NOTICE OF PROSECUTION OF WORK WITH DILIGENCE

I, James B. Moore, holder of Application No. 10, being James B. Moore, Permit No. 12, issued by the State Engineer of the State of Oregon, for the appropriation of 3 second feet of the waters of Alder Creek, have, during the year beginning 1908, and ending 1911, expended 1000 dollars in the construction of works for the utilization of water under the aforesaid permit. Such construction work being more particularly described as follows:

During the year 1910, the "Pierce - Moore" ditch was completed to a point extending nearly across my desert claim, and with the so that the Board may judge as to whether or not such work is being prosecuted with reasonable diligence as required by law.

lateral ditches which I have constructed, I am enabled to distribute the water over every portion of my irrigable land.

IN WITNESS WHEREOF, I have hereunto set my hand this 10 day of January 1912.

Mr. James B. Moore,

Pleasant Valley, Oregon.

Dear Sir,-

I am in receipt of your inquiry of the 12th inst. As I understand the matter you have purchased a larger interest than is required for the irrigation of the land for which the reservoir was originally constructed. If this is the case an application could be made to apply the stored water to any other lands you see fit and while your right to store the water would date back to the original date of the storage right, your secondary application to apply the stored water to beneficial use would have the date of the receipt of such application in this office.

The records of this office would indicate that Dog Town Creek is a tributary indirectly of Powder River and if so all rights to the use of water will be adjusted in the adjudication proceedings now pending and I would suggest that you wait until after the completion of the adjudication before making any transfer of water rights.

If you have a partial water right for the particular land upon which you wish to apply the stored water, you can make an application for a permit to supplement the water supply for lands already having a partial water right and the fee for recording such an application will amount to \$8.00.

There are so many conditions connected with your proposed transfer of water that I do not feel justified to advise you with the meagre data at hand and would suggest that you see an attorney, or discuss the matter with Mr. Cochran and Mr. Luper, who are now in that section in connection with the adjudication, if you have the opportunity.

Very respectfully,

Percy A. Cuspet.
Acting State Engineer.

DEPT. OF STATE ENGINEER

RECEIVED

JUN 17 1912

SALEM, OREGON

Dear Sir:-

Not being able to get domestic water and water for my stock for the entire year on my desert claim. I recently purchased a piece of land (90 acres) adjoining my desert claim: together with a one half interest in a reservoir (partially constructed, which was acquired some seven years ago) and a one half interest of the waters coming down "Dog Town Gulch". I hold a warranty deed for the land and water rights purchased.

There would be more water belonging to my $\frac{1}{2}$ interest coming down the (dry) gulch for the land purchased would require: so I wish to transfer, say, 50 acre feet to my desert claim - together with a certain interest in the reservoir. "The Pierce-Moore ditch" (application #10 - Permit #16) runs through "Dog Town Gulch" and is above the reservoir. I wish also to empower my $\frac{1}{3}$ of water from this permit into said reservoir.

The water from reservoir would again run in the P-M ditch before it entered

My desert claim. The ditch to do this
would cross deeded land; but I have the
assurance from owners of a permit to
do this.

Question?: What course am I to
take to make the transfer of my newly
acquired water rights to my desert claim
so that it will be legal in every way?

Any further information on the subject
you may need, I will be glad to furnish
you. Hoping to receive an early reply.
I am.

Very truly yours

Mr. James B. Moore,

Pleasant Valley, Oregon.

Dear Sir:

I beg to acknowledge receipt of your notice of prosecution of work with diligence under your Permit No. 12, but would inform you that it will be necessary for you to also fill out the enclosed notice of beginning of construction, filling in the date when work was actually begun. Under said permit you were given until May 19th, 1910, to begin this work.

Kindly let me hear from you at an early date.

Very respectfully,

Secretary of the Board of Control.

Mr. James H. Moore,

Pleasant Valley, Oregon.

Dear Sir:

I beg to acknowledge receipt of notice of beginning of construction and two notices of prosecution of work with diligence, which are very satisfactory as far as they go, but it will be necessary at this time to fill out the enclosed blank of prosecution of work with diligence, showing work done in 1911, under your Permit No. 12.

Very respectfully yours,

Secretary of the Board of Control.
