Salem, Oregon 97301-1271

RE: Application G-19017

Dear Lisa:

GSI Water Solutions, Inc. (GSI) is providing this correspondence on behalf of the Applicant, Kristof Farms, in regards to the Department's Initial Review of Application G-19017 dated September 17, 2021.

Following discussions with a well driller, the option of repairing the existing well (Well 1, YAMH 1409) will not be practical, and so the Applicant would like to remove Well 1 from Application G-19017. Hence, the Applicant would like to revise the application to request the use of Well 2 only for the requested 0.02 cfs of groundwater use for irrigation of 7.5 acres.

After incorporation of the requested revision, the Applicant requests that the Department remove the administrative hold on the revised application.

Thank you for your assistance with this application and please do not hesitate to contact me with questions.

Sincerely,

A handwritten signature in blue ink that reads "Theodore R. Ressler".

Theodore R. Ressler, RG, CWRE
GSI Water Solutions, Inc.
