Form A

Application No. 31033

NOTICE OF BEGINNING OF CONSTRUCTION

I, V. E. Plunkett, the holder of Permit No. 24509
to appropriate the public waters of the state of Oregon, began the actual construction of the works described therein on the 12th day of August, 1957

Remarks: We have 1 man with bulldozer and 1 extra man. mostly deepening edges and taking off high spots to get dirt for the fill.
The appropriator should state the manner of beginning construction work, number of men employed, the amount of work completed up to the date of this statement, and any additional information which may tend to show the beginning of work in good faith.

IN WITNESS WHEREOF, I have hereunto set my hand this 14 day of August, 1957
V. E. Plunkett Burnt Woods, Oregon
(Signature of Applicant) (Address)

State Printing 92284

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is begun.

Form B

Application No. 31033

NOTICE OF COMPLETION OF CONSTRUCTION

I, V. E. PLUNKETT, the holder of Permit No. 24509
to appropriate the public waters of the state of Oregon, completed the construction of the works described therein on the 30 day of SEPT., 1958

Remarks: _____
If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed development, you should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 30 day of Sept., 1958
V. E. Plunkett Burnt Woods, Oregon
(Signature of Applicant) (Address)

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is completed.

Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the State Engineer, Salem, Oregon, when all of the water has been applied.

Application No. 31033

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, V. E. Plunkett, the holder of Permit No. 24509
to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 15th day of September, 1959

Remarks: _____

IN WITNESS WHEREOF, I have hereunto set my hand this 21 day of October, 1959
V. E. Plunkett Burnt Woods, Oregon

STATE OF OREGON
COUNTY OF LINCOLN
CERTIFICATE OF WATER RIGHT

This Is to Certify, That V. E. PLUNKETT

of Burnt Woods, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of Mulkey Creek and reservoir constructed under Application No. R-30872, Permit No. R-1939 a tributary of Marys River for the purpose of fish culture

under Permit No. 24509 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from August 14, 1956

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.20 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 23, T. 11 S., R. 8 W., W.M.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to — — — — — of one cubic foot per second per acre,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

Fish Pond
SW $\frac{1}{4}$ NE $\frac{1}{4}$
Section 23
T. 11 S., R. 8 W., W.M.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

THIS IS A DRAFT OF WATER RIGHT CERTIFICATE

See other side for instructions and final proof to be executed by permittee.

Dear Mr. Plunkett:

On the reverse side of this paper is a copy of a draft of water right certificate to confirm the right under Permit No. 24509. You are requested to examine this draft and if you find it correctly describes the appropriation of water made, execute the following final proof. A fee of \$1.00 is required for recording your certificate of water right in the office of the County Clerk. The fee of \$1.00, together with this signed draft, must be returned to the State Engineer.

