary, to provide water certainty for the City of Prineville, Oregon, and for other purposes.

Crooked River Collaborative Water Security and Jobs Act of 2014.
16 USC 1271 note.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Crooked River Collaborative Water Security and Jobs Act of 2014”.

SEC. 2. WILD AND SCENIC RIVER; CROOKED, OREGON.

Section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)) is amended by striking paragraph (72) and inserting the following:

“(72) CROOKED, OREGON.—

“(A) IN GENERAL.—The 14.75-mile segment from the National Grassland boundary to Dry Creek, to be administered by the Secretary of the Interior in the following classes:

“(i) The 7-mile segment from the National Grassland boundary to River Mile 8 south of Opal Spring, as a recreational river.

“(ii) The 7.75-mile segment from a point ¼-mile downstream from the center crest of Bowman Dam, as a recreational river.

“(B) HYDROPOWER.—In any license or lease of power privilege application relating to non-Federal hydropower development (including turbines and appurtenant facilities) at Bowman Dam, the applicant, in consultation with the Director of the Bureau of Land Management, shall—

“(i) analyze any impacts to the scenic, recreational, and fishery resource values of the Crooked River from the center crest of Bowman Dam to a point ¼-mile downstream that may be caused by the proposed hydropower development, including the future need to undertake routine and emergency repairs;

“(ii) propose measures to minimize and mitigate any impacts analyzed under clause (i); and

“(iii) propose designs and measures to ensure that any access facilities associated with hydropower development at Bowman Dam shall not impede the free-flowing nature of the Crooked River below Bowman Dam.”.

Contracts.
Consultation.

SEC. 3. CITY OF PRINEVILLE WATER SUPPLY.

43 USC 615i.

Section 4 of the Act of August 6, 1956 (70 Stat. 1058; 73 Stat. 554; 78 Stat. 954) is amended—

(1) by striking “SEC. 4. In order” and inserting the following:

“SEC. 4. CITY OF PRINEVILLE WATER SUPPLY.

“(a) IN GENERAL.—In order”;

(2) in subsection (a) (as so designated), by striking “during those months” and all that follows through “purpose of the project”; and

(3) by adding at the end the following:

“(b) ANNUAL RELEASE.—

“(1) IN GENERAL.—Without further action by the Secretary of the Interior, beginning on the date of enactment of the Crooked River Collaborative Water Security and Jobs Act of 2014, 5,100 acre-feet of water shall be annually released from the project to serve as mitigation for City of Prineville ground-water pumping, pursuant to and in a manner consistent with Oregon State law, including any shaping of the release of the water.

Effective date.

“(2) PAYMENTS.—The City of Prineville shall make payments to the Secretary of the Interior for the water released under paragraph (1), in accordance with applicable Bureau of Reclamation policies, directives, and standards.

“(c) ADDITIONAL QUANTITIES.—Consistent with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), and other applicable Federal laws, the Secretary of the Interior may contract exclusively with the City of Prineville for additional quantities of water, at the request of the City of Prineville.”.

SEC. 4. ADDITIONAL PROVISIONS.

The Act of August 6, 1956 (70 Stat. 1058; 73 Stat. 554; 78 Stat. 954), is amended by adding at the end the following:

“SEC. 6. FIRST FILL STORAGE AND RELEASE.

“(a) IN GENERAL.—Other than the 10 cubic feet per second release provided for in section 4, and subject to compliance with the flood curve requirements of the Corps of Engineers, the Secretary shall, on a ‘first fill’ priority basis, store in and when called for in any year release from Prineville Reservoir, whether from carryover, infill, or a combination of both, the following:

“(1) Not more than 68,273 acre-feet of water annually to fulfill all 16 Bureau of Reclamation contracts existing as of January 1, 2011.

“(2) Not more than 2,740 acre-feet of water annually to supply the McKay Creek land, in accordance with section 5 of the Crooked River Collaborative Water Security and Jobs Act of 2014.

“(3) Not more than 10,000 acre-feet of water annually, to be made available first to the North Unit Irrigation District, and subsequently to any other holders of Reclamation contracts existing as of January 1, 2011 (in that order) pursuant to Temporary Water Service Contracts, on the request of the North Unit Irrigation District or the contract holders, consistent with the same terms and conditions as prior such contracts between the Bureau of Reclamation and District or contract holders, as applicable.

RECEIVED
JUN 10 2021
OWRD

“(4) Not more than 5,100 acre-feet of water annually to mitigate the City of Prineville groundwater pumping under section 4, with the release of this water to occur not based on an annual call, but instead pursuant to section 4 and the release schedule developed pursuant to section 7(b).

“(b) CARRYOVER.—Except for water that may be called for and released after the end of the irrigation season (either as City of Prineville groundwater pumping mitigation or as a voluntary release, in accordance with section 4 of this Act and section 6(c) of the Crooked River Collaborative Water Security and Jobs Act of 2014, respectively), any water stored under this section that is not called for and released by the end of the irrigation season in a given year shall be—

Time period.

