

STATE OF OREGON

COUNTY OF LAKE

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

STEVE SPHAR
PO BOX 182
SILVER LAKE OR 97638

confirms the right to store water perfected under the terms of Permit R-13665. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-85522

SOURCE OF WATER: BRIDGE CREEK, A TRIBUTARY OF SILVER CREEK

STORAGE FACILITY: UNNAMED RESERVOIR

PURPOSE OR USE OF THE STORED WATER: MULTIPLE PURPOSE

MAXIMUM STORAGE VOLUME: 8.98 ACRE-FEET EACH YEAR

WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD: YEAR ROUND

DATE OF PRIORITY: APRIL 1, 2003

The dam is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
29 S	13 E	WM	3	NW NE	680 FEET SOUTH AND 1900 FEET WEST FROM NE CORNER, SECTION 3

The area submerged by this reservoir is as follows:

Twp	Rng	Mer	Sec	Q-Q
28 S	13 E	WM	35	NE SW
28 S	13 E	WM	35	NW SW
28 S	13 E	WM	35	SW SW
28 S	13 E	WM	35	SE SW
29 S	13 E	WM	2	NW NW
29 S	13 E	WM	3	NE NE
29 S	13 E	WM	3	NW NE

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device as approved by the Director in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provision of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

The water user shall pass all live flow outside the storage season described above.

This right does not provide for the appropriation of water for any out of reservoir uses, the maintenance of the water level or maintaining a suitable fresh water condition. If any water is used for out of reservoir uses, or any live flow is appropriated to maintain either the water level or a suitable freshwater condition, a secondary water right is required.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The water user shall maintain and operate fish screening to prevent fish from entering the diversion. The water user shall also maintain and operate a fishway at the obstruction that will provide adequate upstream and downstream passage for fish.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

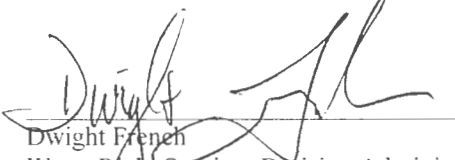

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

This right does not authorize the water right holder to pursue this right in such a way as to interfere with or affect adjacent property not under the ownership of the water right holder.

The right to store water for the above purpose is restricted to beneficial use at the place of use described.

Issued NOV 04 2016

Dwight French
Water Right Services Division Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department

Oregon
Kate Brown, Governor

Water Resources Department
725 Summer St NE, Suite A
Salem, OR 97301
(503) 986-0900
Fax (503) 986-0904

DATE MAILED: November 4, 2016

NOTICE OF CERTIFICATE ISSUANCE

The attached certificate confirms the water right established under the terms of a permit issued by this Department. The water right is now appurtenant to the specific place where the use was established as described by the certificate. The water right is limited to a specific amount of water, but not more than can be beneficially used for the purposes stated within the certificate.

The certificate is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Oregon law does not allow the Director to reissue a certificate because of a change in the ownership of the appurtenant place of use. The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If any portion of this water right is not used for five or more consecutive years that portion of the right may be subject to forfeiture according to ORS 540.610. Land enrolled in a Federal Reserve Program is not subject to forfeiture during the period of enrollment. Other exceptions to forfeiture are explained in ORS 540.610.

If you have any questions please contact Gerry Clark at 503-986-0811.

NOTICE

Reference: Application R-85522 Permit R-13665

Enclosed is a proposed certificate of water right and a map. The map and proposed certificate represent the extent water was stored based upon a Claim of Beneficial Use, that either you or a previous permit holder submitted.

The certificate is the final step in the water right process. The Department encourages you to review this proposal. If you do not agree with the proposed certificate, Oregon Administrative Rule 690-330-010 (2) allows the permittee or landowner 60 days from the mailing date of this notice to request the Department to reconsider the contents of the proposed certificate.

If you agree with the proposed certificate, no response to this notice is required. Sometime after comment period, the recorded certificate of water right will be mailed to the permit holder of record.

If your name is not listed on the proposed certificate, and you are the current landowner, and would like to have the final certificate issued in your name, you may apply through the Department to have the permit assigned to you. If you have any questions about the assignment process, please contact Jerry Sauter at 503-986-0817.

If you have any questions please contact Gerry Clark at 503-986-0811.

Sincerely,

Dwight French

Intake Checklist

Does a secondary permit exist for use of water under this permit at the time of this submittal?

YES NO (If "Yes", this self certification cannot be accepted. The Claim must be prepared by a CWRE for both the reservoir and the secondary use permit.)

Are reservoir dimensions included? YES NO

Signed by all permittees? YES NO (Must be signed by all permittees. If not, Assignment may be needed).

