NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

Permit No. 19  
Application No. 57

I, J. C. Deaver and others, the holder of Application No. 5-7, being  
Permit No. 19, issued by the State Engineer of the State of  
Oregon for the appropriation of 2 5/100 second feet of the waters of an unnamed spring  
in accordance with the tenor of such permit and the limitations endorsed thereon by the State Engi-  
neer, have completely applied the water to a beneficial use, on the 2 day of June 1911,  
being the time limitation as fixed in said permit for the complete application of water to a beneficial  
use.

Remarks: If all of the water granted in the permit had not been fully applied to beneficial use, you should so state,  
so that subsequent appropriators may have notice.

IN WITNESS WHEREOF, I have hereunto set my hand this 23 day of December 1911.

(Present Address)

(Signature of Applicant.)

Fill out, detach, and mail to the Secretary, Board of Control, Salem, Oregon.

Dear Sir:

I am in receipt of yours of the 3rd inst. explaining the situation with regard to Permit No. 19, and in accordance with your desire final certificate will be prepared for approval of the Board at its next meeting. Same will be issued in the name of the original applicants with the exception of W.L. Niel who has assigned his rights to Peter Andersen.

In accordance with your request I am enclosing application blanks and instructions for your use in making an appropriation of water.

Trusting this will be satisfactory, I am,

Dear Sir:

Referring to the matter of submitting final proof under Application No. 57, Permit No. 19, in the name of the Rooster Rock Water Company, a final water right certificate on same is being withheld for an assignment of right from G. M. Laughlin to M. L. Holbrook. Kindly advise us if such assignment can be secured. I enclose a form which may be used for this purpose. If this assignment cannot be secured the certificate can of course be issued to the original holders of the permit, with the exception of W.L. Diel, who had assigned his rights to Peter Andersen.

We have written attorneys Joseph & Haney several times concerning this matter and have received no reply. If the rights under this permit have been abandoned we would be glad to have you authorize the cancellation of the same.

Kindly give this matter your prompt attention. Unless we hear from you within 60 days from the date of this letter the permit will be presented to the Board for cancelation in accordance with the provisions of Chap. 366, Laws of 1917.

Gentlemen:

Referring again to the matter of submitting final proof under application No. 57, permit No. 19, in the name of the Rooster Rock Water Company, a final water right certificate is being withheld for an assignment of right from G. M. Laughlin to M. L. Holbrook. We are anxious to clear our records of the old filings and unless we receive this assignment a final water right certificate will be issued in the name of G. M. Laughlin.

We have received no reply to our letter of Jan. 5, 1917, in regard to this matter and wish to bring our records up to date.

We note that this assignment is not in the form prescribed by your office. However, inasmuch as Mr. Anderson has no knowledge at present of the whereabouts of Mr. Diel, it would be impossible for him to furnish another form of assignment and we trust that the enclosed form will be found sufficient.

Gentlemen:-

In preparing to issue final water right certificate under Permit No. 19, issued to W. L. Diel, J. C. Deaver, W. G. Hicke, Fred S. Shoultz, D. W. Benefield and G. M. Laughlin, I find that the names of W. L. Diel and G. M. Laughlin have been stricken out in the proof of appropriation filed by you for the permittees, and the names of Peter Andersen and H. L. Holbrook substituted therefor. If these parties desire to be mentioned in the certificate, they should secure an assignment from Mr. Diel and Mr. Laughlin of their rights in this permit, using a form similar to the one enclosed. This assignment should be filed to the office of the State Engineer for recording, accompanied by the statutory fee of \$1.00. The law provides that no assignment of rights in a permit shall be binding on others than the parties thereto, unless so recorded. Of course, the fact that the certificate is issued in the name of the original permittees would not prevent their successors in interest from making the same use of water, if they do not desire to record the assignment.

