NOTICE OF COMPLETION OF CONSTRUCTION

Application No. 17711

I, C. I. Jones, the holder of Permit No. 13571
to appropriate the public waters of the state of Oregon, completed the construction of the works described
therein on the 1st day of Oct, 1941.

Remarks: If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed development, you
should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 23rd day of Oct, 1941.

(Signature of Witness) (Signature of Applicant)

(Address) (Address)

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is completed.

OK

Form B
NOTICE OF COMPLETION OF CONSTRUCTION

Application No. 17711

I, C. I. Jones, the holder of Permit No. 13571
to appropriate the public waters of the state of Oregon, completed the construction of the works described
therein on the 1st day of June, 1939.

Remarks: Pipe line installed
If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed development, you
should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 11th day of September, 1946.

(Signature of Witness) (Signature of Applicant)

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is completed.

OK

Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.
Fill out, detach, and mail to the State Engineer, Salem, Oregon, when all of the water has been applied.

Application No. 17711

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

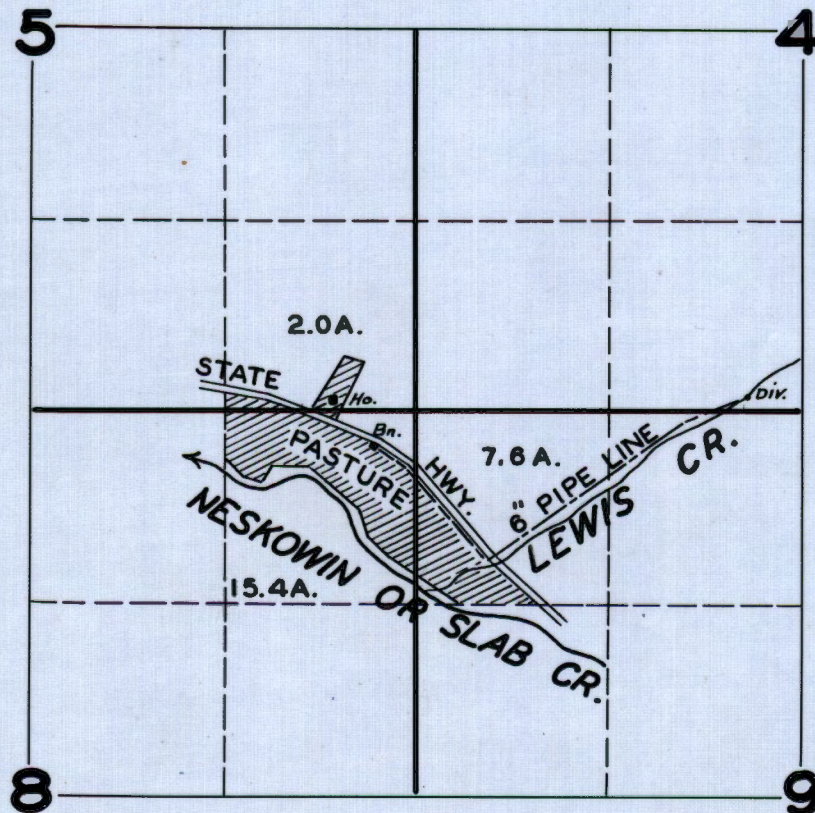

I, C. I. Jones, the holder of Permit No. 13571
to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in
accordance with the terms of said permit, on the 4th day of September, 1947.

Remarks: Irrigated see that is intended to
irrigate - probably 30 acres in all.

IN WITNESS WHEREOF, I have hereunto set my hand this 5th day of September, 1947.

(Signature of Applicant) (Address)

FINAL PROOF SURVEY
UNDER

Application No. 17711 Permit No. 13571
IN NAME OF

C. I. JONES

Surveyed SEP. 7 1948, by JAS. E. BUNNELL

STATE OF OREGON
COUNTY OF TILLAMOOK
CERTIFICATE OF WATER RIGHT

This Is to Certify, That CHINOOK ASSOCIATES, INC.

of Maskowin, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of Lewis Creek

a tributary of Maskowin Creek sometimes called Slab Creek for the purpose of irrigation of 12.0 acres

under Permit No. 13571 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from December 27, 1938

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.15 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 4, T. 6 S., R. 10 W., W. M.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed $\frac{3}{4}$ acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

- 1.5 acres SE $\frac{1}{4}$ SE $\frac{1}{4}$
Section 5
- 3.4 acres NE $\frac{1}{4}$ NE $\frac{1}{4}$
Section 6
- 7.1 acres NW $\frac{1}{4}$ NW $\frac{1}{4}$
Section 9
T. 6 S., R. 10 W., W. M.