Very truly yours,

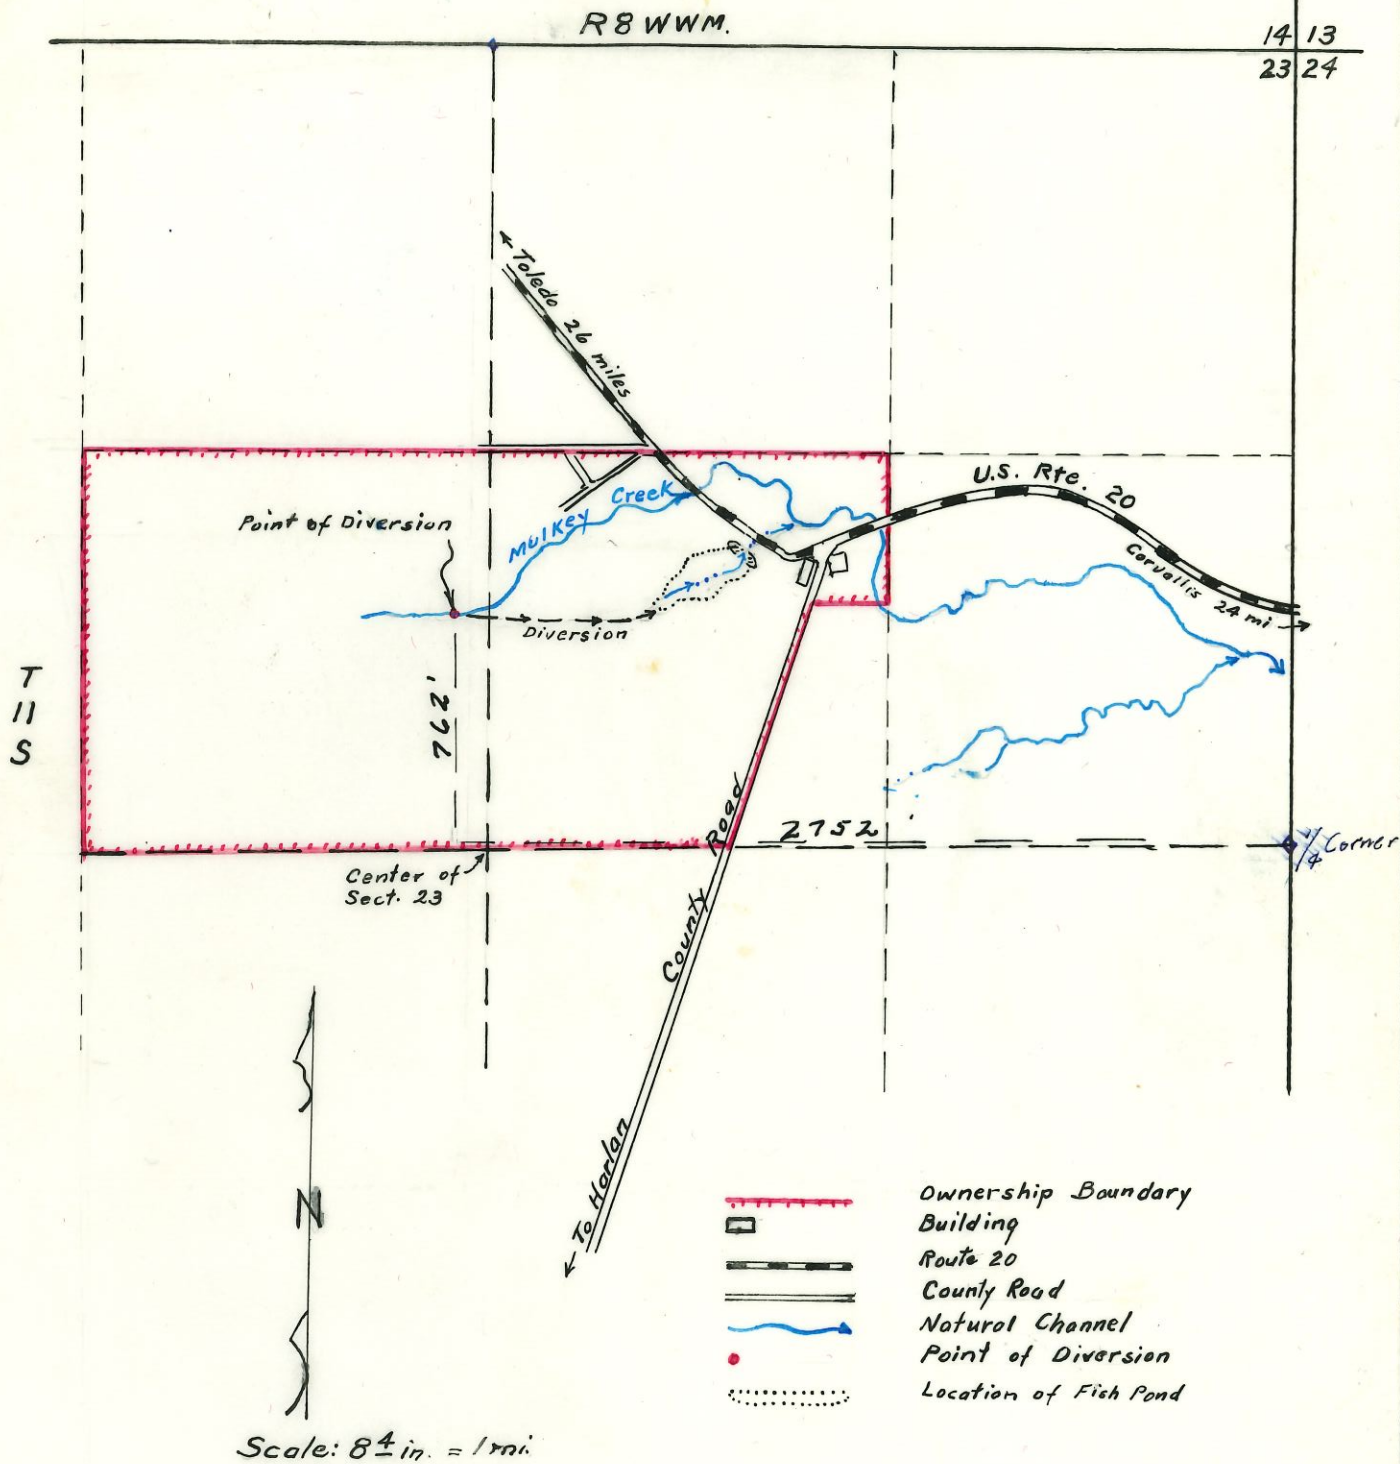

LEWIS A. STANLEY
State Engineer

FINAL PROOF

I have read the draft of water right certificate shown on the reverse side of this paper and as final proof of appropriation of water I hereby certify that the water has been used as described in said draft.

Dear Sir:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under Permit No. 24509.

Pursuant to your report and in line with the general practice of this office a survey will be made at a later date. After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

Lewis A. Stanley

Dear Sir:

Enclosed find Application No. 31033, Permit No. 24509, with
blueprint.

PLEASE READ CAREFULLY THE FOLLOWING INSTRUCTIONS

Your permit has been recorded in this office but you should
hold the original permit as evidence of your water right. If the land
is subsequently sold to the new owner should be recorded in this
office. **Dear Sir:**

This acknowledges receipt of Form A, being notice of
the beginning of construction under Permit No. 24509.

The report has been filed with other matter pertaining
to the permit, which is in good standing until October 1, 1958,
when, under its terms, construction should be completed.
Very truly yours,

Forms are attached to the permit. In sub-
mitting notice when construction begins and when
the water has been completely applied use, unless you
have already submitted such information.
Lewis A. Stanley
LEWIS A. STANLEY
State Engineer

Form 118
dif. your use of water is for irrigation, proof can be made and
made insured only after you have actually irrigated. All of the land
described in the permit which you intend to irrigate at any time.

When a measuring device becomes necessary for the proper
distribution of water, the permittee will be required to install one to the
satisfaction of the State Engineer as provided by ORS 540,310 and 540,330.

In connection with your proposed appropriation, please be advised
that the late summer flow in most of the streams is required to satisfy
existing rights and your permit as provided by law, grants a right to use
water only when there is a surplus in the source involved over and above