Was a map included? YES NO (Must Identify Location of the Reservoir)

Processing Notes and Conclusions

The Claimed maximum capacity of the reservoir in acre feet is: 8.98 $\frac{325.5 \times 171.5 \times 7}{43560} = 8.970$

The Permitted capacity of the reservoir in acre feet is: 9.0

Is this reservoir located within an "Area of Interest"? YES NO

Identified Party NA

Current Ownership Check:

Does the County Assessor indicate that there is a new landowner? YES NO

(If new owners, indicate name and mailing address below)

**CLAIM OF
BENEFICIAL USE
for Reservoirs storing less than
9.2 acre-feet permitted under
ORS 537.409**

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.wrd.state.or.us

**A fee of \$175 must accompany this form.
The Claim will be returned if the fee is not included.**

This form may be completed by the permit holder of record if:

- 1) The permit was issued under the authority of ORS 537.409.
- 2) No secondary permit exists for the use of water stored in the reservoir.
- 3) The developed capacity of the reservoir is less than 9.2 acre-feet.
- 4) The water was stored by the date required in the permit.

A separate form shall be completed for each permit.

This form must be submitted to the Water Resources Department within one year of storage of water in the reservoir.

Please type or print in dark ink. If the data provided is found to contain errors or omissions, it may be returned. The Department may require the submittal of additional information.

If you have questions regarding the completion of this form, please call 503-986-0900 and ask for the Certificate Section.

PERMIT R-13665

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provision of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

The permittee shall pass all live flow outside the storage season described above.

This permit does not provide for the appropriation of water for any out of reservoir uses, the maintenance of the water level or maintaining a suitable fresh water condition. If any water is used for out of reservoir uses, or any live flow is appropriated to maintain either the water level or a suitable freshwater condition, a secondary water right is required.

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion. The permittee shall

Oregon Water Resources Department

Water Rights Application
Number R-85522

Final Order

Appeal Rights

This is a final order in other than contested case. Pursuant to ORS 537.409(9), ORS 183.484, OAR 137-004-080 and OAR 690-01-005, you may either petition the Director for reconsideration of this order or petition for judicial review of this order. Any petition for judicial review of the order must be filed within the 60 day time period specified by ORS 183.484(2).

Application History

On APRIL 01, 2003, STEVE SPHAR submitted an application to the Department for a water use permit. Pursuant to ORS 537.409, the Department provided public notice of the application in the Department's weekly public notice. A 60 day comment period followed.

The Department **has not** received adverse comments related to the possible issuance of the attached permit.

The Department **has** received comments from Oregon Department of Fish and Wildlife related to the possible issuance of the attached permit. Permit Number R-13665 is conditioned to address the issues raised in those comments.

Water is available for the proposed use as described in the attached permit.

The use, as described on the attached permit, will not injure any existing water rights and does not pose potential detrimental impacts to existing fishery resources.

Therefore, the proposed use would not impair or be detrimental to the public interest.

Order

Application R-85522 therefore is approved pursuant to ORS 537.409, and Permit Number R-13665 is issued as limited by the conditions contained therein.

DATED July 16, 2003

Paul R. Cleary
Director

STATE OF OREGON

COUNTY OF LAKE

PERMIT TO CONSTRUCT A RESERVOIR AND STORE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

STEVE SPHAR
PO BOX 182
SILVER LAKE, OR 97638

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-85522

SOURCE OF WATER: BRIDGE CREEK, A TRIBUTARY OF SILVER CREEK

STORAGE FACILITY: UNNAMED RESERVOIR

PURPOSE OR USE OF THE STORED WATER: MULTIPLE PURPOSE

MAXIMUM STORAGE VOLUME: 9.0 ACRE FEET EACH YEAR

WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD: YEAR ROUND

DATE OF PRIORITY: APRIL 01, 2003

DAM LOCATION: NW 1/4 NE 1/4, SECTION 3, T29S, R13E, W.M.; 680 FEET SOUTH
& 1900 FEET WEST FROM NE CORNER, SECTION 3

THE AREA TO BE SUBMERGED BY THE RESERVOIR IS LOCATED AS FOLLOWS:

NE 1/4 SW 1/4
NW 1/4 SW 1/4
SW 1/4 SW 1/4
SE 1/4 SW 1/4
SECTION 35

TOWNSHIP 28 SOUTH, RANGE 13 EAST, W.M.

NW 1/4 NW 1/4
SECTION 2
NE 1/4 NE 1/4
NW 1/4 NE 1/4
SECTION 3

TOWNSHIP 29 SOUTH, RANGE 13 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provision of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

The permittee shall pass all live flow outside the storage season described above.

