Plan Updates and Subsequent State Recognition

It is up to the planning group to decide if, when, and/or how frequently it would like to revisit and/or revise their Plan. This could include a specific process or criteria for determining when the plan needs to be revised or updated. The planning groups may choose to periodically update the Commission on progress and accomplishments, needs, and Plan revisions as they implement their Plans. The planning group may consider seeking state recognition again when the Plan is substantially changed.
