Dear Larry Stroup & Ruth Bates:

The Water Resources Department has completed the final proof survey of the Grants Pass Irrigation District's water right Permit Numbered 8853.

In researching our records of water rights, there is a conflict with your G.P.I.D. water right on the following described land:

All that portion of Lots 8 and 9 of Hamilton Park  
Subdivision lying South of the relocated Pacific  
Highway, except the East 65 feet of those lots,  
all being within Township 36 South, Range 5 West, WM

The conflicting water right is in the name of George A. Hamilton for irrigation from Fruitdale Creek with a Date of Priority of April 12, 1910 recorded in Volume 1, Page 737, State Record of Water Right Certificates.

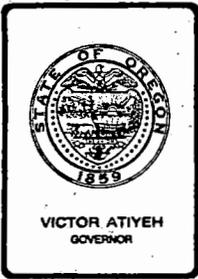

Since you have not used the water from Fruitdale Creek for a period of five successive years or more, the water right has been forfeited by nonuse in accordance with ORS 540.610. If you do not cancel this primary water right, the G.P.I.D. water right will automatically become supplemental to Certificate No. 737. If in the future Certificate 737 is cancelled, this will also cancel the G.P.I.D. water right on your property. You can not have a supplemental water right on a parcel of land without a primary water right.

Completing the enclosed affidavit will alleviate the conflict of these two water rights. Your Grants Pass Irrigation District water right will then be solid. The affidavit must be signed in the presence of a Notary.

The Proof of Appropriation on Permit No. 8853 was signed by the G.P.I.D. Board of Directors and completion is pending your response. Please feel free to contact me if you have any questions.

Sincerely,

Bruce A. Estes, Supervisor

State Engineer, President

Secretary

TALKED WITH MARK AXTELL By Phone

HE IS A LONG TIME RESIDENT OF THIS PARTICULAR AREA AND IS FAMILIAR WITH THE HAMILTON RIGHT. HE WORKED FOR HAMILTON IN THE 30'S AND AT THAT TIME ~~THERE~~ HAMILTON HAD STOPPED USING FRUITDALE CREEK FOR IRRIGATION. THE AREA HAS BEEN SUB-DIVIDED AND AXTELL PURCHASED FIRST PORTION IN 1945. SINCE 1945 THERE HAS BEEN NO IRRIGATION FROM FRUITDALE CR ON ANY OF THIS LAND. THE WATER COMES THRU THE G.P.I.D. SYSTEM.

HE ALSO STATED THAT THERE IS NOT ~~AT~~ SUFFICIENT WATER IN FRUITDALE CREEK TO IRRIGATE ANY SIZEABLE PARCEL OF LAND. THAT WATER IN THE CREEK IS WATER RELEASED BY THE IRRIGATION DISTRICT.

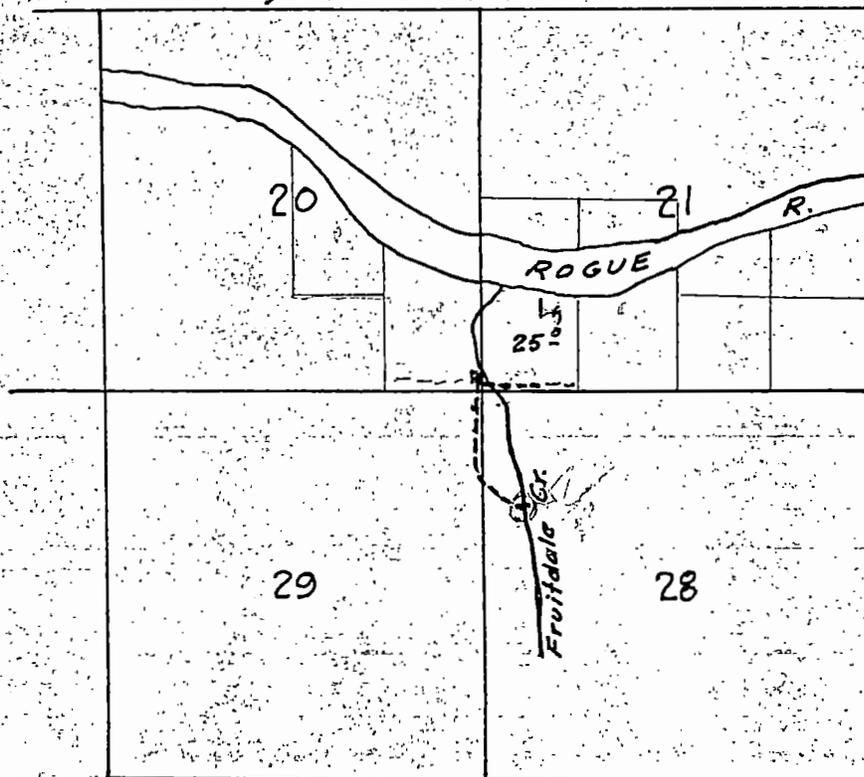

~~HE~~ ~~WAS~~ ~~NOT~~ ~~AGREED~~  
HE AGREED THAT THIS WATER RIGHT SHOULD BE CANCELED BUT SAID THERE SHOULD BE AN EASIER WAY. HE THOUGHT WE SHOULD JUST CANCEL THIS ONE BECAUSE IT IS INVALID

