- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application.
- I cannot use water legally until the Water Resources Department issues a permit.
- Oregon law requires that a permit be issued before beginning construction of any proposed well, unless the use is exempt. Acceptance of this application does not guarantee a permit will be issued.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land-use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water-right holders to get water to which they are entitled.

**SECTION 4: SENSITIVE, THREATENED OR ENDANGERED FISH SPECIES PUBLIC INTEREST INFORMATION**

This information must be provided for your application to be accepted as complete. The Water Resources Department will determine whether the proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened or endangered fish species if your proposed groundwater use is determined to have the potential for substantial interference with nearby surface waters.

To answer the following questions, use the map provided in Attachment 3 or the link below to determine whether the proposed point of appropriation (POA) is located in an area where the Upper Columbia, the Lower Columbia, and/or the Statewide public interest rules apply.

For more detailed information, click on the following link and enter the TRSQQ or the Lat/Long of a POA and click on "Submit" to retrieve a report that will show which section, if any, of the rules apply:

[https://apps.wrd.state.or.us/apps/misc/lkp\\_trsqq\\_features/](https://apps.wrd.state.or.us/apps/misc/lkp_trsqq_features/)

If you need help to determine in which area the proposed POA is located, please call the customer service desk at (503) 986-0801.

Is the well or proposed well located in an area where the Upper Columbia Rules apply?

Yes  No

OWRD

**If yes, you are notified** that the Water Resources Department will consult with numerous federal, state, local and tribal governmental entities so it may determine whether the proposed use is consistent with the "Columbia River Basin Fish and Wildlife Program" adopted by the Northwest Power Planning Council in 1994 for the protection and recovery of listed fish species. The application may be denied, heavily conditioned, or if appropriate, mitigation for impacts may be needed to obtain approval for the proposed use.

**If yes, and if the Department determines that proposed groundwater use has the potential for substantial interference with nearby surface waters:**

- I understand that the permit, if issued, will not allow use during the time period April 15 to September 30, except as provided in OAR 690-033-0140.
- I understand that the Department of Environmental Quality will review my application to determine if the proposed use complies with existing state and federal water quality standards.
- I understand that I will install and maintain water use measurement and recording devices as required by the Water Resources Department, and comply with recording and reporting permit condition requirements.

**Lower Columbia - OAR 690-033-0220 thru -0230**

Is the well or proposed well located in an area where the Lower Columbia rules apply?

Yes  No

**If yes, and the proposed groundwater use is determined to have the potential for substantial interference with nearby surface waters you are notified** that the Water Resources Department will determine, by reviewing

recovery plans, the Columbia River Basin Fish and Wildlife Program, and regional restoration programs applicable to threatened or endangered fish species, in coordination with state and federal agencies, as appropriate, whether the proposed use is detrimental to the protection or recovery of a threatened or endangered fish species and whether the use can be conditioned or mitigated to avoid the detriment.

If a permit is issued, it will likely contain conditions to ensure the water use complies with existing state and federal water quality standards; and water use measurement, recording and reporting required by the Water Resources Department. The application may be denied, or if appropriate, mitigation for impacts may be needed to obtain approval of the proposed use.

**If yes, you will be required to provide the following information, if applicable.**

Yes  No The proposed use is for more than **one** cubic foot per second (448.8 gpm) and is not subject to the requirements of OAR 690, Division 86 (Water Management and Conservation Plans).

**If yes**, provide a description of the measures to be taken to assure reasonably efficient water use:

**Statewide - OAR 690-033-0330 thru -0340**

Is the well or proposed well located in an area where the Statewide rules apply?

Yes  No

RECEIVED  
MAR 25 2022

**If yes, and the proposed groundwater use is determined to have the potential for substantial interference with nearby surface waters you are notified** that the Water Resources Department will determine whether the proposed use will occur in an area where endangered, threatened or sensitive fish species are located. If so, the Water Resources Department, Department of Fish and Wildlife, Department of Environmental Quality, and the Department of Agriculture will recommend conditions required to achieve “no loss of essential habitat of threatened and endangered (T&E) fish species,” or “no net loss of essential habitat of sensitive (S) fish species.” If conditions cannot be identified that meet the standards of no loss of essential T E fish habitat or no net loss of essential S fish habitat, the agencies will recommend denial of the application unless they conclude that the proposed use would not harm the species.