“(1) carried over to the subsequent water year, which, for accounting purposes, shall be considered to be the 1-year period beginning October 1 and ending September 30, consistent with Oregon State law; and

“(2) accounted for as part of the ‘first fill’ storage quantities of the subsequent water year, but not to exceed the maximum ‘first fill’ storage quantities described in subsection (a).

“SEC. 7. STORAGE AND RELEASE OF REMAINING STORED WATER QUANTITIES.

“(a) AUTHORIZATION.—

“(1) IN GENERAL.—The Secretary shall store in and release from Prineville Reservoir sufficient quantities of remaining stored quantities to be released pursuant to the annual release schedule under subsection (b) and to provide instream flows consistent, to the maximum extent practicable, with the recommendations for in-channel strategies in the plan prepared by the Northwest Power and Conservation Council entitled ‘Deschutes Subbasin Plan’ and dated March 24, 2005, for flow between Bowman Dam and Lake Billy Chinook.

“(2) REQUIREMENTS.—In calculating the quantity of released water under paragraph (1), the Secretary shall—

Compliance.

“(A) comply with the flood curve requirements of the Corps of Engineers; and

“(B) credit toward the requirements of paragraph (1) the instream flow benefits provided by—

“(i) the quantities released under section 4;

“(ii) the ‘first fill’ quantities released under section 6; and

“(iii) any quantities released to comply with the flood curve requirements of the Corps of Engineers.

“(3) USE OF UNCONTRACTED WATER.—If a consultation conducted under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) or an order of a court in a proceeding under that Act requires releases of stored water from Prineville Reservoir for fish and wildlife downstream of Bowman Dam, the Secretary shall use uncontracted water under paragraph (1).

“(4) STATE WATER LAW.—All releases and downstream uses authorized under paragraph (1) shall be in accordance with Oregon State water law.

Consultation.

“(b) ANNUAL RELEASE SCHEDULE.—The Commissioner of Reclamation, in consultation with the Assistant Administrator of Fisheries of the National Marine Fisheries Service and the Director of the United States Fish and Wildlife Service, shall develop annual

release schedules for the remaining stored water quantities (including the quantities described in subsection (a) and the water serving as mitigation for City of Prineville groundwater pumping pursuant to section 4) that maximizes, to the maximum extent practicable, benefits to downstream fish and wildlife.

“(c) CARRYOVER.—Any water stored under subsection (a) in 1 water year that is not released during the water year—

“(1) shall be carried over to the subsequent water year; and

“(2)(A) may be released for downstream fish and wildlife resources, consistent with subsection (b), until the reservoir reaches maximum capacity in the subsequent water year; and

“(B) once the reservoir reaches maximum capacity under subparagraph (A), shall be credited to the ‘first fill’ storage quantities, but not to exceed the maximum ‘first fill’ storage quantities described in section 6(a).

“(d) EFFECT.—Nothing in this section affects the authority of the Commissioner of Reclamation to perform all other traditional and routine activities associated with the Crooked River Project.

“SEC. 8. RESERVOIR LEVELS.

“The Commissioner of Reclamation shall—

“(1) project reservoir water levels over the course of the year; and

“(2) make the projections under paragraph (1) available to—

“(A) the public (including fisheries groups, recreation interests, and municipal and irrigation stakeholders);

“(B) the Assistant Administrator of Fisheries of the National Marine Fisheries Service; and

“(C) the Director of the United States Fish and Wildlife Service.

Public
information.

“SEC. 9. EFFECT.

“Except as otherwise provided in this Act, nothing in this Act—

“(1) modifies contractual rights that may exist between contractors and the United States under Reclamation contracts;

“(2) amends or reopens contracts referred to in paragraph (1); or

“(3) modifies any rights, obligations, or requirements that may be provided or governed by Federal or Oregon State law.”.

SEC. 5. OCHOCO IRRIGATION DISTRICT.

(a) EARLY REPAYMENT.—

(1) IN GENERAL.—Notwithstanding section 213 of the Reclamation Reform Act of 1982 (43 U.S.C. 390mm), any landowner within Ochoco Irrigation District, Oregon (referred to in this section as the “district”), may repay, at any time, the construction costs of the project facilities allocated to the land of the landowner within the district.

(2) EXEMPTION FROM LIMITATIONS.—Upon discharge, in full, of the obligation for repayment of the construction costs allocated to all land of the landowner in the district, the land shall not be subject to the ownership and full-cost pricing limitations of Federal reclamation law (the Act of June 17, 1902 (32 Stat. 388, chapter 1093), and Acts supplemental to and amendatory of that Act (43 U.S.C. 371 et seq.)).

RECEIVED
JUN 10 2021
OWRD

(b) **CERTIFICATION.**—Upon the request of a landowner who has repaid, in full, the construction costs of the project facilities allocated to the land of the landowner within the district, the Secretary of the Interior shall provide the certification described in section 213(b)(1) of the Reclamation Reform Act of 1982 (43 U.S.C. 390mm(b)(1)).

