

**Oregon Water Resources Department
Water Right Services Division**

Water Right Application R-89201 in the)
name of KIRSTEN FREED and 7TH)
GENERATION MANAGEMENT) PROPOSED FINAL ORDER

Summary: The Department proposes to issue an order approving Application R-89201 and a permit consistent with the attached draft permit.

Prior to the issuance of a permit, if one is issued, the Department must receive the following:

- **Permit recording fees in the amount of \$41.00. A check should be made out to the Oregon Water Resources Department or OWRD.**

Please include the application number on any documents submitted.

Authority

The application is being processed in accordance with Oregon Revised Statute (ORS) 537.153 through 537.175, and 390.826, and Oregon Administrative Rule (OAR) Chapter 690, Divisions 5, 33, 300, 310, 400, 410, and the Willamette Basin Program (OAR 690-502). These statutes and rules can be viewed on the following website: <https://www.oregon.gov/OWRD/programs/policylawandrules/Pages/default.aspx>.

The Department’s main website can be found at: <https://www.oregon.gov/OWRD>.

The Department shall presume that a proposed use will not impair or be detrimental to the public interest if:

- a) The proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310(12);
- b) Water is available;
- c) The proposed use will not injure other water rights; and
- d) The proposed use complies with the rules of the Commission. ORS 537.153(2); OAR 690-310-0110(1)

All four criteria must be met for a proposed use to be presumed to not impair or be detrimental to the public interest. When the criteria are met and the presumption is established, or if the proposed use can be modified or conditioned to meet the presumption criteria, the Department must further evaluate the proposed use, any comments received, information available in its files or received from other interested agencies and any other available information to determine whether the presumption is overcome. OAR 690-310-0120(3).

If the Department determines that the presumption is established and not overcome, the Department shall issue a Proposed Final Order recommending issuance of the permit subject to any appropriate modifications or conditions.

FINDINGS OF FACT

Application History

1. On January 5, 2022, Kirsten Freed and 7th Generation Management filed a complete application for the following water use:
 - Source:** RUNOFF, TRIBUTARY TO AN UNNAMED STREAM
 - Use:** STORAGE FOR IRRIGATION AND FIRE PROTECTION
 - Rate/Volume:** 10.0 ACRE-FEET (AF)
 - Period of Use:** JANUARY 1 THROUGH DECEMBER 31
 - County:** POLK COUNTY
 - Place of Use:** SECTION 3, TOWNSHIP 10 SOUTH, RANGE 6 WEST, W.M.
2. On January 28, 2022, the Department mailed the applicant notice of its Initial Review, determining that the diversion of 10.0 AF of water from runoff, tributary to an unnamed stream, for storage, being 7.0 AF in Reservoir #1, 1.0 AF in Reservoir #2, 1.0 AF in Reservoir #3, and 1.0 AF in Reservoir #4, for irrigation and fire protection may be allowable November 1 through June 30 of each year, contingent on the submission of additional required information. The applicant did not notify the Department to stop processing the application within 14 days of that date.
3. On February 2, 2022, the Department provided notice of the application in its weekly public notice, requesting comments, and providing information for interested persons about obtaining future notices and a copy of the Proposed Final Order.
4. On March 7, 2022, the applicant submitted a corrected map, as requested in the Initial Review.

Presumption Criteria (a) Consistency with Basin Program

5. Storage for irrigation and fire protection is allowed November 1 through June 30 under the Willamette Basin Program (OAR 690-502-0040(4)(a)). ORS 537.153(2); OAR 690-310-0110(1)(a)

Presumption Criteria (b) Water Availability

6. An assessment of water availability at 50% exceedance for the proposed use was completed using the Department's Water Availability Reporting System. A copy of this assessment is in the application file. This review is done consistent with OAR 690-410-0070(2)(c). The assessment established that surface water is available September 1 through July 31 of each year. ORS 537.153(3)(c); OAR 690-310-0150(2)(c)

Presumption Criteria (c) Injury Determination

7. The proposed use will not injure other water rights. ORS 537.153(2); OAR 690-310-0150(2)(e)

Presumption Criteria (d) Whether the Use Complies with Rules of the Commission

8. Documentation has been submitted from the relevant land-use planning jurisdiction that indicates the proposed use is allowed outright. ORS 537.153(2)(b); OAR 690-310-0150(2)(b)

9. The proposed use is in an area of the state in which OAR 690-033-0210 thru -0230 and OAR 690-033-0310 thru -0340 apply. These rules establish definitions, additional procedures, and standards to aid the Department in determining whether a proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened, or endangered fish species.