**SECTION 5: WATER USE**

USE	PERIOD OF USE	ANNUAL VOLUME (ACRE-FEET)
Commercial	Year round	See Remarks

**For irrigation use only:**

Please indicate the number of primary, supplemental and/or nursery acres to be irrigated (*must match map*).

Primary: NA Acres                      Supplemental: NA Acres                      Nursery Use: NA Acres

If you listed supplemental acres, list the Permit or Certificate number of the underlying primary water right(s):

NA

Indicate the maximum total number of acre-feet you expect to use in an irrigation season: NA

- If the use is **municipal or quasi-municipal**, attach **Form M**

- If the use is **domestic**, indicate the number of households: NA (**Exempt Uses:** Please note that 15,000 gallons per day for single or group **domestic** purposes and 5,000 gallons per day for a single **industrial or commercial** purpose are exempt from permitting requirements.)

## SECTION 6: WATER MANAGEMENT

RECEIVED

MAR 25 2022

### A. Diversion and Conveyance

What equipment will you use to pump water from your well(s)?

- Pump (give horsepower and type): Submersible 2.5 Hp  
 Other means (describe):

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water.

Commercial water will be pumped to fill a ballast tank to supply water for a robotic dairy and creamery.

### B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler) (*attach additional sheets if necessary*)

Water for Commercial Use will be pumped to fill a ballast tank to supply water for a robotic dairy and a creamery.

### C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to aquatic life and riparian habitat; prevent the discharge of contaminated water to a surface stream; prevent adverse impact to public uses of affected surface waters (*attach additional sheets if necessary*).

The proposed new commercial use will include a brand new state-of-the-art robotic dairy with completely new infrastructure to make the operation as efficient and water conscious as possible. The milking and cheese processing operation is being built to initially operate at or below the 5,000 GPD exempt use limit until additional water resources are approved. Additionally, water use may be reduced by replacing water with glycol, where possible, in the cooling systems. We're anticipating a herd of 200 animals and using the approved well(s) to provide water for those animals (again, with new equipment in the barns and in the paddocks designed to be as efficient/water conscious as possible). Future expansion of operations may increase water use demands, requiring a ground water permit (under this application) for use exceeding 5,000 GPD.

## SECTION 7: PROJECT SCHEDULE

- Date construction will begin: Within three years after the permit is issued
- Date construction will be completed: Within five years after the permit has been issued
- Date beneficial water use will begin: Within five years after the permit has been issued

## SECTION 8: RESOURCE PROTECTION

In granting permission to use water the state encourages, and in some instances requires, careful control of activities that may affect adjacent waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

- Water quality will be protected by preventing erosion and run-off of waste or chemical products.

Describe: Water will be applied at the appropriate rate and duration to avoid excess use.

- Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas.  
**Note:** If disturbed area is greater than one acre, applicant should contact the Oregon Department of Environmental Quality to determine if a 1200C permit is required.

Describe planned actions and additional permits required for project implementation:  
No streams are located within the place of use, so no banks will need clearing

- Other state and federal permits or contracts required and to be obtained, if a water right permit is granted:  
 List: NA

**SECTION 9: WITHIN A DISTRICT**

- Check here if the point of appropriation (POA) or place of use (POU) are located within or served by an irrigation or other water district.

Irrigation District Name NA	Address	
City	State	Zip

**SECTION 10: REMARKS**

Use this space to clarify any information you have provided in the application (*attach additional sheets if necessary*).

There are other existing water rights covering part of the place of use applied for under this new water right: GR-3351, Certificate 93743, and the commercial part of T-10329 inchoate. A letter of voluntary cancellation for Certificate 93743 and letter to withdraw T-10329 were submitted as part of the application process for GR-3351 modification T-13221 which should remove any conflicts with this application.

Additionally, a previous water right Application, G-18840, will be withdrawn upon the approval of this application.

We understand that commercial use permits are typically not given an annual volume limit; therefore, we did not provide any estimate of annual use.

