AFFIDAVIT

I, Lee F. Ponce, Deputy Forest Supervisor acting on behalf of the
(Name and Title)
United States Deschutes National Forest of 211 NE Revere, Bend, Oregon 97701,
being first duly sworn, depose and say that we are the owners of a water right
and the land to which it is appurtenant, which is for the use of not to exceed
0.01 cubic foot per second of water from an unnamed spring for domestic use for
one family on Lot 9, Tract X, Odell Lake Recreational Area, Deschutes National
Forest, under a priority date of April 3, 1928, being a portion of the right
described by the Certificate recorded at page 9220, Volume 9, State Record of
Water Right Certificates in the name of Otto C. Stein, that we have abandoned
any and all interest in and to said water right and request the same be canceled.

IN WITNESS WHEREOF, I have hereunto set my hand this 9 day of

Dear Mr. Brown:

Thank you for the assistance you gave us in resolving the water rights situation pertaining to Lots 9 and 8, Tract X, Odell Lake Recreational Area when we were in your office last Friday.

Enclosed is a copy of the letter which I have sent with the required affidavit to the United States Forest Service, Deschutes National Forest.

It was a real pleasure to meet you last week, and again, thank you for all of your help.

Sincerely,

Robert G. Christner

Dear Mr. Meyer:

In applying to the State Water Resources Department for a permit to use water from Odell Lake for domestic purposes at my recreational home located on Lot 9, Tract X Odell Lake Recreational Area, it has apparently been found that a permit to use water from a spring was issued years ago and must be removed from the records before a new one can be issued. I believe Wayne Overcash from the Water Resources Department and Bruce McCammon from your office have talked with you about this matter.

I would appreciate it if you would execute the enclosed affidavit for the Forest Service and send it to Stephen C. Brown, Senior Water Rights Examiner, State Water Resources Department, 555 13th Street N.E., Salem, Oregon 97310.

Thank you very much.

Date: October 1, 1982

From: Stephen C. Brown
Senior Water Rights Examiner

Subject: Mr. Christner and Mr. Kehrli came into the office this
date to discuss the location of the uses of water
under Certificate No. 9220.

Mr. Kehrler and Mr. Christner stated that there has only
been two homes being served by the spring in 1928 and these
dwellings are located on lots 8 & 9, tract X, Odell Lake
Recreational Area.

Mr. Kehrli is still using the water from the spring on lot 8,
and is the only one connected to the spring.

Mr. Christner will request that the US Deschutes National
Forest submit authorization to cancel the portion of Certi-
ficate 9220 appurtenant to Lot 9, Tract X, since it has been
abandoned since 1961.

Dear Mr. Christner:

REFERENCE: Files 64060 and 12008

Your Application 64060 describing the proposed use of 0.005 cubic foot per second of water from Odell Lake for domestic use for one family, along with the accompanying map, has been reviewed.

According to our records, a water right exists for land appurtenant to Lot 9, Tract X, as evidenced by Certificate of Water Right recorded at page 9220, Volume 9, State Record of Water Right Certificates.

Your application makes reference that the lake water has been in use since 1961. I presume that the spring has not been used for the dwelling on Lot 9, Tract X since 1961. If in fact this is true, the portion of the right described by Certificate 9220 appurtenant to Lot 9, Tract X is invalid and the right will need to be removed from our records prior to the issuance of a permit in approval of your Application 64060 to use water from the lake.

Enclosed is an affidavit which, when properly executed by the person or persons acting on behalf of the US Forest Service, will properly remove the right of record.

Further action toward the issuance of a permit in approval of your application will be held for a reasonable length of time awaiting your reply.

Sincerely,

Stephen C. Brown
Senior Water Rights Examiner

We have received your application for use of water for domestic purposes along with the supporting data and fees. Our Receipt 32680 is enclosed. Your application has been filed and assigned number 64060.

Applications which are received in proper form for a permit, including maps, supporting data and fees, will be considered for approval shortly after the mandatory 30-day waiting period. Applications which are defective, conflict with existing rights or require additional information will be reviewed in detail and will be returned for completion or correction within 45 days.

If your application is approved, the project described in the application will be subject to the Water Policy Review Board's Basin Program statements, existing minimum flows and demands of prior rights during periods of low water.

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.