INFO: I inspected the Diversion point located by map of cert #737. The diversion on FRUITDALE CREEK is still in place & in operation but serves land in the SE 1/4 SE 1/4 Section 20. This was determined by an inspection & following of the irrigation districts works. Also I walked Fruitdale creek from the diversion of this Cert to US Hwy 99 & found no evidence

# STATE OF OREGON

OFFICE OF THE  
STATE ENGINEER

JOHN H. LEWIS, STATE ENGINEER  
PRESIDENT OF THE BOARD OF CONTROL  
SECRETARY OF THE DESERT LAND BOARD  
PERCY A. CUPPER  
ASSISTANT STATE ENGINEER

SALEM, OREGON Dec. 29, 1911

Dear Sir:

The Board of Control has ruled that annual proof shall be furnished by all permit holders. Forms for this purpose have been prepared marked respectively "Notice of Beginning of Construction", "Notice of Completion of Construction", "Notice of Complete Application of Water to a Beneficial Use".

For each year succeeding the date of approval of your permit, which date is endorsed on the back thereof, you should fill out the proper form, detach, and mail to the Secretary, Board of Control, Salem, Oregon. You will notice that these forms cover beginning of construction, completion, and application of water to beneficial use, and if more than three years is allowed for complete application of water to beneficial use, you should give on the blank marked "Notice of Prosecution of Work with Diligence", a detailed description of the work performed each intervening year, so that the Board may judge as to whether or not the law is being complied with as to the prosecution of work with reasonable diligence. If your permit is an early one, it will be necessary to fill out and mail the first, and possibly the first and second of these forms immediately, in order to make the record complete.

Failure to fill out and mail the annual proofs required by the Board may jeopardize your rights under this permit, and result in its cancellation after proper notice, as the law provides that proof must be made "to the satisfaction of the Board of Control". The Board has ruled that final proof will not be satisfactory unless supported by annual proofs on the blanks herein submitted.

Final proof will be taken by the Board, through the proper division superintendent, as soon as possible after the expiration of time for the complete application of water to beneficial use, or any extension thereof. The Board of Control will thereafter issue a "Certificate of Water Right", to be recorded with the county clerk of the proper county, which to your water title will correspond to a patent from the United States as foundation for your land title.

If actual construction work was not begun on or before the time limitation fixed in the endorsement of your Permit No. 791, Application No. 1610, your rights under this permit have lapsed, and a refiling should be made at once, if you still desire to secure a water right. The same action should be taken if the time has expired for the completion of such work, unless you have secured an extension from the Board of Control. No extension of time within which construction work must be begun can be allowed, and no extension of the time to complete work can be allowed when request is made after the time as fixed in the permit has expired, except in extreme cases.

Very respectfully,

*John H. Lewis.*

Mr. George A. Anderson,

Grants Pass, Oregon.

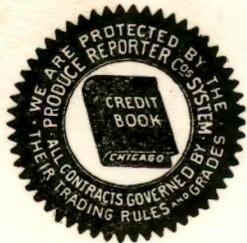

Dear Sir:

I am in receipt of yours of the 28th ult., in regard to application No. 646, permit No. 265. It is probable that a change in the place of use could be effected by a petition to the Board of Control, but I believe it would be a better plan to file an enlargement blank here for the irrigation of the thirteen acres which you desire to irrigate in Lot 8. I am, therefore, enclosing herewith an enlargement application blank, together with instructions, for your use.

Very respectfully,

State Engineer.

Dear Sir - your letter and my application received I overlooked the meaning of fees in line no 1 and figuring on line no 2 - 100 acres <sup>8.00</sup> 5.00

I have changed application to half foot of water and for forty acres instead of 100 acres.

There is not half as much water running as there was when I made application and there will not be half as much in another week and this is why I am anxious to get grant at once

There will not be enough to irrigate five acres when I can get water running now - I enclose Money Order for one dollar

Kindly attend to this at once

Truly yours

Mr. George A. Hamilton,  
Grants Pass, Oregon.

Dear Sir:

Upon receipt of your request of the 22d inst. for immediate action on your application, No. 646, I have taken the same up in advance of its regular order for examination and find that some minor corrections are necessary before the same can be approved. Your application calls for one hundred acres of land in answer to question 9, but the land described in that answer would indicate considerably more than one hundred acres. I would therefore ask you to specifically set out the number of acres you intend to irrigate in each smallest legal subdivision, and also mark the same on the map, which I am also returning. The total fees on an application for one hundred acres of land are \$18.00, or \$10.00 in addition to the \$8.00 already received.

In order to retain its original date of priority, this application, corrected, must be received in this office on or before May 26th.

Very respectfully,

State Engineer.

OFFICE OF STATE ENGINEER

Dear Sir. Nearly a week ago I sent in an application for one cubic foot of water per second on Fruitdale Creek - also draft for \$5<sup>00</sup> for examination fee and charges on 100 acres of land -

This Creek always goes dry before July, just not a big flow in June and a fair flow in May - and as it is so dry my straw berries and garden need water bad -

Am very anxious to get water at once or I will have to pump water from River (fifty feet high)

Kindly let me know at once if you have allowed <sup>it</sup> for turned down,

No one is using the water at all and I do not think they will before a month and I hate to see it go to waste

Truly yours

Geo. A. Hamilton