5. To pay all debts and money, secured hereby, when due; to pay, when due, all taxes, assessments, rents and other charges upon the Property and to suffer no other encumbrance, charge or lien on the Property, which would be superior to this Deed of Trust, except as stated above.
6. To specifically assign and deliver to Beneficiary all rents, royalties, damages and payments of every kind, including without limitation insurance reimbursements and condemnation awards, at any time accruing, for any transfer, loss or seizure of the Property, any portion thereof or any rights therein; Beneficiary may, at its option, apply such amounts in any proportion to any of the indebtedness hereby secured; and application or release of such amounts shall not cure or waive any default or notice of default or invalidate any act done pursuant to such notice.
7. To comply with all laws, ordinances, regulations, covenants, conditions and restrictions affecting the Property and its use, including without limitation all environmental laws; not to use or permit the use of the Property for any unlawful or objectionable purpose or for any purpose that poses an unreasonable risk of harm, or that impairs or may impair the value of the Property, or any part thereof; not to apply residue from waste water treatment facilities to the Property without prior written notice to Beneficiary; to remedy any environmental contamination or violation of environmental laws that may occur or be discovered in the future; to allow Beneficiary access to the Property to inspect its condition and to test and monitor for compliance with applicable laws (any inspections or tests made by Beneficiary shall be for Beneficiary's purposes only and shall not be construed to create any responsibility or liability on the part of Beneficiary to Grantors or to any other person); to forward copies of any notices received from any environmental agencies to Beneficiary; to provide Beneficiary copies of any independent test or inspection reports on the environmental status of the Property; and to indemnify and hold Beneficiary, its directors, employees, agents and its successors and assigns, harmless from and against any environmental claims of any kind, and all costs and expenses incurred in connection therewith, including, without limitation, attorney's fees.
8. That neither Grantors nor, to the best of Grantors' knowledge, any prior owner has created or permitted conditions on the Property, which may give rise to environmental liability; no enforcement actions are pending or threatened; no underground tanks are located on the Property except as already disclosed; any such

underground tanks currently or previously located on the Property do not now and never have leaked and no contaminated soil is located on the Property; and Grantor's representations, warranties, covenants and indemnities herein and in the Loan Documents shall survive satisfaction of the Note(s) and Loan Documents, foreclosure of this Deed of Trust, acceptance of a deed in lieu of foreclosure or any transfer or abandonment of the Property.

9. To perform all terms and conditions of each water or other contract, described above, if any, and to promptly pay all sums due or to become due under each contract so that no delinquency or default will occur under such contract(s); not to apply or enter into any federal, state or local program which limits or restricts the use of the Property, in any way without prior written consent of Beneficiary; to perform all acts necessary to perfect and maintain any water permit, certificate, license or other water interest, however designated, described in or used in conjunction with the real property described above; any assignment of any such interest during the term of this Deed of Trust, naming Beneficiary as an assignee shall be for security purposes and shall not alter Grantors' obligations hereunder; and any failure of Grantors to perform any such obligation shall constitute an event of default.
10. That the term "Grazing Rights," as hereinafter used refers to that portion of the Property, if any, consisting of grazing leases, permits, licenses, privileges, and preferences, or any of them, which have or will be assigned, conveyed or waived to Trustee or Beneficiary, together with any additions, renewals, replacements or substitutions thereof; if any portion of the Grazing Rights is a leasehold interest in state lands, such leasehold shall be considered to be real property; such leasehold and all other real property portions of the Property constitute a single operating unit; and in the event of foreclosure, Beneficiary shall have the right to have such leasehold and the other real property sold as a unit and not in parcels; any statements and representations in any applications for Grazing Rights are true and correct; Grantors have received no notice that the Grazing Rights have or are to be terminated, cancelled or modified; and any termination or cancellation of any of the Grazing Rights shall constitute an event of default under this Deed of Trust.
11. To execute any instrument deemed necessary by the Beneficiary to assign, convey or waive such Grazing Rights to the Trustee; to pay all fees and charges, and to perform all acts and things necessary to preserve and keep in good standing the Grazing Rights; to take no action which would adversely affect the Grazing Rights; to procure renewals of the Grazing Rights upon or prior to their expiration date; to operate the lands covered by the Grazing Rights in conjunction with the other real estate portion of the Property and not to convey or attempt to convey either separately; to forward to Beneficiary copies of any notices received by Grantors regarding the Grazing Rights; and in the event of foreclosure of this Deed of Trust, to waive all claims for preference in the Grazing Rights upon demand from the purchaser of the Property at Trustee's or foreclosure sale, or from any successor to such purchaser.
12. That if the Property is within an irrigation block and/or subject to water service contract(s) governed by the provisions of "Federal reclamation law," and the regulations issued thereunder, Grantors shall comply with the terms and provisions of said laws, regulations and contracts; Grantors, and each of them, for themselves, their heirs, successors and assigns, hereby appoint Beneficiary their attorney-in-fact to select and designate the portion of the property to be subject to a recordable contract, in the event Grantors become subject to the excess land limitation; if Grantors fail to comply with the terms of said law, regulations or contracts, or if the delivery of water for the irrigation of the Property is discontinued in whole or in part, Grantors shall be in default; in the event the Bureau of Reclamation determines that continued drainage maintenance on the Property is no longer feasible, and Grantors purchase other lands offered as a preference purchase right (as an adjustment for wetlands), Grantors shall execute a supplemental deed of trust on such lands in favor of the Beneficiary; and failure to execute such deed of trust on demand, shall constitute an event of default.
13. That in the event of default in any of the covenants or agreements herein, or in any of the Loan Documents, Beneficiary may, at its option, perform the same, in whole or in part; any advances, attorney fees or costs, paid or incurred by Beneficiary to protect or enforce its rights under the Loan Documents, in bankruptcy, appellate