This permit does not provide for the appropriation of water for any out of reservoir uses, the maintenance of the water level or maintaining a suitable fresh water condition. If any water is used for out of reservoir uses, or any live flow is appropriated to maintain either the water level or a suitable freshwater condition, a secondary water right is required.

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion. The permittee shall

also install a fishway at the obstruction that will provide adequate upstream and downstream passage for fish. The permittee may submit evidence that the Oregon Department of Fish and Wildlife (ODFW) has determined screens and/or fishways are not necessary. The required screens and fishways are to be in place, functional, and approved by ODFW before diversion of any water.

STANDARD CONDITIONS

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

This permit does not authorize the permit holder to pursue this right in such a way as to interfere with or affect adjacent property not under the ownership of the permit holder.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 2007.

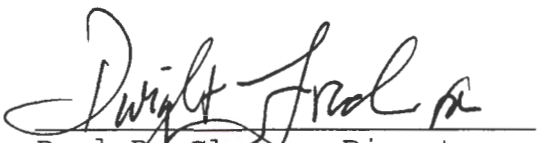

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use to the Oregon Water Resources Department.

The claim of beneficial use shall be prepared by a Certified Water Right Examiner in conformance with the requirements of OAR 690-014 if an associated secondary permit exists for the use of stored water under this permit, or if the reservoir stores 9.2 or more acre-feet of water.

If no secondary permit exists and the reservoir stores less than 9.2 acre-feet of water, the claim of beneficial use need not be prepared by a Certified Water Right Examiner. The information submitted to the Oregon Water Resources Department shall include:

- (a) the dimensions of the reservoir;
- (b) the maximum capacity of the reservoir in acre-feet; and
- (c) a map identifying the location of the reservoir prepared in compliance with Water Resource Department standards.

Issued July 16, 2003

Paul R. Cleary, Director
Water Resources Department

REAL ESTATE TRANSACTIONS: Pursuant to ORS 537.330, in any transaction for the conveyance of real estate that includes any portion of the lands described in this permit, the seller of the real estate shall, upon accepting an offer to purchase that real estate, also inform the purchaser in writing whether any permit, transfer approval order, or certificate evidencing the water right is available and that the seller will deliver any permit, transfer approval order or certificate to the purchaser at closing, if the permit, transfer approval order or certificate is available.

CULTURAL RESOURCES PROTECTION LAWS: Permittees involved in ground-disturbing activities should be aware of federal and state cultural resources protection laws. ORS 358.920 prohibits the excavation, injury, destruction or alteration of an archeological site or object, or removal of archeological objects from public and private lands without an archeological permit issued by the State Historic Preservation Office. 16 USC 470, Section 106, National Historic Preservation Act of 1966 requires a federal agency, prior to any undertaking to take into account the effect of the undertaking that is included on or eligible for inclusion in the National Register. For further information, contact the State Historic Preservation Office at 503-378-4168, extension 232.

PO Box 182
Silverlake OR 97638

On September 10, 2015, the Water Resources Department received the Claim of Beneficial Use (COBU) for the following file(s):

Application R-85522 Permit-R-13665

The COBU included a report and map. In the future the Department will review your submittal. At that time we will review these items and provide a final certificate, proposed certificate, or a request for additional information.

If you are interested in having your COBU reviewed sooner, you may pay to have your file processed immediately, using the Reimbursement Authority program, which is described at: http://www.wrd.state.or.us/OWRD/mgmt_reimbursement_authority.shtml

Customer Service phone: (503) 986-0801

If you sell the property, please contact the Department, or have the new owners contact the Department about the need to file an assignment.

Return receipt requested

STEVE J. SPHAR
PO BOX 182
SILVER LAKE, OR 97638

Reference: Application R-85522, Permit R-13665

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 2007.

In order for the Department to consider issuance of a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use that includes a final proof survey map of the development. The map and claim of beneficial use were to have been submitted to our Department within one year of October 1, 2007. The fee for submitting a claim of beneficial use is \$175.00. Please see the enclosed 'Resource Sheet' for our current database of CWRE's.

If you are not finished with the development of your permit, you need to file an application for an extension of time to complete your development. The fee for filing an extension of time is \$575.00. Please see the enclosed 'Resource Sheet' to access the extension of time form.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. Please see the enclosed 'Resource Sheet' to access the cancellation form, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time for your permit within 60 days of the date of this letter (October 16, 2015) the Department may issue a Final Order to cancel your permit without further notice. If the Department issues a Final Order to cancel your permit, and you request reconsideration of the final order and reinstatement of your permit, there is a \$450.00 reinstatement fee that is charged in addition to the claim of beneficial use or extension of time fee.