OAR 690-033-0210 Lower Columbia Rules (Below Bonneville Dam)

- A. The proposed use of water is detrimental to the protection or recovery of a threatened or endangered species. OAR 690-033-0220(1)
- B. The proposed use can be conditioned or mitigated to avoid the detriment. OAR 690-033-0220(1)
- C. The application, as conditioned, is not presumed to impair or be detrimental to the public interest.

OAR 690-033-0310 Statewide Rules

- A. The proposed use occurs occur in an area that may affect the habitat of sensitive, threatened or endangered fish species. OAR 690-033-0310(2)
- B. The applicant has been notified that based on a preliminary determination, the proposed use may affect the habitat of sensitive, threatened or endangered fish species and the application may be conditioned or denied. OAR 690-033-0330(1)(a)
- C. The interagency review team has been notified that an application has been received in an area that may affect the habitat of sensitive, threatened or endangered fish species. OAR 690-033-0330(1)(b)
- D. The interagency review team was convened to review the application and recommend limitations and/or conditions as necessary to achieve the standards listed in 690-033-0330(2)(a) and (b). As a result of this review, diversion has been limited to December 1 through June 30 and Permit Specific Conditions #3 through #6 have been included in the draft permit.

Determination of Presumption that a Proposed Surface Water Use will not Impair or be Detrimental to the Public Interest

Based on the review of the presumption criteria (a)-(d) above, the presumption has been established. ORS 537.153(2); OAR 690-310-0110(1)(a)-(d)

Further Evaluation of the Proposed Use

10. No comments were received by the close of the comment period. OAR 690-310-0120(3)
11. Information available in Department files, received from other interested agencies, and other available information does not provide a preponderance of evidence that the proposed use would impair or be detrimental to the public interest under ORS 537.153. OAR 690-310-0120(3)

Other Criteria and Requirements

12. The proposed use is not located within or above a state scenic waterway, as designated under ORS 390.826.
13. The amount requested, 10.0 AF, is necessary for the proposed use. ORS 537.153(3)(c); OAR 690-310-0150(2)(d)
14. The applicant proposed methods to measure the amount of water diverted, prevent damage to aquatic life and riparian habitat, prevent discharge of contaminated water to a surface stream and prevent damage to public uses of any affected surface waters. These measures are adequate at this time. OAR 690-310-0150(2)(j)
15. The proposed use complies with rules of the Water Resources Commission not otherwise described above.

CONCLUSION OF LAW

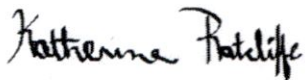

1. The proposed use would not impair or be detrimental to the public interest as described in ORS 537.153(2).

NOTE: When issuing permits, ORS 537.170(6) authorizes the Department to include provisions or restrictions concerning the use, control and management of water to be appropriated for the project.

PROPOSED ORDER

The Department recommends approval of Application R-89201 and issuance of a permit consistent with the attached draft permit.

DATED August 30, 2022

Katherine Ratcliffe
Water Rights Section Manager, for
Thomas M. Byler, Director
Oregon Water Resources Department

Protests

Under the provisions of ORS 537.153(7) (for surface water) or ORS 537.621(8) (for groundwater), you can protest this Proposed Final Order. If you wish to submit a protest by U.S. mail, please consider mailing early to ensure the Department receives the protest by the deadline specified. Protests must be received by the Water Resources Department no later than **October 14, 2022**.