proceedings or otherwise, shall be payable on demand and shall become a part of the obligation secured by this Deed of Trust.

14. That the indebtedness and obligations secured by this Deed of Trust are personal to the Grantors and are not assignable by Grantors; Beneficiary relied upon the credit of Grantors, the interest of Grantors in the Property and the financial market conditions then existing when making this loan; if Grantors sell, transfer or convey or contract to sell, transfer or convey the Property, or any portion thereof, or if the ownership of any corporation or partnership, owning all or any portion of the Property shall be changed either by voluntary or involuntary sale or transfer or by operation of law, without prior written consent of Beneficiary, or if Grantors default in the payment of the indebtedness, or with respect to any warranty, covenant or agreement in the Loan Documents or if a receiver or trustee for any part of the Property is appointed, or if any proceedings under the bankruptcy or insolvency laws is commenced by or against Grantors, or if Grantors become insolvent, or if any action is commenced to foreclose or enforce a lien on any portion of the Property, then, Grantors shall be in default hereunder.
15. That time is of the essence and in the event of default, at Beneficiary's option, the entire indebtedness secured hereby shall forthwith become due and payable and bear interest at the rate set forth in the Loan Documents for delinquent payments; Beneficiary shall have the right to foreclose the lien of this Deed of Trust or to direct Trustee, in writing, to foreclose this Deed of Trust by notice and sale, to have a receiver appointed in any court proceeding, to collect any rents, issues and profits from the Property and to deliver them to Beneficiary to be applied as provided above and to exercise any rights and remedies available under the Uniform Commercial Code for the state in which the property is located; and reasonable notice if required by such Code shall be five (5) days.
16. That Beneficiary may from time to time, in writing and without further notice or consent, release any person from liability for payment of any of the indebtedness or extend the time or otherwise alter the terms of payment of any of the indebtedness; and Trustee may, with written consent of Beneficiary, at any time and from time to time, and without affecting the liability of any person:
  - a. Join in any subordination or other agreement affecting this Deed of Trust or lien or charge thereof.
  - b. Reconvey, without warranty, any or all of the Property.
17. That after all sums secured hereby have been paid, upon receipt of the Deed of Trust and note and payment of its fees, Trustee shall reconvey without warranty the Property, as provided by law. The grantee in such reconveyance may be described as "the person or persons legally entitled thereto."
18. That, in the event of foreclosure of this Deed of Trust by notice and sale, the power of sale shall be exercised by the Trustee according to and under the authority of the law pertaining to deeds of trust then in effect in the state in which the Property is situated; Trustee shall deliver to purchaser its deed, without warranty, containing recitals demonstrating compliance with the requirements of such law.
19. To surrender possession of such premises within the time period provided by law; in the event Beneficiary is purchaser of the Property and possession is not delivered, as provided by law, to pay Beneficiary the costs and the expenses, including reasonable attorney fees, incurred in any suit or action by Beneficiary to obtain possession of the premises.
20. That Trustee accepts this trust when this deed, duly executed and acknowledged is recorded as provided by law; any Trustee lawfully appointed by Beneficiary as a substitute or successor Trustee shall succeed to all the powers and duties of the Trustee named herein; Trustee is not obligated to notify any party hereto of the pending sale under any other deed of trust or any action or proceeding in which Grantors, Trustee, or Beneficiary shall be a party unless such action or proceeding is brought by Trustee.
21. That as used herein, the term "Deed of Trust" shall be synonymous with the terms "trust indenture" and "trust deed"; the term "Grantors" shall be synonymous with the term "Trustors" as used in any of the laws of the state