Should you have any questions, please contact Corey Courchane by telephone at 503-986-0825, Mabelle Bamberger by telephone at 503-986-0802, or myself at the address above or by telephone at 503-986-0817.

Sincerely,

Jerry Sauter
Water Rights Program Analyst

Talked with Mr. Sphar. Fixed Map and App. Form Over phone.

Dear Applicant:

NOTE: Mr. Sphar is working with MR. DAVE ROE (WATER MASTER DST#12)

The Water Resources Department has received your application to store water under the Alternate Review Process (ORS 537.409) At this time we are unable to accept your application because it does not meet minimum filing requirements.

Please provide the following information:

- The application that you submitted is not the correct application form. Please fill out the enclosed, "Application for a Permit to Construct a Reservoir." The alternate permit application process is for qualifying reservoirs only. To use this type of application form, it requires your reservoir to be less than 9.2 acre feet of storage or your dam height to be less than 10 feet; of which, your reservoir is at both 9.2 acre feet and dam height is 10 feet. One of the two (9.2 acre-feet or 10 feet height) must fall below the above-mentioned requirements in order to qualify for the alternate reservoir process.

Examples of Qualifying Reservoirs under the "Alternate Review Process" are as follows:

- Storage capacity of 15 acre-feet and dam height of 9.9.
Or
- Dam height of 7.9 and storage capacity of 200 acre-feet.
Or
- Storage capacity of 9.1 acre-feet and a dam height of 14 feet.

The above are examples of "Qualifying Reservoirs" for the "Alternate Review Process (ORS 537.409)

BEN CAR

app # R-85522

- Please fill out the enclosed "Land Use Information Form" and have it signed by your local planning official.

Please provide a map containing the following information:

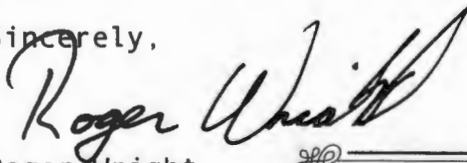

- The location of your reservoir or dam must be referenced to a recognized public land survey corner; do not measure from property lines unless they are part of the public land survey lines. The locations may be shown by distance and bearing. (EX: 400 feet south and 350 feet west of the Northeast corner of section 27).
- The scale of the map must be a standard, even scale of not less than 4 inches to a mile, and must be indicated on the map. Note: We realize that you did submit a map of the right scale, but I believe that your reservoir is not in that same section.

Note: Please return any corresreservoirence received by us so that we may accelerate the processing of your application.

Your application and supporting data and check for \$92.00 are being returned. We can begin processing your application when the information noted above is received.

If you have any questions about the application procedure for Alternate Reservoirs or general water right questions, you may call the Water Rights Information Group (WRIG) at: (503)378-8455 extension 273.

Sincerely,

Roger Wright

3. WATER USE

Indicate the proposed use(s) of the stored water. **NOTE: You may wish to consider filing for "Multipurpose use" for your reservoir. Multipurpose use does not limit the types of future uses for the stored water. Multipurpose covers all uses including: stockwater, fish and wildlife, aesthetics, domestic, irrigation, agriculture, fire protection and pollution abatement.** If any use will be out of reservoir use, regardless of the type of storage listed, a secondary application must be filed to appropriate the stored water.

4. PROPERTY OWNERSHIP

RECEIVED

JAN 08 2003

WATER RESOURCES DEPT.
SALEM, OREGON

Do you own all the land where you propose to divert, transport, and use water?

- Yes (Skip to section 5)
- No Please check the appropriate box below.
 - I have a recorded easement or written authorization permitting access.
 - I do not currently have written authorization or an easement permitting access to lands not under my ownership.

List the names and mailing addresses of all affected landowners*:

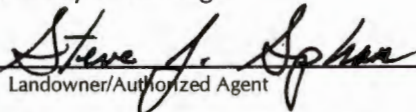

* If more than 25 landowners are involved, a list is not required. Alternative notice may be made.

5. ENVIRONMENTAL IMPACT

- A. Channel:** Is the reservoir in stream or off channel ?
 - B. Wetland:** Is the project in a wetland? Yes No Don't know
 - C. Existing:** Is this an existing reservoir? Yes No If yes, how long has it been in place? _____ years.
 - D. Fish Habitat:** Is there fish habitat upstream of the proposed structure? Yes No Don't know. If yes, how much? _____ miles.
 - E. Partnerships:** Have you been working with other agencies? Yes No
- Indicate agency, staff and phone numbers of those involved. Also indicate any agencies that are cost sharing in this project.