Protests must be in writing and include the following:

- Your name, address, and telephone number;
- A description of your interest in the Proposed Final Order, and, if you claim to represent the public interest, a precise statement of the public interest represented;
- A detailed description of how the action proposed in the Proposed Final Order would impair or be detrimental to your interest;
- A detailed description of how the Proposed Final Order is in error or deficient, and how to correct the alleged error or deficiency;
- Any citation of legal authority to support your protest, if known;
- To affect the Department's determination that the proposed use in this application will, or will not, impair or be detrimental to the public interest, ORS 537.153(6) requires that a protest demonstrate, by a preponderance of evidence any of the following: (a) One or more of the criteria for establishing the presumption are, or are not, satisfied; or (b) The specific aspect of the public welfare, safety and health under ORS 537.170(8) that would be impaired or detrimentally affected, and specifically how the identified aspect of the public welfare, safety and health under ORS 537.170 (8) would be impaired or be adversely affected;
- If you are the applicant, a protest fee of \$480 required by ORS 536.050; and
- If you are not the applicant, a protest fee of \$950 required by ORS 536.050 and proof of service of the protest upon the applicant.
- If you are the applicant, a statement of whether or not you are requesting a contested case hearing.

Requests for Standing

Under the provisions of ORS 537.153(7) (for surface water) or ORS 537.621(8) (for groundwater), persons other than the applicant who support a Proposed Final Order can request standing for purposes of participating in any contested case proceeding on the Proposed Final Order or for judicial review of a Final Order.

Requests for standing must be received in the Water Resources Department no later than **October 14, 2022**. Requests for standing must be in writing, and must include the following:

- The requester's name, mailing address and telephone number;
- If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;
- A statement that the requester supports the Proposed Final Order as issued;
- A detailed statement of how the requester would be harmed if the Proposed Final Order is modified; and

DRAFT

This is not a permit.

DRAFT

STATE OF OREGON

COUNTY OF POLK

DRAFT PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS DRAFT PERMIT IS HEREBY ISSUED TO

KIRSTEN FREED
13505 IRA HOOKER RD
MONMOUTH OR 97361

7TH GENERATION MANAGEMENT
PO BOX 878
LAKE OSWEGO OR 97034

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-89201

SOURCE OF WATER: RUNOFF, TRIBUTARY TO AN UNNAMED STREAM

Reservoir Name	Maximum Volume (Acre-Feet)	Maximum Dam Height (Feet)
RESERVOIR #1	7.0	9.9
RESERVOIR #2	1.0	9.9
RESERVOIR #3	1.0	9.9
RESERVOIR #4	1.0	9.9

PURPOSE OR USE OF THE STORED WATER: IRRIGATION AND FIRE PROTECTION

WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD: DECEMBER 1 THROUGH JUNE 30

DATE OF PRIORITY: JANUARY 5, 2022

AUTHORIZED POINTS OF DIVERSION/RESERVOIR LOCATIONS:

POD/RESERVOIR	Twp	Rng	Mer	Sec	Q-Q	Measured Distances
RESERVOIR 1	10 S	6 W	WM	3	SE NW	1307 FEET SOUTH AND 1520 FEET EAST FROM NW CORNER, SECTION 3
RESERVOIR 2	10 S	6 W	WM	3	NW NW	1310 FEET SOUTH AND 640 FEET EAST FROM NW CORNER, SECTION 3
RESERVOIR 3	10 S	6 W	WM	3	NW NW	1040 FEET SOUTH AND 760 FEET EAST FROM NW CORNER, SECTION 3
RESERVOIR 4	10 S	6 W	WM	3	NW NW	1000 FEET SOUTH AND 815 FEET EAST FROM NW CORNER, SECTION 3

THE AREA TO BE SUBMERGED BY THE RESERVOIRS:

Twp	Rng	Mer	Sec	Q-Q
10 S	6 W	WM	3	NE NW
10 S	6 W	WM	3	NW NW
10 S	6 W	WM	3	SW NW
10 S	6 W	WM	3	SE NW

PERMIT SPECIFIC CONDITIONS

1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

2. **Water Use Measurement, Recording, and Reporting:**
 - A. The Director may require the permittee to install a staff gage that measures the entire range and stage between full reservoir level and dead-pool level in the reservoir. If no dead-pool, the gage must measure the full depth of the reservoir. If the Director notifies the permittee to install a staff gage, the permittee shall install such device within the period stated in the notice. Once installed, the permittee shall maintain the device in good working order and shall allow the watermaster access to the device.