that required to satisfy prior rights.

Very truly yours,

Lewis A. Stanley

Dear Sir:

Enclosed find Application No. 31033, Permit No. 24509, with
blueprint.

PLEASE READ CAREFULLY THE FOLLOWING INSTRUCTIONS

Your permit has been recorded in this office but you should hold the original permit as evidence of your water right. If the land is sold an assignment to the new owner should be recorded in this office. Assignment blanks will be furnished upon request.

The permit, which appears on the last page of the application, limits the time within which you may begin and complete construction of your project. According to the law you must begin actual construction work within one year from the date of issuance of the permit or your right will be lost. The State Engineer is authorized to extend the time for completion of the project on proper showing but has no authority to extend the time limit for beginning of construction work.

Forms are attached to the permit for your convenience in submitting notice when construction begins, when it is completed and when the water has been completely applied to the proposed use, unless you have already submitted such information.

If your use of water is for irrigation, proof can be made and certificate issued only after you have actually irrigated ALL of the land described in the permit which you intend to irrigate at any time.

Whenever a measuring device becomes necessary for the proper distribution of water, the permittee will be required to install one to the satisfaction of the State Engineer as provided by ORS 540.310 and 540.330.

In connection with your proposed appropriation, please be advised that the late summer flow in most of the streams is required to satisfy existing rights and your permit as provided by law, grants a right to use water only when there is a surplus in the source involved over and above that required to satisfy prior rights.

James W. Carver Jr:

Dear Mr Carver:

In reply to your letter of Nov. 21st and
File No. 31033 - R-30872:

We did not understand the situation you
were trying to get at.

It would be all right with us to change
our application to 0.20 cubic feet per second,
for we don't need much, we know.