6. SIGNATURE

I attest that all statements made and information provided in this application are true and correct to the best of my knowledge.

Landowner/Authorized Agent

NOV. 1 - 02
Date

Before you submit your application be sure you have:

- Answered each question completely.
- Included a legible map which includes Township, Range, Section, quarter-quarter and tax lot number. The map must meet map requirements to be accepted.
- Included a land use form or receipt stub signed by a local planning official.
- Included a check payable to Oregon Water Resources Department for the appropriate amount.

FEE STRUCTURE: The fee is based on the number of acre-feet proposed to be stored. The fee is \$10 per Acre-Foot. Example: 0.3 AF = \$3.00; 1.5 AF = \$15.00; 20.0 AF = \$100
Maximum fee is \$100 for any reservoir storing more than 10 Acre-Feet

STATE OF OREGON
COUNTY OF LAKE
CERTIFICATE OF WATER RIGHT

This Is to Certify, That JAMES H. OR LORRAINE D. SPHAR

of Silver Lake, State of Oregon, 97638, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of Bridge Creek

a tributary of Silver Creek for the purpose of irrigation of 14.5 acres

under Permit No. 36203 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from May 7, 1971 that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.18 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the Lot 2 (NW $\frac{1}{4}$ NE $\frac{1}{4}$), Section 3, T. 29 S., R. 13 E., W. M., 590 feet South and 1750 feet West from the NE Corner, Section 3

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

- 5.2 acres NE $\frac{1}{4}$ SW $\frac{1}{4}$
- 2.6 acres SW $\frac{1}{4}$ SW $\frac{1}{4}$
- 2.0 acres SE $\frac{1}{4}$ SW $\frac{1}{4}$
- Section 35
- T. 28 S., R. 13 E., W. M.
- 0.7 acre Lot 4 (NW $\frac{1}{4}$ NW $\frac{1}{4}$)
- Section 2
- 4.0 acres Lot 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$)
- Section 3
- T. 29 S., R. 13 E., W. M.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described. and is subject to the existing minimum flow policies established by the Water Policy Review Board.

- B. Wetland:** Is the project in a wetland? Yes No Don't know
- C. Existing:** Is this an existing reservoir? Yes No If yes, how long has it been in place? 50 years.
- D. Fish Habitat:** Is there fish habitat upstream of the proposed structure? Yes No Don't know. If yes, how much? _____ miles.
- E. Partnerships:** Have you been working with other agencies? Yes No

Indicate agency, staff and phone numbers of those involved. Also indicate any agencies that are cost sharing in this project.

6. SIGNATURE

I attest that all statements made and information provided in this application are true and correct to the best of my knowledge.

Steve J. Spahn
Landowner/Authorized Agent

Nov. 1 - 02
Date

Before you submit your application be sure you have:

- Answered each question completely.
- Included a legible map which includes Township, Range, Section, quarter-quarter and tax lot number. The map must meet map requirements to be accepted.
- Included a land use form or receipt stub signed by a local planning official.
- Included a check payable to Oregon Water Resources Department for the appropriate amount.

FEE STRUCTURE: The fee is based on the number of acre-feet proposed to be stored. The fee is \$10 per Acre-Foot. Example: 0.3 AF = \$3.00; 1.5 AF = \$15.00; 20.0 AF = \$100
Maximum fee is \$100 for any reservoir storing more than 10 Acre-Feet

ODFW ALTERNATE RESERVOIR APPLICATION REVIEW SHEET

Recommendations for Water Right Applications under the Alternate Reservoir review process (ORS 537.409)

In lieu of the water right application process set forth in ORS 537.140 to 537.211, an owner of a reservoir may submit an alternate reservoir application for a reservoir that has a storage capacity less than 9.2 acre-feet or a dam or impoundment structure less than 10 feet in height. ORS 537.409 describes the criteria used to evaluate alternate reservoir applications.

The review shall be limited to issues pertaining to: a) water availability, b) potential detrimental impact to existing fishery resources; and c) potential injury to existing water rights. (ORS 537.409 (6))

Within 60 days after the department provides public notice...any person may submit detailed, legally obtained information in writing, requesting the department to deny the application for a permit on the basis that the reservoir: (a) Would result in injury to an existing water right; or (b) Would pose a significant detrimental impact to existing fishery resources. (ORS 537.409 (5))

The review of alternate reservoirs is limited to these criteria only.

Date: 5/15/03 30 day Deadline Date: 6/13/03

R-85522

STEVE J SPHAR
PO BOX 182
SILVER LAKE OR 97638

1) Does the proposed reservoir have the potential to injure existing water rights? NO / YES / DON'T KNOW
Explain: An instream application is in the works to Forest Service boundary. I am not sure what happens below this.

