

# Memorandum

**Oregon Water Resources  
Department  
Water Rights Service Division**

To: LL-1926 & LL-1927 (Madison Ranches Inc.)

From: Mary Bjork

Date: 6-23-2022

Regarding: Water Availability Statement – additional language

---

On June 16, 2022, Greg Silbernagel - Watermaster, District 5, submitted the following additional language to be included as part of his Water Availability Statement for the referenced limited licenses:

“No water may be diverted when the Butter Creek Management Plan is in effect. This is because permitted rights do not participate in the accumulation/rotation plan associated with the Butter Creek Management Plan. Diversion under this limited license would be a junior user to these permitted rights.”
