Reference: Application R-76195, Certificate 70155  
Application S-76196, Permit S-53699

Regarding Application S-76196, Permit S-53699, the assignment from John Thoming and Jim Thoming to American AgCredit, PCA, has been recorded in the records of the Water Resources Department. Under the terms of this permit, a Claim of Beneficial Use and Final Proof Survey performed by a Certified Water Rights Examiner is due by October 1, 2005. As of this date, there is no record of this being completed. This Claim of Beneficial Use and Final Proof Survey allows the Department to move forward with the issuance of a final Certificate. Failure to provide this claim can put the permit at risk for cancellation.

Regarding Application R-76195, Certificate 70155, a certificate of water right has been issued and under Oregon water law, this right is appurtenant to the land for which it is issued, and therefore no assignment is required for this right. Therefore I am refunding \$25.00 as excess fees. Enclosed please our refund check in the amount of \$25.00

Our records have been changed accordingly and the original request is enclosed. Receipt number 77293 covering the recording fee of \$25.00 is also enclosed.

Sincerely,

Jerry Sauter  
Water Rights Program Analyst
