RE: WATER MEASURING DEVICE NOTICE

This notice is to inform you of the need to install a measuring device at your point of diversion from Adams Creek. Your point of diversion from Adams Creek, as identified below, does not have an adequate measuring device to allow for proper regulation of water use. Oregon Revised Statutes (ORS) 540.045(1) authorizes the watermaster to regulate the distribution of water among users in accordance with existing water rights of record. A workable measuring device is necessary for water management and to ensure compliance with your water right.

Your point of diversion from Adams Creek, authorized by Certificate 62409, is located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, DLC 37, Section 6, T23S, R4W, W.M.; 1100 feet South and 1150 feet West from the NE Corner of Section 6.

ORS 540.310 and Oregon Administrative Rule 690-250-0060 provides the authority for the Department to require a measuring device. **After January 20, 2015 (ten days from the mailing of this notice), the watermaster may regulate off your use of water and prohibit you from diverting water until an approved workable measuring device is installed and operating properly (ORS 540.320).** The measuring device will need to be in place prior to the diversion of water authorized under Certificate 62409.

Prior to installation, you are required to get approval from the watermaster for the type and configuration of the measuring device. The watermaster may approve an alternate plan or construction schedule under certain circumstances. The watermaster should be contacted if other arrangements are needed.

Please contact David S. Williams, District 15 Watermaster at 541-440-4255 for more information or if you have any questions about this notice.

Thomas M. Byler, Director
Oregon Water Resources Department

CERTIFIED - RETURN RECEIPT REQUESTED FIRST CLASS MAIL

This is a Final Order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

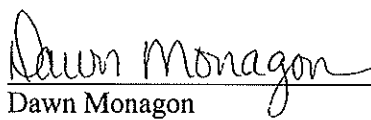

CERTIFICATE OF SERVICE

I hereby certify that on January 9, 2015, I mailed a true certified copy of the attached WATER MEASURING DEVICE NOTICE, by first class mail and certified mail, by depositing the same in the U.S. Post Office, with prepaid postage thereon, addressed to the following:

Mr. Harold R. Boucock