(c) **CONTRACT AMENDMENT.**—On approval of the district directors and notwithstanding project authorizing authority to the contrary, the Reclamation contracts of the district are modified, without further action by the Secretary of the Interior—

(1) to authorize the use of water for instream purposes, including fish or wildlife purposes, in order for the district to engage in, or take advantage of, conserved water projects and temporary instream leasing as authorized by Oregon State law;

(2) to include within the district boundary approximately 2,742 acres in the vicinity of McKay Creek, resulting in a total of approximately 44,937 acres within the district boundary;

(3) to classify as irrigable approximately 685 acres within the approximately 2,742 acres of included land in the vicinity of McKay Creek, with those approximately 685 acres authorized to receive irrigation water pursuant to water rights issued by the State of Oregon if the acres have in the past received water pursuant to State water rights; and

(4) to provide the district with stored water from Prineville Reservoir for purposes of supplying up to the approximately 685 acres of land added within the district boundary and classified as irrigable under paragraphs (2) and (3), with the stored water to be supplied on an acre-per-acre basis contingent on the transfer of existing appurtenant McKay Creek water rights to instream use and the issuance of water rights by the State of Oregon for the use of stored water.

(d) **LIMITATION.**—Except as otherwise provided in subsections (a) and (c), nothing in this section—

(1) modifies contractual rights that may exist between the district and the United States under the Reclamation contracts of the district;

(2) amends or reopens the contracts referred to in paragraph (1); or

(3) modifies any rights, obligations, or relationships that may exist between the district and any owner of land within the district, as may be provided or governed by Federal or Oregon State law.

SEC. 6. DRY-YEAR MANAGEMENT PLANNING AND VOLUNTARY RELEASES.

(a) **PARTICIPATION IN DRY-YEAR MANAGEMENT PLANNING MEETINGS.**—The Bureau of Reclamation shall participate in dry-year management planning meetings with the State of Oregon, the Confederated Tribes of the Warm Springs Reservation of Oregon, municipal, agricultural, conservation, recreation, and other interested stakeholders to plan for dry-year conditions.

(b) **DRY-YEAR MANAGEMENT PLAN.**—

(1) **IN GENERAL.**—Not later than 3 years after the date of enactment of this Act, the Bureau of Reclamation shall

Native
Americans.

Deadlines.

develop a dry-year management plan in coordination with the participants referred to in subsection (a).

(2) REQUIREMENTS.—The plan developed under paragraph (1) shall only recommend strategies, measures, and actions that the irrigation districts and other Bureau of Reclamation contract holders voluntarily agree to implement.

(3) LIMITATIONS.—Nothing in the plan developed under paragraph (1) shall be mandatory or self-implementing.

(c) VOLUNTARY RELEASE.—In any year, if North Unit Irrigation District or other eligible Bureau of Reclamation contract holders have not initiated contracting with the Bureau of Reclamation for any quantity of the 10,000 acre feet of water described in subsection (a)(3) of section 6 of the Act of August 6, 1956 (70 Stat. 1058) (as added by section 4), by June 1 of any calendar year, with the voluntary agreement of North Unit Irrigation District and other Bureau of Reclamation contract holders referred to in that paragraph, the Secretary may release that quantity of water for the benefit of downstream fish and wildlife as described in section 7 of that Act.

SEC. 7. HYDROPOWER DECISION.

Not later than 3 years after the date of enactment of this Act, the Commissioner of Reclamation shall determine the applicability of the jurisdiction of the Commissioner of Reclamation to non-Federal hydropower development pursuant to—

Deadline.
Determination.

(1) the Memorandum of Understanding between the Federal Energy Regulatory Commission and the Bureau of Reclamation, Department of the Interior, entitled “Establishment of Processes for the Early Resolution of Issues Related to the Timely Development of Non-Federal Hydroelectric power at the Bureau of Reclamation Facilities” and signed November 6, 1992 (58 Fed. Reg. 3269); or

(2) any memorandum of understanding that is subsequent or related to the memorandum of understanding described in paragraph (1).

SEC. 8. RELATION TO EXISTING LAWS AND STATUTORY OBLIGATIONS.

16 USC 1274
note.

Nothing in this Act (or an amendment made by this Act)—

(1) provides to the Secretary the authority to store and release the “first fill” quantities provided for in section 6 of the Act of August 6, 1956 (70 Stat. 1058) (as added by section 4) for any purposes other than the purposes provided for in that section, except for—

(A) the potential instream use resulting from conserved water projects and temporary instream leasing as provided for in section 5(c)(1);

(B) the potential release of additional amounts that may result from voluntary actions agreed to through the dry-year management plan developed under section 6(b); and

(C) the potential release of the 10,000 acre feet for downstream fish and wildlife as provided for in section 6(c); or

128 STAT. 2870

PUBLIC LAW 113-244—DEC. 18, 2014

(2) alters any responsibilities under Oregon State law or Federal law, including section 7 of the Endangered Species Act (16 U.S.C. 1536).

Approved December 18, 2014.