2) Would the proposed reservoir pose a significant detrimental impact to an existing fishery resource? NO / YES
Explain: (For example, list STE species or other existing fishery resources that would be negatively impacted.)
Great Basin Redhead Trout movement up and downstream.

Please check either of the boxes below if appropriate:

Any diversion into storage during the period _____ through _____ poses a significant detrimental impact to existing fishery resources.

This proposed pond or reservoir contemplates impounding water in the Columbia Basin above Bonneville Dam. ODFW has determined that additional diversions of water in this area poses a significant detrimental impact to existing fishery resources during the period April 15 through September 30.

3) Can conditions be applied to mitigate the detrimental impact to an existing fishery resource? NO / YES
If YES, which conditions are recommended: (select from the Menu of Conditions listed on back)
Pispic - this is an existing situation that needs to be cleaned up. A cooperative screen and ladder will resolve any problems.

4) Did you meet with staff from another agency to discuss this application? NO / YES
Who: David Poe Agency: WRD Date: _____
Who: _____ Agency: _____ Date: _____

ODFW RECOMMENDATION:

- Approval with fishery conditions
- Approval without fishery conditions
- Denial. (Based on significant detrimental impact to existing fishery resource or injury to existing water right.)

MENU OF CONDITIONS FOR WRD, ODFW, DEQ AND AG
(Developed 6/27/97 - revised 2/26/02)

- fish** The permittee shall install, maintain, and operate fish screening and by-pass devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the proposed diversion. The required screen is to be in place and functional prior to diversion of any water.
- odfw** The permittee shall install, maintain, and operate fish screening and by-pass devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the proposed diversion. The required screens and by-pass devices are to be in place, functional and approved by an ODFW representative prior to diversion of any water.
- B54b** The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion. The permittee shall also install a fishway at the obstruction that will provide adequate upstream and downstream passage for fish. The permittee may submit evidence that the Oregon Department of Fish and Wildlife (ODFW) has determined screens and/or fishways are not necessary. The required screens and fishways are to be in place, functional, and approved by ODFW before diversion of any water.
- b54c** The permittee shall not construct, operate or maintain any dam or artificial obstruction to fish passage in the channel of the subject stream without providing a fishway to ensure adequate upstream and downstream passage for fish. The applicant is hereby directed to contact an Oregon Department of Fish and Wildlife Fish Passage Coordinator, Portland, Oregon, before beginning construction of any in-channel obstruction.
- b54m** The permittee may be required in the future to install, maintain, and operate fish screening devices to prevent fish from entering the proposed diversion.
- b52** Water may be diverted only when Department of Environmental Quality sediment standards are being met.
- b5** The water user shall install and maintain adequate treatment facilities meeting current DEQ requirements to remove sediment before returning the water to the stream.
- b51a** The period of use has been limited to _____ through _____.
- b57** Before water use may begin under this permit, a totalizing flow meter must be installed at each diversion point. The totalizing flow meter must be installed and maintained as identified in OAR 690-507-645.
- b58** Before water use may begin under this permit, a staff gage that measures the entire range and stage between full reservoir level dead pool storage must be installed in the reservoir. The staff gage shall be United States Geological Survey style porcelain enamel iron staff gage style A, C, E or I. Additionally, before water use may begin under this permit, if the reservoir is located in channel then weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, a gated valve outlet must be installed. A written waiver may be obtained from the local Watermaster if in his judgement the installation of the weir(s) will provide no public benefit.
- no id yet** (futile call) The use of water allowed herein may be made only at times when waters from the (SPRING OR WHATEVER) would not otherwise flow into a tributary of the (WHATEVER) River or sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.
- 4a** This use of water shall be limited when it reduces the flow of water in (NAME OF STREAM).(name of stream).
- plspc** If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area.
- The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.
- The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion. The permittee shall also install a fishway at the obstruction that will provide adequate upstream and downstream passage for fish. The permittee may submit evidence that the Oregon Department of Fish and Wildlife (ODFW) has determined screens and/or fishways are not necessary. The required screens and fishways are to be in place, functional, and approved by ODFW before diversion of any water.
- no id yet** The stream and its adjacent riparian area shall be fenced to exclude livestock.
- blv** Water must be diverted to a trough or tank through an enclosed water delivery system. The delivery system must be equipped with an automatic shutoff or limiting flow control mechanism or include a means for returning water to the stream source through an enclosed delivery system. The use of water shall not exceed 0.10 cubic feet per second per 1000 head of livestock.