Certificate of water right issued to C. A. Franzen and recorded at page 21142, Volume 15, State Record of Water Right Certificates, confirms the right to the use of water for irrigation of 25.0 acres. Subsequently, the right to the use of water appurtenant to 12.0 acres was transferred by order of the State Engineer entered April 17, 1970. This certificate is issued pursuant to the special order of the State Engineer, to supersede the certificate recorded at Volume 15, page 21142, State Record of Water Right Certificates, as regards that portion of the right not at issue in the proceeding resulting in said special order. The issuance hereof shall not be construed as a determination of the status of the right described herein.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

WITNESS the signature of the State Engineer, affixed

this date, July 6, 1970

Application #17711
Permit #13571

I have accepted the diversion point as established by the Forest Service in a traverse ran by them in order to issue the permittee an easement off Govt. land.

The pipe line from the diversion point to the place of use is 6" wood pipe. The lateral is 120' of 3" and 300' of 2".

11- #40 Rainbird Sprinklers, size 1/8-3/16

I did not run levels on the line due to the dense brush and distance of approx. 2000'. The permittee had a test made and found a pressure of 45# at the place of use.

Tied the survey to a Forest Marker set 765' West of the section corner to 4-5-8-9.

J.E.B.

45 lbs pressure = head of 104 ft

Mr. C. A. Franzen
Neskowin, Oregon

Dear Mr. Franzen:

When the representative of this office called on you last summer, you signed the final proof form for Permit No. 13571 which was initially in the name of C. I. Jones.

Before we can procede toward the issuance of a certificate confirming this permit it is necessary that we receive the certificate recording fee in the amount of \$1. The certificate can then be issued and will be forwarded to you after recording in the Tillamook County Records.

Very truly yours,

LEWIS A. STANLEY
State Engineer

Neskowin, Oregon
Feb. 15, 1956

Mr. Stanley,

In answer to your letter of Jan. 24, 1956 concerning the certificate fee in the amount of \$1.00. This fee has been paid.

I have a State Engineer's Receipt dated July 15, 1955. File no. Per 13571. The receipt is signed by State Engineer E. L. Hansen. The amount of \$1.00 was paid in cash to the representative at the time the final proof form was signed. The number of the receipt is No. 04200.

Sincerely,

C. A. Franzen

-2-

November 20, 1968

Item No. 8 on application No. 45506 should then be completed to describe the location of the number of acres by quarter-quarter section and the domestic use.

Item No. 3 on this application must separately designate the quantity of water to be appropriated for each of the two uses.

I am returning your applications numbered 45506 and C-196 for completion. Application No. 45506 is endorsed so that in order to retain its date of priority it must be returned to this office on or before January 20, 1969.

Very truly yours,

CHRIS L. WHEELER
State Engineer

17711
C- 196
45506

November 20, 1968

Chinook Associates, Inc.
Route 1, Box 79
Cloverdale, Oregon 97112

ATTENTION: Lester Fultz, Pres.

Gentlemen:

This will acknowledge receipt of your application for permit to appropriate 0.313 cubic foot of water per second from Lewis Creek for irrigation and domestic use of twenty-five families and the fee of \$20 for which our receipt No. 12083 is enclosed. This application, which has been filed and numbered 45506, requires an additional \$10 recording fee.

Also acknowledged is receipt of your transfer application for change in use theretofore made of water from Lewis Creek, as evidenced by the certificate recorded at page 21142, State Record of Water Right Certificates and the fee of \$15 for which our receipt No. 12084 is enclosed. This application, which has been numbered C-196, requires an additional \$10 recording fee.