As far as working a hardship on others
up stream, this stream heads, from various
springs, not more than a mile from our
proposed pond site and there is only
1 place above ours and it is vacant.

Hoping this answers your questions.

Sincerely
T. E. Plunkett

By - Mrs T.E.P.

November 21, 1956

Mr. V. E. Plunkett
Burnt Woods, Oregon

Dear Mr. Plunkett:

This will acknowledge receipt of your letter of November 16 in reply to our letter of November 15. It appears that I did not make myself clear as to the reasons for my questions.

The law requires that a permit be issued on an application for appropriation for the amount of water that the applicant intends to apply to beneficial use. On the basis of the information we have it would appear that 0.99 cubic feet of water per second (approximately 450 gallons per minute) as requested on your Application No. 31033 is more water than could be beneficially used in the maintenance of a 1.2 acre foot fish pond.

Even though the final water right certificate would be issued only for the amount our field crews find has been actually placed to beneficial use, during their survey of your property, after the completion of the project, if a permit is issued in an amount exceeding that necessary to your project it may result in the working of a hardship on persons upstream from you in that it would appear there would not be sufficient water in the stream to satisfy their requirements and still pass enough water on down the stream to satisfy your requirements.

Water running into a 1.2 acre foot pond at the rate of 0.99 cubic feet per second would result in almost two complete changes of water in the pond in each 24 hour day. On the basis of the information we have it would appear that a constant flow of 0.20 cubic feet of water per second would be more than adequate to satisfy the needs of your proposed project and unless data to substantiate the need for a greater flow of water is submitted the permit will be issued for this amount.

Further action on your application is being withheld pending your reply.

Very truly yours,

LEWIS A. STANLEY

Dear Mr. Stanley:

In reply to your letter of Nov. 15th and
file No. 31033 - R 30872.

We cannot understand the delay in this
permit as our plans call for taking
the water out of the creek to run into
our pond area and turning the overflow
right back into the creek on our own
place.

As far as completely changing the water we
feel we have enough natural fall and
slope to keep the water fresh so there will
be no need.

Hoping this is the answer you need.

Dear Mr. Plunkett:

This will acknowledge receipt of your returned reservoir Application No. R-30872 previously acknowledged and returned by our letter of July 20, 1956, and the receipt of your secondary application for a permit to appropriate 0.99 cubic feet of water per second from Mulkey Creek to be used to maintain a fish pond, the accompanying map, legal description, and fees in the amount of \$15, for which our receipt No. 8177 is enclosed.

The secondary application was given file No. 31033, and filed as provided by law.

The reservoir application has been re-examined and appears to be in satisfactory form. The secondary application and map have been examined and the following observations are noted.

Map: The location of the point of diversion of the water from Mulkey Creek should be located with a direct reference shown to an identified, established government survey corner in the manner listed under Item 4 of the secondary application.

Application-Item 7: The parts of Item 7 that apply to your project should be completed.

Item 8: The place of use (fish pond) should be listed as being within a particular 40 acre tract with the use to be made within each such tract identified.

Items 11-14: These items should also be completed.

Mr. V. E. Plunkett

-2-

September 13, 1956

For your convenience in the completion of the secondary application and the accompanying map as noted above, they are being returned herewith, the application being endorsed so that in order to retain its date of priority it must be returned to this office on or before November 13, 1956.

Very truly yours,

Information for Registrants

READ CAREFULLY BEFORE FILLING OUT THE ENCLOSED REGISTRATION STATEMENT.

Chapter 708, Oregon Laws 1955 provides that any person or public agency claiming any right to appropriate ground water by reason of actual and lawful application of ground water to beneficial use prior to August 3, 1955, or who on August 3, 1955 was engaged in the construction, alteration or extension of a well for the application of ground water to beneficial use, is entitled to receive from the State Engineer within three years after August 3, 1955, a certificate of registration as evidence of a right to appropriate ground water. No registration is required for use of ground water for stock watering purposes, for watering any lawn or non-commercial garden not exceeding one-half acre in area, for single or group domestic purposes in an amount not exceeding 15,000 gallons a day or for any single industrial or commercial purpose in an amount not exceeding 5,000 gallons a day.

Fees. The following fees must be submitted with this registration statement:

1. For examining the statement, \$10.00.
2. For filing and recording.