in which the Property is situated; the term "Beneficiary" shall mean the holder and owner of any Note secured hereby, or if any Note(s) has been pledged, the pledgee thereof. OWRD

22. That the failure of Beneficiary to exercise any right or option provided herein, at any time shall not preclude Beneficiary from exercising any of such rights at any other time; the covenants and agreements contained herein shall be binding on and inure to the benefit of the parties and their respective heirs, successors and assigns; all rights conferred on Beneficiary or on Trustee are cumulative and additional to any rights conferred by law; and if any provision is found to be invalid or unenforceable, such invalidity or unenforceability shall not affect any other provision hereof and the Deed of Trust shall be construed as though such provision had been omitted.
23. That Grantors and each of them join in this instrument for the purpose of subjecting each of their right, title and interest, if any, in the Property, whether of record or otherwise and including any right to possession, to the lien of this Deed of Trust. All Exhibits hereto, if applicable, are incorporated herein and made a part of this Deed of Trust.
24. That Grantors warrant that Grantors' state of formation is the State of Oregon; Grantors' state of residence is the State of Oregon; and Grantors' exact legal name is as set forth in the first paragraph of this Deed of Trust.
25. This Deed of Trust is intended to serve as a Fixture filing pursuant to the terms of the applicable Uniform Commercial Code. This Deed of Trust is to be recorded in the real estate records of each County in which the Land is located. In that regard, Grantor is Debtor and Beneficiary is Secured Party.
26. The following disclosure is made by Beneficiary and Trustee to Grantor pursuant to ORS 746.201:

#### WARNING

Unless you provide us with evidence of the insurance coverage as required by this Deed of Trust and the other Loan Documents, Beneficiary or Trustee may purchase insurance at your expense to protect its interest. This insurance may, but may not also protect your interest. If the collateral becomes damaged, the coverage Beneficiary or Trustee purchases may not pay any claim you make or any claim made against you. You may later request that Beneficiary cancel this coverage by providing evidence that you have obtained property coverage elsewhere.

You are responsible for the cost of any insurance purchased by Beneficiary or Trustee. The cost of this insurance may be added to your contract or loan balance. If the cost is added to your contract or loan balance, the interest rate on the underlying contract or loan will apply to this added amount. The effective date of coverage may be the date your prior coverage lapsed or the date you failed to provide proof of coverage.

The coverage Beneficiary or Trustee purchases may be considerably more expensive than insurance you can obtain on your own and may not satisfy any need for property damage coverage or any mandatory liability insurance requirements imposed by applicable law.

27. Trustee shall reconvey the Property, without warrant, to the person or persons legally entitled to it upon (a) written request of Beneficiary stating that all indebtedness has been paid and fully performed, which shall be in substantially the form of Exhibit A attached hereto and incorporated herein, (b) surrender by Beneficiary of this Deed of Trust, and (c) payment by Grantor of Trustee's fees and the costs and expenses of executing and recording any requested reconveyance. The grantee in any such reconveyance may be described as "the person or persons legally entitled thereto."

ORAL AGREEMENTS OR ORAL COMMITMENTS TO LOAN MONEY, EXTEND CREDIT, OR TO FORBEAR FROM ENFORCING REPAYMENT OF A DEBT ARE NOT ENFORCEABLE UNDER WASHINGTON LAW.
