V. E. Plunkett
Burnt Woods,
Oregon

Dear Mr. Plunkett:

On the reverse side of this paper is a copy of a draft of water right certificate to confirm the right under Permit No. R-1939 *You are requested to examine this draft and if you find it correctly describes the appropriation of water made, execute the following final proof. A fee of $1.00 is required for recording your certificate of water right in the office of the County Clerk. The fee of $1.00, together with this signed draft, must be returned to the State Engineer.*

Very truly yours,

LEWIS A. STANLEY
State Engineer

FINAL PROOF

I have read the draft of water right certificate shown on the reverse side of this paper and as final proof of appropriation of water I hereby certify that the water has been used as described in said draft.

Dear Sir:

This acknowledges receipt of Form B, being notice of completion of construction under Permit No. R-1939 & 24509.

The report has been filed with other matter pertaining to the permit, which is in good standing until October 1, 1959, when, under its terms, all the water which it is intended to use at any time should be used to the full extent intended.

Very truly yours,

Lewis A. Stanley

R-30872

December 20, 1956

V. E. Plunkett
Burnt Woods, Oregon

Dear Sir:

Enclosed find Application No.R-30872, Permit No. R-1939.

PLEASE READ CAREFULLY THE FOLLOWING INSTRUCTIONS

Your permit has been recorded in this office but you should hold the original permit as evidence of your water right. If the land is sold an assignment to the new owner should be recorded in this office. Assignment blanks will be furnished upon request.

The permit, which appears on the last page of the application, limits the time within which you may begin and complete construction of your project. According to the law you must begin actual construction work within one year from the date of issuance of the permit or your right will be lost. The State Engineer is authorized to extend the time for completion of the project on proper showing but has no authority to extend the time limit for beginning of construction work.

Forms are attached to the permit for your convenience in submitting notice when construction begins, when it is completed and when the water has been completely applied to the proposed use, unless you have already submitted such information.

If your use of water is for irrigation, proof can be made and certificate issued only after you have actually irrigated ALL of the land described in the permit which you intend to irrigate at any time.

Whenever a measuring device becomes necessary for the proper distribution of water, the permittee will be required to install one to the satisfaction of the State Engineer as provided by ORS 540.310 and 540.330.

In connection with your proposed appropriation, please be advised that the late summer flow in most of the streams is required to satisfy existing rights and your permit as provided by law, grants a right to use water only when there is a surplus in the source involved over and above that required to satisfy prior rights.

Very truly yours,

Lewis A. Stanley

September 13, 1956

Mr. V. E. Plunkett
Burnt Woods
Oregon

Dear Mr. Plunkett:

This will acknowledge receipt of your returned reservoir Application No. R-30872 previously acknowledged and returned by our letter of July 20, 1956, and the receipt of your secondary application for a permit to appropriate 0.99 cubic feet of water per second from Mulkey Creek to be used to maintain a fish pond, the accompanying map, legal description, and fees in the amount of $15, for which our receipt No. 8177 is enclosed.

The secondary application was given file No. 31033, and filed as provided by law.

The reservoir application has been re-examined and appears to be in satisfactory form. The secondary application and map have been examined and the following observations are noted.

Map: The location of the point of diversion of the water from Mulkey Creek should be located with a direct reference shown to an identified, established government survey corner in the manner listed under Item 4 of the secondary application.

Application-Item 7: The parts of Item 7 that apply to your project should be completed.

Item 8: The place of use (fish pond) should be listed as being within a particular 40 acre tract with the use to be made within each such tract identified.

Items 11-14: These items should also be completed.

For your convenience in the completion of the secondary application and the accompanying map as noted above, they are being returned herewith, the application being endorsed so that in order to retain its date of priority it must be returned to this office on or before November 13, 1956.

Very truly yours,

LEWIS A. STANLEY
State Engineer

R-30872

July 20, 1956

Mr. V. E. Plunkett
Burnt Woods
Oregon

Dear Mr. Plunkett:

This will acknowledge receipt of your application for a permit to construct a reservoir and store therein 1.2 acre feet of water from Mulkey Creek to be used as a fish pond, the accompanying plans, and fees in the amount of $20, for which our receipt No. 7491 is enclosed.

Your application has been examined, given file No. R-30872, and the following observations are noted.

Your reservoir application must be accompanied by a secondary application for a permit to appropriate water from Mulkey Creek and the reservoir for use in the maintenance of the fish pond.

The fees necessary to the two applications are:

Reservoir application		
Examination fee	$10	
Recording fee (storage of less than 100 acre feet of water)	$5	
Total for this application		$15
Secondary application		
Examination fee	$10	
Recording fee (use of water for fish pond)	$10	
Total for this application		$20
Total for both applications		$35

Therefore additional fees in the amount of $15 should accompany your secondary application.

For your convenience in the completion and submission of the necessary secondary application we are returning herewith your map and are enclosing for your convenience the necessary forms and a copy of the Rules and Regulations of the State Engineer.

Very truly yours,

LEWIS A. STANLEY
State Engineer
