GW

The Department has reviewed the status of your pump test and any requests for extension(s) or exemption(s) for the following permitted well(s). The results are summarized in the following table:

Application	Water Right	Permitted Well	Pumped Well	Test Date	Request Status	Exemption	Well Name
G 16397	Permit: G 17549 *	CLAC0071596	CLAC0071596		APPROVED	Unreas Burden	WELL 1

The Unreasonable Burden Exemption Request for Well CLAC 71596 under Permit G-17549 is approved.

Please note that if an additional or replacement well is constructed in the future pursuant to this permit or a subsequent certificate, a pumping test meeting the requirements of OAR 690-217 will need to be conducted and submitted to the Department at that time. It is recommended that a pumping test be conducted at the time of pump installation or repair to avoid additional interruptions in service and minimize mobilization costs.

Please contact me if you have any questions.

Sincerely,

Travis Brown