 - B. The Director may require the permittee to keep and maintain a record of the volume of water stored, and may require the permittee to report water-storage on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water-use information, the periods of water use and the place and nature of use of water under the permit.

 - C. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

3. **Maintain Passage:**

The permittee shall maintain adequate passage of native migratory fish at all times (ORS 509.610) and shall not construct, operate or maintain any dam or artificial obstruction to fish passage across any waters of the state that are inhabited, or where historically inhabited by native migratory fish (ORS 509.585).

4. **Fish Screen:**

The permittee shall install, maintain, and operate fish screening consistent with current Oregon Department of Fish and Wildlife (ODFW) standards or submit documentation that ODFW has determined fish screening is not necessary or is exempted. Fish screening is to prevent fish from entering the proposed diversion. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW **prior to diversion of any water**. The permittee shall operate and maintain the fish screen consistent with ODFW’s operation and maintenance standards. The permittee is hereby directed to schedule a consultation with an ODFW Fish Screen Coordinator.

5. Riparian Area Restoration:

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

6. In-Water Work:

Any in-water work related to construction, development, or maintenance of the proposed use shall be conducted during the preferred work period of July 1 through October 31, unless an alternate time period is approved by Oregon Department of Fish and Wildlife.

7. Fish Stocking:

Per ORS 498.222 and OAR 635-007-0600, all persons transporting fish in Oregon shall have a fish transport permit issued by the Oregon Department of Fish and Wildlife (ODFW). The permittee shall not stock fish in the reservoir without a fish transport permit issued by ODFW. As part of the permitting process, the permittee shall also screen the inlet and outlet of their pond to ensure that fish cannot escape into public waters and/or to keep wild fish from entering the pond.

RESERVOIR CONDITIONS

1. The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe (with a minimum diameter of 8" for any in-channel reservoir). This requirement may be waived if the Department determines other means have been provided to evacuate water when necessary.
2. The permittee shall pass all live flow outside the storage season described above.
3. The Director may require the user to measure inflow and outflow, above and below the reservoir respectively, to ensure that live flow is not impeded outside the storage season. Measurement devices and their implementation must be acceptable to the Director, and the Director may require that data be recorded on a specified periodic basis and reported to the Department annually or more frequently.
4. The permittee shall not construct, operate or maintain any dam or artificial obstruction to fish passage in the channel of the subject stream without providing a fishway to ensure adequate upstream and downstream passage for fish, unless the permittee has requested and been granted a fish passage waiver by the Oregon Fish and Wildlife Commission. The permittee is hereby directed to contact an Oregon Department of Fish and Wildlife Fish Passage Coordinator, before beginning construction of any in-channel obstruction.
5. This permit allows an annual appropriation (not to exceed the specified volume). This permit does not provide for the appropriation of water for out-of-reservoir uses, the maintenance of the water level or maintaining a suitable freshwater condition. If any water is to be used for out-of-reservoir purposes, a secondary water right is required. If any additional live flow is to be appropriated to

maintain either the water level or a suitable freshwater condition, an additional water right is required.

STANDARD CONDITIONS

1. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
2. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
3. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

DEVELOPMENT AND COMPLETION TIMELINE REQUIREMENTS

1. Construction work must be supervised by the Engineer of Record for the project. Construction of the water system shall begin within five years of the date of permit issuance. The deadline to begin construction may not be extended. This permit is subject to cancellation proceedings if the begin construction deadline is missed.
2. The permitted volume of water shall be stored within five years of the date of permit issuance. If additional time is needed, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.
3. Within one year after storage of water, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.