Dear Mr. Wright,

I am very sorry about
this not getting to you sooner.

I did mail this off in Feb
but apparently it did not get
to you.

I am glad that I photo copied
all the forms for my records.

The water master informed
us that you didn't get this
permit. I was not very happy
to see us using the water.
Our water rights allow us to
use flood water. Apparently
there is some confusion about
when the level of the banks
are considered ~~the~~ flood level.

SALEM, OREGON

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless your project will be located entirely within the city limits. In this case, only the city planning agency must complete this form. Please request additional forms as needed or feel free to copy.

A. Allowed Use

Check the appropriate box below and provide requested information.

- Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s); 2.01A. Go to section B "Approval" below
- Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below.

Type of Land Use Approval Needed (e.g. plan amendments, rezones, conditional use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Check the item that applies: Land Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued

Note: Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus accompanying findings is sufficient.)

B. Approval

Please provide printed name and written signature.

Name: Ray Simms Date: 1-31-03
 Title: Director Phone: 541-947-6032
 Signature: Ray Simms

C. Additional Comments

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet.

Note: If this form cannot be completed while the applicant waits, sign and detach the receipt stub as instructed below. You will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD will presume the land use associated with the proposed water right is compatible with local comprehensive plans. (See attached letter.)

Receipt for Request for Land Use Information

Name of water right applicant: _____

This receipt must be signed by a local government representative and returned to the applicant at the time they present this form. This receipt must be included in the application for a water right permit if the local government cannot provide the requested land use information while the applicant waits.

City or County: _____

WATER RESOURCES DEPT.
SALEM, OREGON

Oregon Water Resources Department Land Use Information Form

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. DO NOT fill out this form if water is to be diverted, conveyed, or used only on federal lands.

To Be Completed By Applicant

The following section includes information about proposed water use. This section must be completed by the individual or group that is filing an application for a water right with the Water Resources Department.

A. Applicant

Name: Steve J. Sphar
 Address: PO Box 182
 City: Silverlake State: OR Zip: 97638 Day Phone: 541-576-3048

B. Land and Location

Please provide information as requested below for all tax lots on or through which water will be diverted, conveyed, or used. Check "diverted" if water is diverted (taken) from its source on tax lot, "conveyed" if water is conveyed (transported) on tax lot, and "used" if water will be put to beneficial use on tax lot. More than one box may be checked. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot I.D.	Plan Designation (e.g. Rural Residential/RR-5)	Water to be: (check all that apply)		
<u>Acres 1.234</u> <u>lots 1,2,3,4</u>	<u>RR5</u>	<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used
		<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used
		<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used

List counties and cities where water is proposed to be diverted, conveyed, or used. Lake County

C. Description of Water Use

Indicate what the water will be used for. Include the beneficial use (found in the instruction booklet for your water right application) and use the space below to describe the key characteristics of the project.

Beneficial Use(s): Improve the land
 Briefly describe: Water will be used to keep existing meadows growing and water for grazing livestock

D. Source

Indicate the source for the proposed water use:

Reservoir/Pond Ground Water Surface Water _____ (source)

E. Quantity

Indicate the estimated quantity of water the use will require:

9.0 CFS GPM Acre-Feet

**ALTERNATE REVIEW PROCESS
FOR RESERVOIRS STORING LESS THAN 9.2 ACRE-FEET*
OR WITH A DAM LESS THAN 10 FEET HIGH
R-85522**

The alternate Review Process was created so that final order approving or denying a permit to store water is issued approximately 180 days after the application has been accepted by the Department. **This process applies only to the application to store water.**

To apply under the Alternate Review Process the following information must be completed.

- OK Landowner name, mailing address and telephone number.
- OK The source of water to be stored. If the source is to be a well, you cannot apply under the Alternate Review Process.
- OK Reservoir location, by Township, Range and Section, Quarter-quarter section and Tax Lot. You must indicate if the Township is North or South and Range East or West.
- OK Dam height. If an excavated pond, indicate excavated.
- OK Quantity of water to be stored in a single storage period. List the quantity in acre-feet. **One is equal to an area one acre in size, one foot deep. One acre-foot is equal to 325,851 gallons or 43,560 cubic feet.**
- OK The use of the water. Note: if any water is to be pumped or released from the reservoir, a secondary surface water application is required. File the secondary application concurrently with the application to store water.
- OK The Environmental Impact section. Please circle in-stream or off channel on Section 5A.
- OK **Sign the application in ink.**

Only one pond, reservoir or other storage method per application. Multiple ponds on a single property require multiple applications.

