Form C (690-9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Application No. 56029

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

JAMES C. KALPAS, the holder of Permit No. 42375

appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 5th day of May, 1980.

Remarks: _____

IN WITNESS WHEREOF, I have hereunto set my hand this 20th day of Sept., 1980.

STATE OF OREGON
COUNTY OF JOSEPHINE
PROPOSED CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

JAMES C. KALFAS
1960 EAST FORK ROAD
WILLIAMS, OREGON 97544

confirms the right to use the waters of AN UNNAMED STREAM AND KALFAS RESERVOIR CONSTRUCTED UNDER PERMIT R-6708, a tributary of EAST FORK WILLIAMS CREEK, for the purpose of SUPPLEMENTAL IRRIGATION OF 20.0 ACRES.

The right has been perfected under Permit 42375. The date of priority is JUNE 6, 1977. The right is limited to not more than 0.25 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

NW 1/4 SE 1/4 SECTION 10, TOWNSHIP 39 SOUTH, RANGE 5 WEST, W.M.; 1175 FEET SOUTH AND 640 FEET EAST FROM C1/4 CORNER SECTION 10.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4.5 acre-feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage. The right shall be limited to any deficiency in the available supply of any prior right for the same land and shall not exceed the limitation allowed herein.

The right shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is as follows:

NW 1/4 SE 1/4 20.0 ACRES
SECTION 10
TOWNSHIP 39 SOUTH, RANGE 5 WEST, W.M.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described. The right is subject to minimum flows established by the Water Resources Commission with an effective date prior to this right.

Dear Mr. Kalfas:

Thank you for the return of corrected application 56029.

Water from the Applegate River and its tributaries will not always be available during dry periods due to the requirements of existing water rights and established minimum flows.

Your applications are now in satisfactory form for issuance of permits.

Sincerely

Donald R. Buell
Water Rights Engineer

File No. R-56028
56029

October 4, 1977

James C. Kalfas
1960 East Fork Road
Williams, OR 97544

Dear Mr. Kalfas:

We have received your application for a permit to store 4.0 acre feet of water from an unnamed stream and Clapboard Gulch for irrigation and the fee of \$30.00 for which our receipt No. 61064 is enclosed. This application has been filed and assigned No. R-56028.

We have also received your application for a permit to appropriate 0.25 cubic foot per second of water from the reservoir for supplemental irrigation of 20.0 acres and 0.01 cubic foot per second of water from Clapboard Gulch for reservoir maintenance, a map, and the fee of \$30.00 for which our receipt No. 61065 is enclosed. This application has been filed and assigned No. 56029.

Item No. 1 of your secondary application lists Clapboard Gulch, reservoir, and the unnamed stream as sources, but you do not list an amount of water from the stream under item No. 4.

Items No. 4, 5, and 6 list reservoir maintenance as a use of water. Water is stored for irrigation purposes prior to the start of the irrigation season. Water from Clapboard Gulch and the unnamed stream would be used for irrigation until it became in short supply. At that time water from the reservoir would be appropriated and not be replaced until after the end of the irrigation season. Unless there is an in-reservoir use such as fish culture, which would require an additional fee, the quantity of water for this use should be deleted from the above items on your application.

James C. Kalfas

October 4, 1977

I am returning application 56029 to you for correction and completion. It has been endorsed so that it must be received in this office on or before December 5, 1977 to retain the priority date.

Sincerely

Donald R. Buell
Water Rights Engineer