It is my understanding that not all of the land described as irrigated by certificate 21142 is to be transferred to domestic use. However, item No. 5 on the application indicates that all of the irrigated land is being transferred.

Item No. 13 on the transfer application should then describe the location of the domestic use and not the number of acres involved. In the section provided for remarks, you should then describe the extent of the domestic use.

A map is required in the form of a reproducible transparency. The map should show the location of the point of diversion in reference to a government survey corner, the specific land being transferred from irrigation to domestic use, the location of the domestic use, and the location of the land to be irrigated under application No. 45506.

April 23, 1969

Chinook Associates, Inc.
Route 1, Box 79
Cloverdale, Oregon 97112

ATTENTION: Lester Fultz, Pres.

Gentlemen:

This will acknowledge the return of your application for a change in use theretofore made of water from Lewis Creek and the map.

Apparently my letter of February 5, 1969 was not clear in pointing out the deficiencies in your application. Items No. 5 and 13 should be clarified as follows:

If the water right appurtenant to the 6.0 acres in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 8 and the 0.5 acre in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 5 as shown in item No. 13 is the portion of the right to be involved in this transfer, only these acreage figures should be shown in item No. 5.

A check mark could merely be placed in the appropriate squares in item No. 13 to designate the place of use of water for the proposed domestic use.

The application indicates a change in use heretofore made of water, so notice of the intended change must be published in a newspaper having general circulation in the county. For this, we require a deposit of \$30.00. Any difference between the actual publication cost and the deposit will be refunded. Will you also give us your choice of newspapers published in Josephine County for publication of notice.

Tillamook

I am returning your application and map for clarification, which should be resubmitted with the deposit for publication.

Very truly yours,

CHRIS L. WHEELER
State Engineer

RE: 45506

December 24, 1969

Chinook Associates, Inc.
Route 1, Box 79
Cloverdale, Oregon 97112

ATTENTION: Lester Fultz, Pres.

Dear Mr. Fultz:

This will acknowledge the return of application No. 45506 and the transparency map amended to designate the use as being 45 family domestic.

I am afraid that I have misunderstood the purpose of this application since it was submitted. In examining the properly completed transfer application, I find that application No. 45506 is only for domestic use during the nonirrigation season.

Therefore, if you would give us written authorization to amend application No. 45506 to designate this as the use and delete all reference to the irrigation of new lands, the application would then be in satisfactory form.

I will withhold further action on this application pending your reply.

Very truly yours,

Larry W. Jebousek
Assistant

Mr. C. I. Jones
Neskowin, Oregon

Dear Mr. Jones:

We are enclosing herewith for completion, final proof in connection with the incomplete water right represented by your Permit No. 13571, granting the right to the use of 0.313 second-foot of water from Lewis Creek for irrigation of 25 acres of land.

If you agree with the figures on the proof, which are based on our survey, you should sign the proof on the second sheet at the place checked in red and return it to this office at once with the statutory fee of \$1.00 for recording certificate when issued. With the proof you should submit the legal description of the property figuring in the water right as this description appears on your deed, abstract or contract.

The figures on the proof indicate the extent and limit of your water right as provided by law, and mark the completed right.

In the interest of economy and due to the fact that your completed project was examined by a representative of this office, it is not considered necessary that your signature be made before a notary public, nor that the signatures of witnesses be affixed to the proof.

Yours very truly,

CHAS. E. STRICKLIN
State Engineer

Dear Mr. Jones:

We are enclosing herewith for completion, final proof in connection with the incomplete water right represented by your Permit No. 13571, granting the right to the use of 0.313 second-foot of water from Lewis Creek for irrigation of 25 acres of land.

If you agree with the figures on the proof, which are based on our survey, you should sign the proof on the second sheet at the place checked in red and return it to this office at once with the statutory fee of \$1.00 for recording certificate when issued. With the proof you should submit the legal description of the property figuring in the water right as this description appears on your deed, abstract or contract.

The figures on the proof indicate the extent and limit of your water right as provided by law, and mark the completed right.

In the interest of economy and due to the fact that your completed project was examined by a representative of this office, it is not considered necessary that your signature be made before a notary public, nor that the signatures of witnesses be affixed to the proof.

Yours very truly,

Chas. E. Stricklin