- OK **A legible map showing the Township, Range, Section, Quarter-quarter section and Tax lot number with the location of the reservoir indicated must be submitted with the application.**

The map must follow the criteria set forth under OAR 690-310-050. A copy of an assessors plat map is a very good map to use as it shows most all map requirements.

The Department will not accept aerial photos, U.S.G.S. Quad maps or title insurance company maps unless all criteria set forth under OAR 690-310-050 is applied to the map submitted.

Hand drawn maps are acceptable.

OK The map must be drawn in ink. Do not use highlighter pens or multiple colors of ink. If the map is larger than 11"X 17", four copies should be submitted, or it must be drawn on tracing linen, tracing velum or mylar.

OK The North directional symbol must be indicated on the map.

OK The location of each diversion point or dam must be referenced to a recognized public land survey corner; do not measure from property line unless they are part of the public land survey lines. The locations may be shown by distance and bearing or by coordinates (EX: "400 feet south and 350 feet west of the Northeast corner of section 27").

OK The location of the reservoir identified by tax lot, township, range, section and nearest quarter-quarter section. Please show tax lot boundaries.

OK A completed Land-Use Information Form OR signed receipt by the local planning department must also be submitted with the application.

OK The fee for the Alternate Review Process is based upon the quantity of water to be stored. Fees are \$10.00 per acre foot up to a maximum of \$100.00. For example, for a pond storing 4.5 acre-feet, the fee would be \$45.00. If the total storage for a single reservoir is greater than 10 acre-feet, the maximum fee is \$100.00.

For more information about the application process and water rights, please call the Water Rights Information Group at (503)378-8455 extension 201.

*** One acre-foot is equal to an area one acre in size, one foot deep.**

COMPLETED BY: ROGER WRIGHT

DATE: 4/1/03

Based on information received, the use of live flow for filling (one time) the alternate reservoir:

- water availability YEAR-ROUND
- other restrictions: YEAR-ROUND

Will be limited to: YEAR-ROUND

Application for a Permit to Store Water

Alternate Review Process (ORS 537.409)

You may use this form for any reservoir storing less than 9.2 acre-feet or with a dam less than 10 feet high.

Use a separate form for each reservoir

Please type or print in dark ink. If your application is found to be incomplete or inaccurate, we will return it to you. If any requested information does not apply, insert "n/a"

3. WATER USE

Indicate the proposed use(s) of the stored water. NOTE: You may wish to consider filing for "Multipurpose use" for your reservoir. Multipurpose use does not limit the types of future uses for the stored water. Multipurpose covers all uses including: stockwater, fish and wildlife, aesthetics, domestic, irrigation, agriculture, fire protection and pollution abatement. If any use will be out of reservoir use, regardless of the type of storage listed, a secondary application must be filed to appropriate the stored water.

MULTIPURPOSE

4. PROPERTY OWNERSHIP

Do you own all the land where you propose to divert, transport, and use water?

- Yes (Skip to section 5)
- No Please check the appropriate box below.
 - I have a recorded easement or written authorization permitting access.
 - I do not currently have written authorization or an easement permitting access to lands not under my ownership.

List the names and mailing addresses of all affected landowners*:

* If more than 25 landowners are involved, a list is not required. Alternative notice may be made.

5. ENVIRONMENTAL IMPACT

- A. Channel: Is the reservoir in stream or off channel ?
 - B. Wetland: Is the project in a wetland? Yes No Don't know
 - C. Existing: Is this an existing reservoir? Yes No If yes, how long has it been in place? 50 years.
 - D. Fish Habitat: Is there fish habitat upstream of the proposed structure? Yes No Don't know. If yes, how much? _____ miles.
 - E. Partnerships: Have you been working with other agencies? Yes No
- Indicate agency, staff and phone numbers of those involved. Also indicate any agencies that are cost sharing in this project.

6. SIGNATURE

I attest that all statements made and information provided in this application are true and correct to the best of my knowledge.

Steve J. Spina
Landowner/Authorized Agent

Nov. 1 - 02
Date

Before you submit your application be sure you have:

- Answered each question completely.
- Included a legible map which includes Township, Range, Section, quarter-quarter and tax lot number. The map must meet map requirements to be accepted.
- Included a land use form or receipt stub signed by a local planning official.
- Included a check payable to Oregon Water Resources Department for the appropriate amount.

FEE STRUCTURE: The fee is based on the number of acre-feet proposed to be stored. The fee is \$10 per Acre-Foot. Example: 0.3 AF = \$3.00; 1.5 AF = \$15.00; 20.0 AF = \$100 Maximum fee is \$100 for any reservoir storing more than 10 Acre-Feet