Very respectfully,

Secretary

Gentlemen:

The undersigned, W. L. Diel, J. C. Deaver, W. G. Hicks, Fred Schultz, D. W. Benfield, and G. M. Laughlin, do hereby respectfully petition for an extension of time within which to complete plant under plan No. 57, for which permit No. 19 was granted.

The petitioners respectfully represent that they have installed one ram and wish to install either a gasoline engine or an additional ram. The requirements heretofore did not justify the complete appropriation of all water permitted under said application and permit, and for this reason a larger appropriation was not made, but should be made within one year from date hereof, for which length of time the petitioners request that extension be granted.

John H Lewis  
State engineer,

Dear Sir, Replying to your letter regarding our Permit No 19, we wish to state that we have filled out and sent in reports of Notices of Beginning, Completion, and complete application of water to a beneficial use, but at that time there was no demand for more water than about 6000 gallons per day while now the country is settling up and there is call for more water, and we respectfully ask for an extension of time, of 2 years in which to make use of the full amount of water we asked for in our permit No 19.

The rapid development of the country along the Columbia Highway and the selling of acreage <sup>and for road construction</sup> tracts, makes this request necessary.

Trusting this will meet with your approval We are Yours very truly,

Mr. V. A. Wick, Sec'y,  
Hooper Rock Water Co.,  
Hooper, Ore.

Dear Sir:

In receipt of yours of the 13th inst., relative to the appropriation of water under application for the 17th permit No. 19.

Under this permit you are allowed until June 2, 1910, to begin to begin actual construction work until June 2, 1911. It is also to complete construction work, and until June 2, 1912, to completely apply the water to the proposed use. Your use for or complete application of the water to the proposed use has expired, and unless you secure an extension of time, the amount of water you are entitled to will be limited to the amount you actually used prior to the date fixed in the permit, June 2, 1912. If other rights have intervened, it may not be within the power of the State Water Board to grant an extension of time. You should file with the State Water Board notice of beginning actual construction work, showing that work has commenced within the time fixed in the permit, also notice of completion of construction work. Blanks for this purpose are enclosed. Should you desire to make application for an extension of time, any statement setting forth the facts will be satisfactory.

Very respectfully,

John H. Lewis,

State Engineer.

Dear Sir :- We wish to put the following question relating to our filing in application No 57 Permit No 19.

We understood from filing in .25-cw ft per sec that we could take that amount, provided we could apply so much to a beneficial use, and that we can now, or at any time in future when all can be applied to a beneficial use, take up to the limit of our filing.

Or in other words have we forfeited any right by not then, (at date of our filing being able to apply to beneficial use all filed on, even if it has been used since then by other parties for irrigation.

An early reply will be greatly appreciated

Yours very truly

Dear Sir Herewith we enclose reports on  
works called for.

We offer in explanation of works being  
done before the date of application, that we  
had possession of the spring and had com-  
menced work before the present water  
law went into effect, and most of the  
work was done before the permit, <sup>work</sup> granted.

Trusting this will meet with your  
approval and that the certificate can  
now be issued We are

Mr. J. C. Deaver,

Latourelle Falls, Ore.

Dear Sir,-

Replying to your inquiry of the 8th inst., I beg to advise you that in my opinion, your water right for irrigation secured under application No. 57, became appurtenant to the land described in your application, and shown on the map, and that the water right cannot be transferred unless its beneficial use on such tract is impossible. The land to be irrigated is outlined on the map. You can of course, make another application for permit to appropriate sufficient water for the irrigation of the additional land.

Very respectfully,

John H. Lewis

Salem, Oregon,

Dear Sir; I have one sixth ( $\frac{1}{6}$ ) interest in the Rooster Rock Water Association, and I wish to know if in your opinion I can use my  $\frac{1}{6}$  interest any where on my forty acres for the same right intended in the original application. The pipe line runs across my forty acres tract, so I would not have to enter upon any ones land and will not take any more of the water than my part, or  $\frac{1}{6}$ .

Will send a diagram of what is wanted

Yours truly,

J. C. Deaver.
